DeKalb County School District

Consolidated School Improvement Plan
2012-2013

Division of School Leadership and Operational Support
Kendra March, Deputy Superintendent

Statement of Quality Assurance

To ensure that school and district stakeholders have a common understanding regarding the development and implementation of the Consolidated School Improvement Plan prior to its approval, each party is asked to carefully review this section and the plan in its entirety. By his or her signature on this page, each party attests to the fact that he or she approves of the plan.

I hereby certify that, to the best of my knowledge, the information contained in the attached Consolidated Schoolwide Improvement Plan (CSIP) is correct, complete, addresses all components required under Federal, State, and district laws, policies, and regulations, and that all specified assurances have been and/or will be met within the operating period of this plan.	
Principal:	Date:
Regional Superintendent:	Date:

The Consolidated School Improvement Plan (CSIP) contains and/or is aligned with the following guidelines and mandates:

AdvancEd (SACS CASI)	Required for District-wide Accreditation
Georgia Department of Education Annual School Improvement Plan	Georgia DOE mandate
DeKalb County School System Departmental Action Plans __X_Professional Learning _X__Library-Media __X_School Climate _X__Teacher Retention ___Career Technology (Middle and High Schools)	Required for all DeKalb County Schools

CSIP Table of Contents

Integration of AdvancED (SACS CASI) and Georgia DOE School Keys

The following standards are incorporated and adhered to in this CSIP document:

AdvancED (SACS CASI) Accreditation Standards
Standard 1: Purpose and Direction The school maintains and communicates a purpose and direction that commit to high expectations for learning as well as shared values and beliefs about teaching and learning.
Standard 2: Governance and Leadership The school operates under governance and leadership that promote and support student performance and school effectiveness.
Standard 3: Teaching and Assessing for Learning The school's curriculum, instructional design, and assessment practices guide and ensure teacher effectiveness and student learning.
Standard 4: Resources and Support Systems The school has resources and provides services that support its purpose and direction to ensure success for all students.
Standard 5: Using Results for Continuous Improvement The school implements a comprehensive assessment system that generates a range of data about student learning and school effectiveness and uses the results to guide continuous improvement.

Georgia School Key Strands
Curriculum - A system for managing and facilitating student achievement and learning based upon consensus-driven content and performance standards.
Assessment - The collecting and analyzing of student performance data to identify patterns of achievement and underachievement in order to design and implement appropriate instructional interventions.
Instruction - Designing and implementing teaching - learning - assessment tasks and activities to ensure that all students achieve proficiency relative to the Georgia Performance Standards (CCGPS).
Planning and organization – The processes, procedures, structures, and products that focus the operations of a school on ensuring attainment of standards and high levels of learning for all students.
Student, family, and community involvement and support- The school as a community of learning involves parents and community members as active participants. There is consistent and growing evidence of parental involvement and volunteerism, participation in workshops and enrichment activities, and a process of two-way communication. Everyone collaborates to help the school achieve its continuous improvement targets and short- and long-range goals.
Professional learning - Professional learning is the means by which teachers, administrators and other school and system employees acquire, enhance and refine the knowledge, skills, and commitment necessary to create and support high levels of learning for all students
Leadership - The governance process through which individuals and groups influence the behavior of others so that they work collaboratively to achieve common goals and promote organizational effectiveness.
School culture - The norms, values, standards, and practices associated with the school as a learning community committed to ensuring student achievement and organizational productivity.

Establishing a CSIP Facilitator, Steering Committee, and Subcommittees

The principal will appoint a CSIP Facilitator and ensure that the Steering Committee (SC) is representative of all stakeholders. This includes school administrators, teachers, classified staff members, parents, and community members. **High schools must have at least one student representative.** The CSIP Facilitator is responsible for oversight of the CSIP throughout the planning process and the submission of the final document to the principal for approval. The SC is comprised of the CSIP Facilitator and the chairpersons of all subcommittees. The SC and subcommittees are responsible for the development, on-going monitoring, and implementation of the CSIP. The SC will make necessary revisions to the Plan, collect evidence files for Quality Assurance and perform the End-of-Year Review of the school's success in implementing the Consolidated School Improvement Plan.

School Council Approval Form

Purpose of Meeting: According the 2009 Georgia School Code, all school improvement plans (CSIP) must be submitted to the local School Council for "review, comments, recommendations, and approval"**.**

The signatures below indicate that the Consolidated School Improvement Plan for the school above has been reviewed and approved by the school's local School Council.

