

**DeKalb County School District**

***Consolidated School Improvement Plan  
2012-2013***

Division of School Leadership and Operational Support  
Kendra March, Deputy Superintendent

**Statement of Quality Assurance**

To ensure that school and district stakeholders have a common understanding regarding the development and implementation of the Consolidated School Improvement Plan prior to its approval, each party is asked to carefully review this section and the plan in its entirety. By his or her signature on this page, each party attests to the fact that he or she approves of the plan.

|  |                 |
|--|-----------------|
| I hereby certify that, to the best of my knowledge, the information contained in the attached Consolidated Schoolwide Improvement Plan (CSIP) is correct, complete, addresses all components required under Federal, State, and district laws, policies, and regulations, and that all specified assurances have been and/or will be met within the operating period of this plan. |                 |
| Principal: Ron Kitchens  | Date: 10-5-2012 |
| Regional Superintendent: Ken Bradshaw  | Date:           |

The Consolidated School Improvement Plan (CSIP) contains and/or is aligned with the following guidelines and mandates:

|   |  |
|---|--|
| <b>AdvancEd (SACS CASI)</b>   | Required for District-wide Accreditation |
| <b>Georgia Department of Education Annual School Improvement Plan</b>   | Georgia DOE mandate                      |
| <b>DeKalb County School System Departmental Action Plans</b><br><br><input checked="" type="checkbox"/> Professional Learning <input checked="" type="checkbox"/> Library-Media<br><input checked="" type="checkbox"/> School Climate <input checked="" type="checkbox"/> Teacher Retention<br><input type="checkbox"/> Career Technology (Middle and High Schools) | Required for all DeKalb County Schools   |

**Integration of AdvancED (SACS CASI) and Georgia DOE School Keys**

The following standards are incorporated and adhered to in this CSIP document:

|   |
|---|
| <b>AdvancED (SACS CASI) Accreditation Standards</b>   |
| <b>Standard 1: Purpose and Direction</b><br>The school maintains and communicates a purpose and direction that commit to high expectations for learning as well as shared values and beliefs about teaching and learning.                                   |
| <b>Standard 2: Governance and Leadership</b><br>The school operates under governance and leadership that promote and support student performance and school effectiveness.  |
| <b>Standard 3: Teaching and Assessing for Learning</b><br>The school's curriculum, instructional design, and assessment practices guide and ensure teacher effectiveness and student learning.  |
| <b>Standard 4: Resources and Support Systems</b><br>The school has resources and provides services that support its purpose and direction to ensure success for all students.   |
| <b>Standard 5: Using Results for Continuous Improvement</b><br>The school implements a comprehensive assessment system that generates a range of data about student learning and school effectiveness and uses the results to guide continuous improvement. |

|  |
|--|
| <b>Georgia School Key Strands</b>  |
| <b>Curriculum</b> - A system for managing and facilitating student achievement and learning based upon consensus-driven content and performance standards.   |
| <b>Assessment</b> - The collecting and analyzing of student performance data to identify patterns of achievement and underachievement in order to design and implement appropriate instructional interventions.  |
| <b>Instruction</b> - Designing and implementing teaching - learning - assessment tasks and activities to ensure that all students achieve proficiency relative to the Georgia Performance Standards (GPS).   |
| <b>Planning and organization</b> – The processes, procedures, structures, and products that focus the operations of a school on ensuring attainment of standards and high levels of learning for all students.   |
| <b>Student, family, and community involvement and support</b> - The school as a community of learning involves parents and community members as active participants. There is consistent and growing evidence of parental involvement and volunteerism, participation in workshops and enrichment activities, and a process of two-way communication. Everyone collaborates to help the school achieve its continuous improvement targets and short- and long-range goals. |
| <b>Professional learning</b> - Professional learning is the means by which teachers, administrators and other school and system employees acquire, enhance and refine the knowledge, skills, and commitment necessary to create and support high levels of learning for all students   |
| <b>Leadership</b> - The governance process through which individuals and groups influence the behavior of others so that they work collaboratively to achieve common goals and promote organizational effectiveness.   |
| <b>School culture</b> - The norms, values, standards, and practices associated with the school as a learning community committed to ensuring student achievement and organizational productivity.  |

**Establishing a CSIP Facilitator, Steering Committee, and Subcommittees**

The principal will appoint a CSIP Facilitator and ensure that the Steering Committee (SC) is representative of all stakeholders. This includes school administrators, teachers, classified staff members, parents, and community members. **High schools must have at least one student representative.** The CSIP Facilitator is responsible for oversight of the CSIP throughout the planning process and the submission of the final document to the principal for approval. The SC is comprised of the CSIP Facilitator and the chairpersons of all subcommittees. The SC and subcommittees are responsible for the development, on-going monitoring, and implementation of the CSIP. The SC will make necessary revisions to the Plan, collect evidence files for Quality Assurance and perform the End-of-Year Review of the school’s success in implementing the Consolidated School Improvement Plan.

