

AN OVERVIEW OF WARREN TECHNICAL SCHOOL

Warren Technical School is a division of the DeKalb County School District. The DeKalb County Board of Education established Warren Technical School in 1984 as the only center of its type in the state of Georgia. We are a Career Technical School, serving students from every high school in the DeKalb County School District. Students in grades 10-12, ages 16-21, attend Warren Technical School for five and one-half hours each day. Warren Technical School provides students with an intensive career tech and soft skills curriculum. Each career program is designed to develop the necessary academic and employability skills necessary to contribute as a responsible and employed member of society.

THE MISSION OF WARREN TECHNICAL SCHOOL

The mission of Warren Technical School is to prepare students with self-advocacy, life and employability skills through research-based instruction and career exploration.

DRIVING DIRECTIONS TO WARREN TECHNICAL SCHOOL

From I-285

Chamblee Tucker Road Exit # 34: Turn inside the perimeter and go past North Hills Shopping Center. As you near the bottom curve at the bottom of the hill, the school is on the left.

From I-85

Chamblee Tucker Mercer Exit # 94: Turn Right. Go down the hill and keep to the left after the first traffic light. As you go up the hill towards North Embury Hill shopping Center, the school is on the right.

Elgin D. Neal, Principal

Maximizing the potential in every student through home, school, and community.

AGRICULTURE

The course introduces the major areas of scientific agricultural production and research, presents introductory skills and knowledge in agricultural science and agri-related technologies. Students also participate in the Future Farmers of America (FFA) student organization.

AUTOMOBILE MAINTENANCE AND LIGHT REPAIR

Students are taught basic automotive maintenance and services including tire rotation, oil changes, detailing, and related automobile care services. The purpose of the class is to provide the student with the knowledge and hands-on experience needed for entry-level positions.

BUSINESS AND TECHNOLOGY

This program prepares students for business office positions such as file clerk, office assistant, receptionist, and other office related positions. Students will learn Microsoft Office, the Internet, alphanumeric keyboarding, alphanumeric filing, and other related skills.

CONSTRUCTION

This course is designed to provide students with knowledge and skills necessary for employment in construction or related industries. Instruction is focused on shop safety, hand and power tool usage, and storage of materials common to the construction process.

CULINARY ARTS

Students are taught skills in basic baking, food production, salad preparation, and line servicing. Sanitation and safety, floor maintenance, the use of industrial dishwasher machines and stock inventory are all skills these students will acquire.

EARLY CHILDHOOD, CARE AND EDUCATION

This program prepares students for employment in early childhood education and services. The course addresses the knowledge, skills, attitudes, and behaviors associated with supporting and promoting optimal growth and development of infants and children. Through project-based learning, laboratory application, technical skills practice, and leadership development activities of the career and technical student organizations, students will be prepared to transition to their next role once DECA.

GRAPHIC COMMUNICATIONS

Students learn basic graphic design, photography and screen-printing. Mastery of the career technical standards is taught through project-based learning, technical skills, and leadership development activities. Students are taught customer service and entrepreneurship.

MARKETING & MANAGEMENT

Students develop knowledge and skills in the foundational areas (economics, human relations, and business basics) of marketing and the functional areas of marketing. To help prepare you for leadership positions in our global economy, the program covers international marketing, management, and entrepreneurship.

THERAPEUTIC SERVICES / ALLIED HEALTH AND MEDICINE

Students will learn skills for careers in Allied Health and Medicine, which includes patient care, medical terminology, and anatomy and physiology. Students will gain certification in Basic Life Support CPR and sit for an American Medical Certification Association certification exam.