<u>**Executive Summary of Consolidated School Improvement Plan (CSIP)**</u>

The following summary expresses the key points that will be found in the full Consolidated School Improvement Plan for 2012-2013. This includes the Needs Assessment, pertinent supporting data, and a plan of action for the new school year.

The following programs, initiatives, and/or interventions were successful for 2011-2012:
In 2011-2012 we identified the areas of higher order thinking and differentiation to be our school-wide focus. Our goals were to establish Professional Learning Communities (PLC's) to address these areas as well as to develop a stronger, more consistent method of delivery for professional development within the identified areas. More specifically, PLC's were established to allow staff members to choose one identified area for school-wide improvement that best fit his/her individual interest and needs for growth. Staff then participated in their selected PLC to complete a study of choice; book study, action research, peer observation, or teacher rounds. In addition, a "CSIP Cookbook" was developed to provide a simple, yet consistent method of delivery for professional development and professional conversations regarding differentiation and higher order thinking.

As our student body consists of a high percentage of gifted/talented students, our staff has also been dedicated to achieving Gifted In-Field Certification to better serve the needs of our students. During 2012-2013, we will increase the number of staff members with a Gifted In-Field Endorsement as six more teachers have enlisted to complete the endorsement program during the 2012-2013 school year. We strongly feel that receiving this endorsement helps us to meet our school-wide goals for differentiation through variations in process, content, and product.

We had also hoped to undertake a search for a better way to implement ELA instruction into our daily schedules and routines. More specifically, we wanted to ensure that ELA/word study would be taught in conjunction with writing, which would also open more opportunities for RTI time in every daily schedule. Despite several conflicts in scheduling, all grade levels now have consecutive word study and writing blocks. This is a step in the right direction.

The following programs, initiatives, and/or interventions were not as successful as hoped for 2011-2012:
The Literacy Team was charged with examining our teacher resources for grammar and convention standards. If our materials were adequate, the team was to develop a plan to address teacher training in effective use of our resources. If additional materials were needed, the team was to research materials and make a recommendation for purchase of additional materials. Neither of these tasks took place to the extent of positive change or progression.

The following issues were barriers to the successful implementation of the above programs, initiatives, and/or interventions:
The continued conflicts in scheduling took precedence as it seemed more important to find time in the daily schedule to teach grammar/convention before addressing the issue of materials. Therefore, time and energy was spent discussing scheduling possibilities for the Discovery, ESOL, writing, and word study blocks in order to gain a better balance in all daily schedules. There was also a lack of communication between the CSIP Committee and the Literacy Team. Without a doubt, increased and consistent communication and a plan for follow-up actions were needed to make this initiative successful.

Based on careful examination of past performance, new data, and staff capacity and buy-in, the following plan of action will be taken for 2012-2013:
We have again identified the areas of higher order thinking and differentiation for areas of school-wide focus. We have further identified specific aspects of each focus area in order to streamline our attention and actions toward achievement.

In relation to higher order thinking, we will focus on the following areas:
   -Develop critical and creative thinking by providing activities at the appropriate level of challenge for students.
   -Teach students how to self-assess and to use metacognitive strategies in support of lifelong learning.
   -Encourage students to explore new ideas and take academic risks.
   -Provide academic rigor, encouraging critical and creative thinking, and pushing students to achieve goals.

In relation to differentiation, we will focus on the following areas:
   -Provide remediation, enrichment, and acceleration to further student understanding of material.
   -Vary assessment tools for both formative and summative purposes to inform, guide, and adjust instruction.

We will continue to implement PLC's to address the focus areas with attention to individual learning styles and interest among staff. BLT will begin this process by participating in a book study on "The Differentiated Classroom; Responding to the Needs of All Learners" by Carol Ann Tomlinson. The CSIP Steering Committee will also work to develop the "SWEET" critical thinking framework that will be taught to staff through professional development sessions and implemented in all classrooms in grades K-5 by the end of the 2012-2013 school year.

Another school-wide goal is to increase the percentage of students achieving at Level 3 (exceeding standards) on all areas of the CRCT in the spring of 2013. In short, we are striving to move students from Level 2 to Level 3 in all content areas and for each set of grade level expectations. We feel that maintaining high expectations along with increasing our attention on higher order thinking and differentiation will support such movement in achievement levels.

