Glossary of Construction and CIP Terms

This glossary lists some of the terms used throughout construction and the capital improvement program.

<p>ADA The Americans with Disabilities Act gives civil rights protection to individuals with disabilities similar to those provided to individuals on the basis of race, color, sex, national origin, age, and religion. It guarantees equal opportunity for individuals with disabilities in public accommodations, employment, transportation, state and local government services, and telecommunications.</p>	<p>Change Order A written document authorizing a change in the work or an adjustment in the contract sum or the contract time. A change order may be signed by the architect or engineer, provided they have written authority from the owner for such procedure and that a copy of such written authority is furnished to the contractor upon request. The contract sum and the contract time may be changed only by change order. A change order may be in the form of additional compensation or time; or less compensation or time known as a Deduction (from the contract) the amount deducted from the contract sum by change order.</p>
<p>Addendum (Addenda) Written information adding to, clarifying or modifying the bidding documents. An addendum is generally issued by the owner to the contractor during the bidding process and as such, addenda are intended to become part of the contract documents when the construction contract is executed.</p>	<p>Facility or Site Analysis A visual inspection of a building and on-site improvements for functional or physical deterioration; prepare optional Replacement Cost Estimate for making recommendations to improve functional and physical deficiencies to increase market value; AND/OR prepare a Reserve Study over five (5) years to increase Net Operating Income (NOD) for the facility.</p>
<p>Alternate Bid Amount stated in the bid to be added or deducted from the base bid amount proposed for alternate materials and/or methods of construction.</p>	<p>General Conditions A written portion of the contract documents set forth by the owner stipulating the contractor's minimum acceptable performance requirements including the rights, responsibilities and relationships of the parties involved in the performance of the contract. General conditions are usually included in the book of specifications but are sometimes found in the architectural drawings.</p>
<p>Application for Payment Contractor's written request for payment for completed portions of the work and, for materials delivered or stored and properly labeled for the respective project.</p>	<p>Indirect Cost (or expense) A contractor's or consultant's overhead expense; expenses indirectly incurred and not chargeable to a specific project or task. The terms indirect costs and soft costs are synonymous.</p>
<p>BAFO Best And Final Offer. During contract negotiations, this is a term used to describe quote submissions from vendors to the project owner.</p>	<p>Lump Sum Contract A written contract between the owner and contractor wherein the owner agrees to pay the contractor a specified sum of money for completing a scope of work consisting of a variety of unspecified items or work.</p>
<p>Bid An offer or proposal of a price, including the amount offered or proposed.</p>	<p>Plans A term used to represent all drawings including sections and details; and any supplemental drawings for complete execution of a specific project.</p>
<p>Bid Form A standard written form furnished to all bidders for the purpose of obtaining the requested information and required signatures from the authorized bidding representatives.</p>	<p>Preliminary Drawings The drawings that precede the final approved drawings. Usually these drawings are stamped or titled "PRELIMINARY"; and the "PRELIMINARY" is removed from the drawings upon being reviewed and approved by the owner</p>
<p>Bid Opening The actual process of opening and tabulating bids submitted within the prescribed bid date/time and conforming with the bid procedures. A Bid Opening can be open (where the bidders are permitted to attend) or closed (where the bidders are not permitted to attend).</p>	<p>Pre-qualification of prospective bidders A screening process wherein the owner or his/her appointed representative gathers background information from a contractor or construction professional for selection purposes. Qualifying considerations include competence, integrity, dependability, responsiveness, bonding rate, bonding capacity, work on hand, similar project experience, and other specific owner requirements</p>
<p>Bid Price The stipulated sum stated in the bidder's bid.</p>	<p>Building Documents The published advertisement or written invitation to bid, instructions to bidders, the bid form and the proposed contract documents including any acknowledged addenda issued prior to receipt of bids.</p>
<p>Building Process A term used to express every step of a construction project from the conception to final acceptance and occupancy.</p>	<p>Complete execution of a specific project A term used to represent all drawings including sections and details; and any supplemental drawings for complete execution of a specific project.</p>

Glossary of Construction and CIP Terms

R.F.I.

