OVERVIEW:
The accelerated pace of the Comprehensive Master Plan is continuing into May as the Options Development Team is getting ready to present options strategies to the community. Stakeholder input continues to be critical as the development of CMP options will continue until a final report is delivered to the Board of Education in November.

For the month of May, the CMP team will continue to receive input on the Facility Condition Assessments and Educational Suitability Assessments with the Principals, PAC’s and community stakeholders.

FCA and ESA assessments, the Capacity Determination Guide, Demographic Analysis & Forecast documents, and the Draft Inventory of Special Programs document has been uploaded to the CMP website for public review and comments.

For Town Hall #3, the CMP team presented strategies and what we have heard from the community:
Equity across the District, Importance of Community, Maintenance and Deferred Maintenance
Negative Impact of Portable Classrooms (Trailers), Long Memories, Variety and diversity of school choice programs
Diversity of student population, Internet / technology needs to be upgraded and uniform across the District
Condition and accessibility of athletic & extracurricular facilities
One of the FCA maps presented can be found on the following page. This map shows each elementary school how well it scored on facility conditions.