School Mission and Vision

	DeKalb County School System	**School**
Vision What is our image of a successful school for our stakeholders?	The DeKalb County School District will be acknowledged as one of the high performing large school systems in the United States in preparing students to lead and succeed in a rapidly changing world.	Austin's school goal is to set the standard for excellence through a safe, nurturing environment that promotes rigorous standards for academic achievement and model citizenship.
Mission How will we make our vision a reality?	Our mission is to prepare 21st Century students to thrive and succeed in a diverse and ever changing world through a partnership of homes, schools and communities.	The mission of Austin Elementary School, in partnership with staff, parents, and community, is to provide a safe, nurturing environment where challenging and creative teaching occurs utilizing state of the art resources. Individual learning needs will be met and students will develop into confident, productive members of society.
Values What beliefs and standards guide our mission?	The DeKalb Schools 21st Century student will demonstrate: • Flexibility and adaptability • Initiative and self direction • Social and cross cultural interaction • Productivity and accountability • Leadership and responsibility • Information and technology literacy • Critical thinking and problem solving • Creativity and innovation	▪ Value and promote parent involvement ▪ Regard quality public education as essential ▪ Honor universal human rights ▪ Contribute to the common good of our community ▪ Hold high expectations for ALL

Developing a Comprehensive Needs Assessment

1) Provide a brief description of your school and community.
Austin Elementary school is located in northern DeKalb County, Georgia and is a neighborhood school in the city of Dunwoody. Austin Elementary currently serves over 646 students in grades Pre-K through 5th grade with 34 teachers. The families attending Austin Elementary are 86% White, 10.9% Asian, 5.7% Hispanic, and 4.5% Black. Among our student body, 27.6% are Gifted and Talented, 5.7% (37 students) are Students with Disabilities, 2.6% (17 students) are English Language Learners, and 3.3 % (21 students) receive free or reduced lunch. Austin has a long history of being a high performing school, which staff, parents, and community members alike strive to maintain. Therefore, parent involvement is very high and support is prominent among the school community.

2) Describe how the school stakeholders and the CSIP Steering Committee developed a comprehensive needs assessment.
The process of developing a comprehensive needs assessment is ongoing, but culminates and is summarized during the spring and summer months in preparation for the following school year. The comprehensive needs assessment is assembled through the use of formative assessment data, site-based survey reports, the School Report Card, and teacher observation and feedback regarding student performance among our ever changing demographics. Many stakeholders take part in assembling the comprehensive needs assessment including the Building Leadership Team (BLT and CSIP Steering Committee), School Council, grade level teachers, content area committees, etc. During these meetings, data-driven decisions are made about areas of strength and areas of need within the school. To be more specific, the Building Leadership Team meets monthly to discuss recent events, trends, and assessment data in order to determine actions that need to be maintained, altered, or added to the school's approach to improvement. In addition, the Building Leadership Team meets during the summer to disaggregate CRCT scores and other school data to finalize the comprehensive needs assessment. During the first weeks of school, grade level teachers also meet with administrators to disaggregate grade level data to identify areas of strength and weakness. This information then drives planning and teaching efforts for the future. The School Council and PTA also meet throughout the year to offer input regarding the status of the school climate and culture, community support, family participation, and leadership among stakeholders. In short, there are numerous stakeholders involved in creating the comprehensive needs assessment, which is compiled throughout the year and from many different sources. Austin's comprehensive needs assessment is systematically created and maintained, making it a superior tool for school improvement efforts.

3) Identify data used to complete your Comprehensive Needs Assessment. Check all that apply.

Outcome/Summative Data		Demographic Data		Process/Formative/Perception Data	
X	School Report Card	X	Enrollment (include ethnicity & gender)	X	GaDOE GAPSS Review
X	CCPRI	X	Students with Disabilities	X	OSI GAPSS Review
X	Georgia Criterion Referenced Test	X	Language Proficiency		America's Choice DAT Review
	Georgia High School Graduation Test		Free/Reduced Lunch Rate	X	School Self Assessment
	Georgia High School Writing Test		Discipline Data	X	Benchmark Scores
X	Georgia Writing Assessment	X	Attendance	X	Focus Walk Results
X	End of Course Tests		Graduation Rate	X	Staff Surveys
X	Iowa Test of Basic Skills	X	Gifted Education	X	Student Surveys
	SAT, ACT, and AP Exams			X	Parent/Community Surveys

Note: The outcome/summative assessment data utilized in the development of this plan is derived from both state and national assessments that have been validated and administered state-wide and nation-wide.