An abbreviation for Request for Information. A written request from a contractor to the owner or architect for clarification or information about the contract documents following contract award.

RFP

1. An abbreviation for Request for Proposal.
2. A written request from the requestor (usually the owner or a contractor) to a contractor, design professional or subcontractor for an estimate or cost proposal. The RFP usually contains a specific scope of work.

Safety Report

The Occupational Safety and Health Act of 1970 clearly states the common goal of safe and healthful working conditions. A Safety Report is prepared following a regularly scheduled project safety inspection of the specific project.

Schedule of Values

A statement furnished by the contractor to the architect or engineer reflecting the portions of the contract sum allotted for the various parts of the work and used as the basis for reviewing the contractor's applications for progress payments.

Schematic

A preliminary sketch or diagram representing the proposed intent of the designer.

Schematic Design Phase

The first phase of the architect's basic services in which the architect consults with the owner to ascertain the requirements of the project and prepares schematic design studies consisting of drawings and other documents showing the scale and project components for the owner's approval.

Scheme

A chart, a diagram, or an outline of a system being proposed.. An orderly combination of related construction systems and components for a specific project or purpose.

Scope of Work

A written range of view or action; outlook; hence, room for the exercise of faculties or function; capacity for achievement; all in connection with a designated project.

Special Conditions

A section of the conditions of the contract, other than the General Conditions and Supplementary Conditions, which may be prepared for a particular project. Specific clauses setting forth conditions or requirements peculiar to the project under consideration, and covering work or materials involved in the proposal and estimate, but not satisfactorily covered by the General Conditions. (See General Conditions)

Structural Design

A term used to represent the proportioning of structural members to carry loads in a building structure.

Sub

An abbreviation for Subcontractor.

Subcontract

A written form of agreement between the prime or main contractor and another contractor or supplier for the satisfactory performance of services or delivery of material as set forth in the plans and specifications for a specific project.

Subcontractor

A qualified subordinate contractor to the prime or main contractor.

TM

An abbreviation for a contracting method called Time and Materials. A written agreement between the owner and the contractor wherein payment is based on the contractor's actual cost for labor, equipment, materials, and services plus a fixed add-on amount to cover the contractor's overhead and profit.

Unit Price Contract

A written contract wherein the owner agrees to pay the contractor a specified amount of money for each unit of work successfully completed as set forth in the contract.

Variance

This report uses the term variance to indicate the calculation of the current budget less the forecasted cost at completion. A positive variance amount does not indicate that funds are available for use on additional projects. The original scope of work must be completed before funds can be reallocated.

Zoning

Restrictions of areas or regions of land within specific geographical areas based on permitted building size, character, and uses as established by governing urban authorities.

Zoning Permit

A document issued by a governing urban authority permitting land to be used for a specific purpose.

Construction Delivery Methods

Design/Bid/Build

Under this traditional method, an architectural firm is hired and serves as the owner's agent. Although the firm may have numerous responsibilities, including the selection of consultants, its primary responsibility is to provide and oversee the design and construction documents for the project. As the design progresses, cost estimates are periodically prepared by the architectural firm and external cost estimators. Once the construction documents and specifications are completely finished, and other requirements of the owner have been met, the project is bid and subsequently awarded to the Bidder whose bid is the lowest responsive responsible bid.

Design/Propose/Build

Under this traditional method, an architectural firm is hired and serves as the owner's agent. Although the firm may have numerous responsibilities, including the selection of consultants, its primary responsibility is to provide and oversee the design and construction documents for the project. As the design progresses, cost estimates are periodically prepared by the architectural firm and external cost estimators. Once the construction documents and specifications are completely finished, and other requirements of the owner have been met, the project is solicited as a Request for Proposals and subsequently awarded to the Offeror whose proposal is most advantageous to the Board of Education.

