Review system requirements

install

7. Once installation begins, the installation program will scan your computer for any previous versions of Microsoft Office.
8. If you have Microsoft Office 2013 installed already, you will have to remove it from your system before continuing the installation.

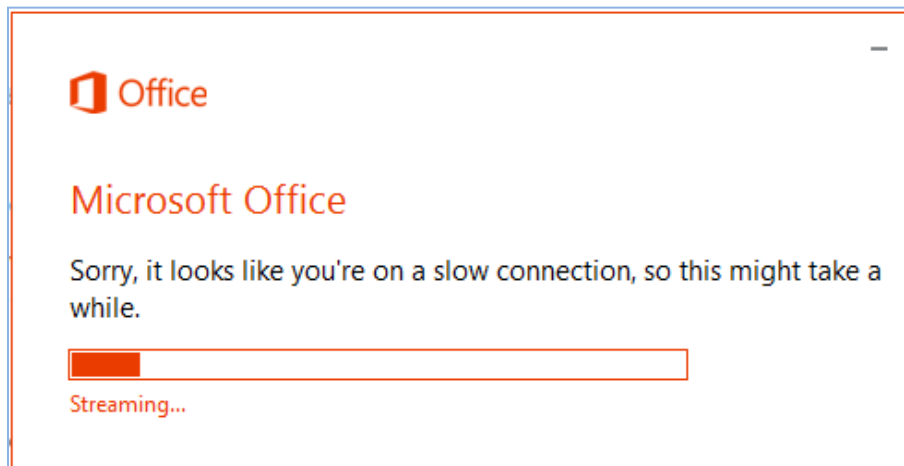

If you have to remove Office, you must complete these steps:

- a) *Once prompted, select the Fix It Button at the top of the screen to uninstall the office program. Office 2013/Office 365.*
- b) *Click Run.*
- c) *Once complete you must reboot your computer and log in again and repeat steps 1-5.*

9. If you do not have to remove Office, your installation of Office 365 ProPlus will begin.

10. Once the application is finish loading (or getting ready), a progress box will appear as the software downloads the final settings. Please note that the speed of your connection will determine the speed of this part of the installation.

11. Once all loading is complete, follow the steps (wizard or online prompts) to personalize your Office 365 ProPlus and begin using your software.