Leadership and Governance

4) Write a narrative summarizing your school's strengths. Data sources from comprehensive needs assessment must be included in the narrative to support findings.

- **Performance Standard #4: Differentiated Instruction**
  Uses flexible grouping strategies to encourage appropriate peer interaction and to accommodate learning needs/goals.
    o   Survey Monkey Results: 82.9 % Felt competent in this area
  Demonstrates high learning expectations for all students commensurate with their developmental levels (in observation or documentation).
    o   Survey Monkey Results: 82.9 % Felt competent in this area
- **Performance Standard #5: Assessment Strategies**
  Aligns student assessment with the established curriculum and benchmarks.
    o   Survey Monkey Results: 90.2 % Felt competent in this area
  Uses formal and informal assessments for diagnostic, formative, and summative purposes.
    o   Survey Monkey Results: 70.7 % Felt competent in this area

- **Performance Standard #6: Assessment Uses**
Share accurate results of student progress with students, parents, and key school personnel.
  o   Survey Monkey Results: 85.4 % Felt competent in this area
Uses diagnostic assessment data to develop learning goals for students, to differentiate instruction, and to document learning.
  o   Survey Monkey Results: 78 % Felt competent in this area
- **Performance Standard #8: Academically Challenging Environment**
Communicates high, but reasonable, expectations for student learning.
  o   Survey Monkey Results: 97.5 % Felt competent in this area
Conveys the message that mistakes should be embraced as a valuable part of learning.
  o   Survey Monkey Results: 87.5 % Felt competent in this area

5) Write a narrative summarizing your school's challenges. Data sources from comprehensive needs assessment must be included in the narrative to support findings.

- **Performance Standard #4: Differentiated Instruction**
Develops critical and creative thinking by providing activities at the appropriate level of challenge for students.
  o   Survey Monkey Results: 53.7 % Felt needed more assistance in this area
Provides remediation, enrichment, and acceleration to further student understanding of material.
  o   Survey Monkey Results: 41.5% Felt needed more assistance in this area
- **Performance Standard #5: Assessment Strategies**
Involves students in setting learning goals and monitoring their own progress.
  o   Survey Monkey Results: 82.9 % Felt needed more assistance in this area
Varies and modifies assessments to determine individual student needs and progress.
  o   Survey Monkey Results: 56.1 % Felt needed more assistance in this area
- **Performance Standard #6: Assessment Uses**
Teaches students how to self-assess and to use metacognitive strategies in support of lifelong learning (in observation and documentation).
  o   Survey Monkey Results: 56.1 % Felt needed more assistance in this area
Uses assessment tools for both formative and summative purposes to inform, guide, and adjust instruction.
  o   Survey Monkey Results: 36.6 % Felt needed more assistance in this area
- **Performance Standard #8: Academically Challenging Environment**
Encourages students to explore new ideas and take academic risks (in observation and documentation).

    o   Survey Monkey Results: 70% Felt needed more assistance in this area
Provides academic rigor, encourages critical and creative thinking, and pushes students to achieve goals.
    o   Survey Monkey Results: 52.2% Felt competent in this area

- **GAPSS 2011- 2012 Teacher Self-Assessment:**
  Top Four Areas for School-Wide Improvement:
     * Performance Standard #4: Differentiated Instruction
     * Performance Standard #5: Assessment Strategies
     * Performance Standard #6: Assessment Uses
     * Performance Standard #8: Academically Challenging Environment

6) List the professional development needed to address the challenges summarized above.
We have again identified the areas of higher order thinking and differentiation for areas of school-wide focus. We have further identified specific aspects of each focus area in order to streamline our attention and actions toward achievement.

In relation to higher order thinking, we will focus on the following areas:
    -Develop critical and creative thinking by providing activities at the appropriate level of challenge for students.
    -Teach students how to self-assess and to use metacognitive strategies in support of lifelong learning.
    -Encourage students to explore new ideas and take academic risks.
    -Provide academic rigor, encouraging critical and creative thinking, and pushing students to achieve goals.

In relation to differentiation, we will focus on the following areas:
    -Provide remediation, enrichment, and acceleration to further student understanding of material.
    -Vary assessment tools for both formative and summative purposes to inform, guide, and adjust instruction.

