Cards		Geographic Proximity	I think it is good because there is going to be less kids and They are all going to be in the building. It's also ok for us because the school is going to be closer and there is going to be transportation.	0
Cards		Instructional Capacity	I do not want to change school Dresden to Monclair because they will have the same amount that Dresden had so I think they should not change the amount of children.	0
Cards		Instructional Capacity	This doesn't help Woodward or Cross Keys	0
Cards		Instructional Capacity	Sequoyah was not considered and the numbers may negatively effect it	0
Cards		Instructional Capacity	Chamblee MS has 150 seats available but it's not considered as an option	0
Cards		Not Aplicable to Criteria	Why are the redistricting options still segregating students that live along the Buford Hwy corridor?	0
Cards		Not Aplicable to Criteria	All schools are not on the table. Use Ashford Park, Sagamore etc. We learned that those families previously had the opportunity ti "fight for the integrity of the schools". Rich areas are not impacted.	0
Cards		Not Aplicable to Criteria	Cary Reynolds is same as the rest. Don't make a change	0
Cards		Not Aplicable to Criteria	I do not agree with any of the options proposed for the elementary schools because it does not address the overcrowding problems but only shuffles students within the district to continue segregating latinos and the poor. Keep the children at their current schools for elementary children.	0
Cards		Not Aplicable to Criteria	Tonight's 2/11/16 meeting conflicted with previously scheduled meetings at Fernbank ES and Druid Hills HS. Data collection has been flawed.	0
Cards		Not Aplicable to Criteria	This is a major socioeconomic and racial/ethnic issue. This issue is being ignored.	0
Cards		Not Aplicable to Criteria	Racial and socioeconomic dias keeps Cross Keys students in extremely deficient schools, especially compared to surround clusters. Why aren't you addressing this?	0
Cards		Not Aplicable to Criteria	Cary Reynolds and other schools that are overcrowded need more resources. We have more students we are struggling to keep toilet paper, soap and paper towels in our schools.	0
Cards		Not Aplicable to Criteria	Cross Keys cluster should have 1 voice instead of 3 due ti the number of representatives. Power is #'s is stripped of us.	0
Cards		Not Aplicable to Criteria	DCSS should acknowledge lack of planning to parents and students. We deserve an apology.	0
Cards		Not Aplicable to Criteria	Sequoyah feedback does not seem to have been given the same consideration as North Druid Hills	0
Cards		Not Aplicable to Criteria	CRES over population over work teachers which effects students progress.	0
Cards		Not Aplicable to Criteria	Fernbank annexing to ATL schools so they will not be a consideration in the future.	0
Cards		Not Aplicable to Criteria	Cary Reynolds ES should be torn down and rebuilt larger and updated.	0
Cards		Not Aplicable to Criteria	What is it teaching our students about their self worth by sending them from one school in horrible condition to another? Don't they deserve better?	0
Cards		Not Aplicable to Criteria	This was a sham! You don't care about anyone but Dunwoody and Lakeside.	0
Cards		Not Aplicable to Criteria	Traffic and parent involvement will be hindered by sending our kids to Fernbank. Seems more thought was given to North Druid Hills cluster than the Sequoyah meeting	0
Cards		Projected Enrollment	Fernbanks community is building more housing. Which will effect the population at the school	0

Cards		Traffic & Safety patterns	Has anyone driven the bus route for "A" and "B" to Fernbank during rush hour? It will be horrendous. I don't understand moving kids north of I-85 past a large area to Fernbank. It makes more sense to move the children who live closer to Fernbank to Fernbank. Consider traffic and length of time on buses and school breakfast please! Why is Ashford Park not used as an option for "C"?	0
Cards		Traffic & Safety patterns	Someone needs to drive traffic patterns dead end streets	0
