

## PARENT GUIDANCE ON APPROPRIATE SUPPORT FOR VIRTUAL MAP TESTING

### PARENTS SHOULD...

Help the student with logging in to the Teams call and to test.mapnwea.org

Type in the Session Name & Password from the teacher here

Show the student where to select/click **their answer** and the blue button  that takes them to the next question.

***\*\*This applies for Kindergarten and NEW DeKalb students as the MAP assessment is new to them. Please use the MAP Practice Test to familiarize your child with the MAP test platform and features. \*\****

Questions (***depending on student performance***) are read aloud to all students in K-2 (and any student with read aloud accommodations)

by clicking the  icon in the top left. Show the student how to click and remind **them** to listen closely.

Sit nearby to make sure they stay focused and work hard to show what **they** know. When finished - thank them for working so hard ***independently!***

Ask the teacher for help with technology or test administration questions by raising your hand  if you are unsure of something!

### PARENTS SHOULD NOT...

You **CANNOT** choose answers for your student on the test. This test must reflect your child's current understanding.

You **CANNOT** translate, define, or rephrase words and questions on the test. It is ok if your child doesn't know the meaning of a word yet. That informs your child's teacher of how to best support them during instruction!

You **CANNOT** use additional resources to support your child, such as: phones, dictionaries, calculators, tablets, laptops, etc.

You **CANNOT** Read-Aloud items on the test!

If your child does not have the  icon in the top left of the screen, do not read aloud the questions or answer choices for them.

You **CANNOT** turn off your  camera in the Teams call. If your child's teacher cannot see your child at all times, the examiner will have to **pause** the test and your child won't be able to proceed until the examiner can see him/her again.

You **CANNOT** take this test in a language other than English.