Through Professional Learning Communities Austin staff will engage in meaningful professional development to address the challenges identified by teachers and parents. Teachers will form Professional Learning Communities for the purpose of growth in those specific areas. PLC groups will use our Professional Learning Funds to provide substitute teachers for peer observation and teacher rounds with feedback sessions related to their standard of focus. In short, we will continue to implement PLC's to address the focus areas with attention to individual learning styles and interest among staff.

The CSIP Steering Committee will also work to develop the "SWEET" critical thinking framework that will be taught to staff through professional development sessions and implemented in all classrooms in grades K-5 by the end of the 2012-2013 school year.

7) Identify how the school provides support through counseling and academic advisements that provides access to an adult advisor, mentor, or counselor. Check all that apply:

	Career Counseling	X	Student Support Team (SST)	X	Parent/Teacher Conferences
X	Mentoring Programs		Community Agencies	X	Parent/Administrator Conferences
X	Group Counseling	X	School Psychologists	X	Student Support Specialists
X	School Counselors	X	School Social Workers		Graduation Coaches

8) Describe how the following student support personnel work with the district office and outside agencies to meet student needs.

School Counselor:
- facilitates school-wide meetings and coaching to address areas of concern (RTI, bullying, attendance, character education, etc.)
- teaches classroom guidance activities to educate and promote positive character traits
- manages school-wide attendance incentive program
- assigns mentors to students
- participates in SST referral process
- offers individual and small group counseling when needed
- manages referrals to DCSS Social Workers
- consults with teachers, parents, and community agencies/resources for situations of concern
- participates as member of district wide crisis intervention team

Psychologist:
- consults with staff and parents regarding situations of student concern and needed support
- provides individual student assessments as part of a multi-disciplinary team
- provides presentations to staff regarding common issues and processes
- consults with participants at 504 meetings
- serves on student evidentiary hearing committee

Social Worker:
- consults with staff and presents information on common issues and areas of awareness
- conducts staff training on mandatory reporting for child neglect and abuse
- follows up on reports of child neglect and abuse and involves outside agencies as appropriate

- consults with teachers and parents regarding areas of individual student concern
- offers support and referrals to external agencies

School Nurse:
- provides basic healthcare needs for students
- dispenses and manages all medication for students during the school day
- provides required immunization documentation and reporting to Department of Health
- provides vision and hearing screenings to grade levels as required by DCSS
- communicates individual and class health care concerns
- provides parent training relating to health care issues
- provides referrals to external agencies as needed

Strategies to Increase Parental Involvement

9) Identify how the school provides parents and community outreach/support through activities and initiatives. Check all that apply:

	Site-based Parent Centers/Information Stations		
	Parent Lending Libraries		Pre-K Family Resource Specialists
	Parental Involvement Workshops		
X	Parental Involvement Survey/Summary	X	Others (list here)

10) Describe how the school uses the strategies checked above to increase parental involvement.
Austin has a high degree of parental involvement:
- Effective methods are in place to communicate to parents and the community: weekly Thursday Information Packets, grade-level newsletters published monthly, classroom newsletters published weekly, PTA newsletter (bi-weekly electronic), classroom websites updated as necessary containing subject summaries, homework assignments, and reminders, outdoor marquee that displays upcoming events or reminders of programs and events, state DOE web site, DCSS, PTA and Austin websites.
- Opportunities are provided for parents and community to be involved in the undertakings of the school: School Council, and PTA sponsored events such as the fall PTA Sign-Up event, Boosterthon, Dunwoody Dash, Book Fair, New Families' Breakfast, International Tea, Special Friends' Day, monthly PTA family events.

15

- Timely feedback on student progress is provided through an open schedule of conferencing and specific extended day conference times.
- Teachers are available for conferences every week to discuss student achievement and standards.
- Upcoming school events are publicized in calendar form in the bi-weekly newsletter.
- Electronic reminders are sent prior to school events.
- School calendar is constantly updated and maintained on the school website.
- A calendar notice to parents' email for school events is available through the website calendar.
- A specific night (Curriculum Night) is set aside for parents to address standards and expectations for learning.
- PTA business meetings are open to all parents and staff.
- School Council meetings are publicized and open to the community.
- Administrators maintain an open door policy and are available to address questions regarding standards and implementation.
- Room Parents coordinate volunteer opportunities for classroom and school wide activities through a virtual sign-up program.
- Parent tutoring program.