Construction Manager at Risk

This system of delivery is similar to that of Design/Bid/Build with three key differences. First, a construction manager is hired during the preconstruction phase to manage the construction process, including the selection of subcontractors. Second, through coordination between the architect and construction manager, the design and construction phases can be overlapped thereby expediting the delivery process. Third, the construction manager, who is responsible for quality control, scheduling and the estimate of construction costs, provides a guaranteed maximum price for the project.

Design/Build

Rather than hiring an architect, under Design/Build the owner enters into a contract with a single firm with design and building capabilities or a construction entity that employs the architect as a consultant. As with the aforementioned delivery system, a guaranteed maximum price for the entire project may be provided, construction management techniques to overlap design and construction phases are utilized, and the overall project delivery is expedited.

CIP Project Phase Descriptions

Planning Programming

The research and decision-making process that identifies the scope of work to be designed.

Design

This phase consists of the development. Detail scope, program requirements, budgets, and schedules are developed.

Procurement

This is the phase where architectural and/or general contractor services are procured for a project. It may involve the RFP, bidding, award, contract review, and contract execution activities.

Construction

Construction begins once the project has been awarded to the contractor.

Close-out

The final inspection, submission of necessary documentation, acceptance, and concluding payment on a construction project, as required by the contract documents.

Completed

All design, construction, and close-out requirements for the project have been completed and accepted by the owner.

On-Going SPLOST Activity

This phase relates to activities within the CIP that are on-going throughout the length of the program. These projects are generally supporting activities.

On Hold

A project is placed on hold when the detailed scope, budget, or necessity may need to be further defined.

Deemed Unnecessary

A project within the CIP may be deemed unnecessary in situations where the project may have already been completed using other funds, the project may have been incorporated into larger construction projects, or the project may no longer be required due to current applicability.

Executive Summary April 2011

This report summarizes the DeKalb County School System's SPLOST III Capital Improvement Program through April 2011. Sales tax revenue collections are ahead of the estimated schedule. Over 74% of the total projects within the program are under construction, in close-out, or completed. Several projects are on hold and deemed unnecessary pending the project's current applicability and necessity.

School Design Highlights

For Chamblee HS, the BOE approved the award of the CM/GC at Risk Contract to Turner Construction Company on April 18, 2011. The Preliminary Design and Estimate from the A/E is due on May 2, 2011. HVAC projects at Hambrick ES, Indian Creek ES, Montgomery ES, Rockbridge ES, Stone Mill ES, Stone Mtn ES, and Warran Tech are under design.

School Construction Highlights

Construction at Lakeside HS includes installation of footings for the Fine Arts and Auditorium addition, and CMU walls in the lower level classrooms and the new main electrical room. The Auditorium addition at Dunwoody HS is approximately 99% complete with an anticipated completion of end of May. Interior trim out is in progress.

Program\DeKalb County\421 SPLOST III\High Schools\Chamblee HS- New Replacement High School

Project Manager: Amy Sue Mann
 Architect-Engineer: Perkins & Will, Inc
 Contractor:
 Project: 421-117
 Project Stage: 2. Design
 Delivery Method: CM @ Risk

Scope of Work:

- A 1600 FTE replacement high school with a core capacity of 2000 FTE on the existing site. The project will be phased due to the students remaining in the existing school during construction.

Remarks:

- On April 18, 2011, the BOE approved the award of the CM/GC at Risk Contract to Turner Construction Company. The Preliminary Design and Estimate from the A/E is due on May 2, 2011. In anticipation of construction work to begin in Fall 2011, the school is preparing for the relocation of the front portion of the existing building to a temporary classroom trailer compound on the baseball field. This move will occur over the summer break. The team is working through the logistics of this relocation as it relates to safety, instruction, athletics, transportation, access, etc.

Scope of Work:

- The scope includes addition of 31 classrooms as well as sitework, furniture, fixture and equipment improvements.

Remarks:

- The current design is approximately \$5,000,000 over the Stated Cost Limitation for the project. This project has been placed on hold while DCSS reconciles the programmatic requirements with the currently established budget. In addition, the results of the District-wide Redistricting and Consolidation Plan and the 2020 Vision may result in a change of the programmatic needs for this facility. Once these evaluations are completed, this project will resume.