11) Identify how the school communicates with parents as partners in education. Check all that apply:

	Parental Involvement Handbook for Parents	X	Newsletters
X	School Website		Calling Post
X	DCSS Website/Community.Net	X	Parent Portal
X	Parent Right to Know Letter	X	Other (Specify): Parent email blasts

Stakeholder Communication

12) Describe how individual student assessment results will be provided to and interpreted for parents.
Parents are provided with individual student assessment results in a variety of ways, depending on the type of assessment. Informal assessments are communicated through notes, emails, daily agenda planners, daily and weekly reinforcement systems, and/or phone conversations. Daily and weekly assignment grades and assessments are sent home in Thursday Information Packets for review. Formal assessment results are communicated through parent-teacher conferences and by sending results home for parent review and analysis. Benchmark tests scores are accompanied by the definition of the standards that were missed for further clarification on individual strengths and weaknesses. Standardized test results are accompanied by directions for review and interpretation guides. All student assessment can be accessed through Parent Portal and can be further reviewed, analyzed, and discussed by conference with a teacher or member of the administrative team.

13) Describe how disaggregated school data results will be provided to school stakeholders**.**

- Individual data results are sent home with students. Communication of data is in the form of newsletters, Curriculum Night, letters to parents, our school website and parent conferences.
- The Atlanta Journal Constitution publishes the DeKalb County School System's test scores.
- The School Council and PTA board will receive the disaggregated results in a meeting as well as in writing. Test data is distributed to all staff members and administration. Results are analyzed and interpreted to ensure that everyone will be able to effectively articulate the results to all stakeholders.
- Parent-teacher conferences held throughout the year refer to assessment as an ongoing part of the instructional program.

14) Describe how the CSIP will be communicated with and made available to school stakeholders**.
- Information is reported in the school newsletter
- The CSIP is presented at PTA and School Council meetings
- Link on school and DCSS website
- Distribution of plan to our Partners in Education
- Regular meetings are held with School Council and PTA members
- Electronic flyer published every fall to explain and spread awareness of all school improvement efforts within the CSIP
- Availability of the report upon stakeholder request

Note: The outcome/summative assessment data utilized in the development of this plan is derived from both state and national assessments that have been validated and administered state-wide and nation-wide. Achievement data is collected, disaggregated, and published by the Georgia Office of Student Achievement and is therefore valid and reliable.

** Translation or interpretation of the plan, to the extent feasible, shall be provided for any language that a significant percentage of the parents of participating students in the school speak as their primary language.

Selecting Appropriate Interventions Using Scientifically Based Research

All interventions based on the Georgia School Keys are predicated on scientifically-based research and do not require citations.

The School Keys: *Unlocking Excellence through the Georgia School Standards* is the foundation for Georgia's comprehensive, data-driven system of school improvement and support. Correlated to several well-known and respected research frameworks, the School Keys describe what Georgia's schools need to know, understand, and be able to do, in the same manner that the Georgia Performance Standards (CCGPS) describe what Georgia's students need to know, understand, and be able to do. Through the Georgia Assessment of Performance on School Standards diagnostic process (GAPSS Analysis), a variety of data are collected from multiple sources to assess the status of a school on each of the standards. The data are combined to inform the results of the GAPSS Analysis, which, in turn, informs the development and implementation of school improvement initiatives, including high impact practices, in a school. A Memorandum of Agreement with the Southern Association of Colleges and Schools Council on Accreditation and School Improvement (SACS/CASI) details conditions under which the School Keys and GAPSS Analysis may count for a SACS/CASI Quality Assurance Review and accreditation visit.

These School Keys are intended to serve as a descriptor of effective, high impact practices for schools. In identifying these School Keys, the Division of School and Leader Quality of the Georgia Department of Education along with its collaborative partners aligned the School Keys with the research by Dr. Robert Marzano in the meta-analysis, What Works in Schools (2003), School Leadership that Works, (Marzano, Waters, and McNulty, 2003), and the Standards of the Southern Association of Colleges and Schools Council on Accreditation and School Improvement. The eleven factors identified by Dr. Marzano and similar terms and statements from the other research documents were combined until eight broad strands were determined to encompass the research: Curriculum; Instruction; Assessment; Planning and Organization; Student, Family, and Community Support; Professional Learning; Leadership; and School Culture. The eight strands have been further developed and defined into performance standards, linguistic rubrics, and elements/descriptors to assist schools in the process of school improvement.

The School Keys serve as a tool for all schools in the state. The document was field-tested during the 2004-2005 school year. Data from the field test were used to revise the School Keys for the 2005-2006 school year. An external validation study of the School Keys was conducted by the Georgia Partnership for Excellence in Education. This external validation included responses from and critiques by a national panel of experts in school improvement. Based on input from the external validation, further refinements were made to the School Keys, including clarification of language and the development of linguistic rubrics to guide the standards application process.

Coordination and Integration of Federal, State, and Local Services and Program Funds

Funding Sources	Provide a narrative explanation of how funds will be used to support student achievement and/or school improvement in relation to the components of this plan.
Federal Funds	N/A
State Funds	N/A
GA DOE School Improvement Grant (Needs Improvement Title I Schools Only)	N/A
Federal School Improvement Grants	N/A
Local Professional Learning Funds	N/A
Grants (list)	N/A
PTSA	Austin PTA conducts fundraising activities for the purpose of providing additional classroom support and additional resources to support student achievement. All classroom and special area teachers are provided additional funding under the category of "classroom enrichment". The purpose of this funding is to support and increase student achievement. Requests for purchases are reviewed and approved when they correlate with our school improvement plans.
Partners in Education	N/A
Other (list)	N/A

Reading/English/Language Arts Action Plan (ESEA Mandate #2)

Annual Measurable Objective:

Reading:
Based on 11-12 CRCT scores, 100% of students in grades 3, 4, and 5 met or exceeded standards on the Reading section of the Georgia Criterion-Referenced Competency Tests (CRCT) for 2012. In addition, an average of 76.6% of students in grade 3, 4, and 5 exceeded grade level standards by achieving a level 3 on the Reading section of the CRCT for 2012.

     Grade 3- current 79% in level 3
     Grade 4- current 78% in level 3
     Grade 5- current 73% in level 3

Austin Elementary's projected goals for Reading are to increase the percentage of students in grades 3, 4, and 5 who achieve level 3 Reading from 76.6% to 78.6% for 2013.

English/Language Arts (ELA):
Based on 10-11 CRCT scores, an average of 99.3% of students in grades 3, 4, and 5 met or exceeded standards on the ELA section of the Georgia Criterion-Referenced Competency Tests (CRCT) for 2012. In addition, an average of 74.6% of students in grade 3, 4, and 5 exceeded grade level standards by achieving a level 3 on the ELA section of the CRCT for 2012.

     Grade 3- current 76% in level 3
     Grade 4- current 72% in level 3
     Grade 5- current 76% in level 3

Austin Elementary's projected goals for ELA are to increase the percentage of students in grades 3, 4, and 5 who achieve level 3 in ELA from 74.6% to 76.6% for 2013.

Performance Action or Initiative	Estimated Cost/Funding Sources	Timeline and Positions Responsible	Means of Evaluation

Mathematics Action Plan (ESEA Mandate #2)

Annual Measurable Objective:

Based on 11-12 CRCT scores, an average of 96.7% of students in grades 3, 4, and 5 met or exceeded standards on the Math section of the Georgia Criterion-Referenced Competency Tests (CRCT) for 2012. In addition, an average of 78.3% of students in grade 3, 4, and 5 exceeded grade level standards by achieving a level 3 on the Math section of the CRCT for 2012.

       Grade 3- current 79% in level 3

       Grade 4- current 73% in level 3

       Grade 5- current 83% in level 3

Austin Elementary's projected goals for Math are to increase the percentage of students in grades 3, 4, and 5 who achieve level 3 Math from 78.3% to 80% for 2013.

Austin Elementary's projected goals for Math are also to decrease the percentage of students in grades 3,4,and 5 who achieve level 1 Math from 3.3% to 2% for 2013.

Social Studies Action Plan

Annual Measurable Objective:

Based on 11-12 CRCT scores, an average of 99% of students in grades 3, 4, and 5 met or exceeded standards on the Social Studies section of the Georgia Criterion-Referenced Competency Tests (CRCT) for 2012. In addition, an average of 73% of students in grade 3, 4, and 5 exceeded grade level standards by achieving a level 3 on the Science section of the CRCT for 2012.

     Grade 3- current 79% in level 3
     Grade 4- current 67% in level 3
     Grade 5- current 73% in level 3

Austin Elementary's projected goals for Social Studies are to increase the percentage of students in grades 3, 4, and 5 who achieve level 3 Social Studies from 73% to 75% for 2013.

Second Indicator: Attendance/Graduation Rate Action Plan

Annual Measurable Objective:
Austin Elementary's projected goals are to decrease the percentage of students absent over 8 days from 3% to 1% for 2013.

Formative Indicators of Success:
Attendance reports will be reviewed monthly and at the end of each semester. Recognition of perfect attendance for all students who meet the objectives set forth at each grade level.

Performance Action or Initiative	Estimated Cost/Funding Sources	Timeline and Positions Responsible	Means of Evaluation	
			Artifacts	**Evidence**
Planning and Organization: *Performance Action #7* The Graduation/Attendance team will design and implement support programs that: provide intensive attention for students in need of one-on-one support to succeed; provide mentors to offer psycho-social emotional support, and establish connections between home and school. • Establish and implement sound and reasonable attendance policies that set high expectations to monitor and decrease absenteeism, in accordance to Dekalb County's attendance policy and protocol. • Communicate attendance expectations through the Austin Student Handbook, PTA and classroom newsletters, and notes and/or personal calls (by counselor) regarding attendance referrals, if necessary.	No funding needed	August 2012-May 2012 Principal: Dr. Ann Culbreath API: Angie Smith All teachers School Counselor	Austin Student Handbook School Council meeting agendas and minutes ESIS attendance records Perfect Attendance certificates awarded at the end of the school year	Students with perfect attendance are recognized and rewarded each month as a strategy used to ensure the academic, social, and psychological success of students. Teachers, parents, and students can explain the attendance policies as outlined in the Austin Student Handbook. Teachers, counselor, and School Council members will monitor student attendance and intervene when necessary.

			Bulletin Board: N.B.A.	
• Positively identify students with perfect attendance and/or punctuality by recognizing these students over the morning announcements. • Display student names for perfect attendance/punctuality in the hallway for all to see. • Offer a mentoring program for students in need of emotional support to be mentored by a teacher or staff member.				

Library-Media Action Plan

Annual Measurable Objective:

Reading:
Based on 11-12 CRCT scores, 100% of students in grades 3, 4, and 5 met or exceeded standards on the Reading section of the Georgia Criterion-Referenced Competency Tests (CRCT) for 2012. In addition, an average of 76.6% of students in grade 3, 4, and 5 exceeded grade level standards by achieving a level 3 on the Reading section of the CRCT for 2012.

     Grade 3- current 79% in level 3
     Grade 4- current 78% in level 3
     Grade 5- current 73% in level 3

Austin Elementary's projected goals for Reading are to increase the percentage of students in grades 3, 4, and 5 who achieve level 3 Reading from 76.6% to 78.6% for 2013.

Performance Action or Initiative	Estimated Cost/Funding Sources	Timeline and Positions Responsible	Means of Evaluation	
			Artifacts	**Evidence**
Instruction: Standard 1.2: Performance Action #4. PA4: The media specialist collaborates with the instructional staff to determine media center support needed to increase resources to enhance school-wide content. The media specialist is knowledgeable about student reading levels. The media specialist also serves on the leadership team and provides services and resources that support school units and lesson implementation. • Teacher-librarian meets with grade levels to determine areas of study and later provides them with supportive resources, many to allow the incorporation of technology.	No funding needed	August 2012-May 2012 Principal: Dr. Ann Culbreath API: Angie Smith All teachers Media Specialist: Janie Kossak	•Media Circulation records •Resource alignment to Fountas and Pinnell reading levels and grade level units of study	The media specialist can describe how services are coordinated to support classroom instruction. Resources from the media center are correlated to the Fountas and Pinnell guided reading levels as well as grade level units of study. A list of media resources are organized by guided reading levels and is available on the Destiny homepage and made accessible to students, teachers, and parents.

• Teacher-librarian maintains a leveled book resource within Destiny to provide books to match student reading levels (searchable at school and/or home). • Teacher-librarian co-teaches lessons designed to increase student achievement in identified subject domains. • Teacher-librarian provides flexible access to all library media center space, resources, and services. • Teacher-librarian serves as a member of school leadership teams and offers input and support for instructional goals.				
Technology Integration *Instruction: Standard 2.7 – Performance Action #1 & 2.* PA1: Teachers work collaboratively to develop a clear, comprehensive plan to integrate technology into the curriculum as a means to motivate and support students' conceptual understanding and independent application of the core curriculum.