**School Council Approval Form**

**Purpose of Meeting:** According the 2009 Georgia School Code, all school improvement plans (CSIP) must be submitted to the local School Council for "review, comments, recommendations, and approval".

*The signatures below indicate that the Consolidated School Improvement Plan for the school above has been reviewed and approved by the school's local School Council.*

**Executive Summary of Consolidated School Improvement Plan (CSIP)**

The following summary expresses the key points that will be found in the full Consolidated School Improvement Plan for 2012-2013. This includes the Needs Assessment, pertinent supporting data, and a plan of action for the new school year.

**The following programs, initiatives, and/or interventions were successful for 2011-2012:**

Narrowed the instructional focus to align with the CRCT domains in reading and math, Miller Math Academy, Math projects aligned with the GPS and CRCT domains, staff math mentors, extended math time, regular instructional conferences and data chats, mock CRCT administration, 3R's (revise, review, re-teach), managing and understanding data, instructional groups based on data (CRCT and benchmarks) after school tutorial and student success celebrations.

**The following programs, initiatives, and/or interventions were not as successful as hoped for 2011-2012:**

**The following issues were barriers to the successful implementation of the above programs, initiatives, and/or interventions:**

Student inappropriate behavior, this was not critical but teachers spent too much time on classroom management, lack of teacher referrals to SST and limited positive parent involvement.

**Based on careful examination of past performance, new data, and staff capacity and buy-in, the following plan of action will be taken for 2012-2013:** The needs we will address are increase in student informational text reading, and deep understanding of Number and Operation strand in Math. Additional support in Math Common Core Strand- Number and Operation in Base Ten will addresses fundamental math skills.

**School Mission and Vision**

|   | <b>DeKalb County School System</b>  | <b>School</b>  |
|---|---|--|
| <p><b>Vision</b><br/>What is our image of a successful school for our stakeholders?</p> | <p>The DeKalb County School District will be acknowledged as one of the high performing large school systems in the United States in preparing students to lead and succeed in a rapidly changing world.</p>  | <p>E. L. Miller be acknowledged as one of the high performing elementary schools in the state in preparing students to be successful leaders in the community and world.</p>   |
| <p><b>Mission</b><br/>How will we make our vision a reality?</p>                        | <p>Our mission is to prepare 21st Century students to thrive and succeed in a diverse and ever changing world through a partnership of homes, schools and communities.</p>  | <p>The ultimate mission of E.L. Miller Elementary School is to provide developmentally appropriate educational opportunities and learning experiences for all students.</p>  |
| <p><b>Values</b><br/>What beliefs and standards guide our mission?</p>                  | <p>The DeKalb Schools 21st Century student will demonstrate:</p> <ul style="list-style-type: none"> <li>• Flexibility and adaptability</li> <li>• Initiative and self direction</li> <li>• Social and cross cultural interaction</li> <li>• Productivity and accountability</li> <li>• Leadership and responsibility</li> <li>• Information and technology literacy</li> <li>• Critical thinking and problem solving</li> </ul> | <p>At E.L. Miller, we believe...</p> <p>Student learning is our top priority!</p> <p>All children are unique individuals with the ability to learn and succeed.</p> <p>Since students have individualized learning needs, teachers must use a variety of techniques, methods, and materials to support student’s learning and educational process.</p> <p>High expectations for students’ academic growth and behavior are quintessential for establishing and reaching school wide goals.</p> |

|  |   |   |
|--|---|---|
|  | <ul style="list-style-type: none"><li>• Creativity and innovation</li></ul> | <p>All of the members of our learning community, teachers, administrators, staff members, parents, and students, share in the responsibility of establishing a supportive learning environment within our school.</p> |
|--|---|---|

### Developing a Comprehensive Needs Assessment

#### **1) Provide a brief description of your school and community. Include the following information:**

Eldridge L. Miller Elementary is a Pre-K through 5 school serving approximately 530 students. It has the distinction of being a “community school”, which serves the children of the surrounding area.

E. L. Miller Elementary School is located in the middle of the Main Street Subdivision in Stone Mountain. It is a neighborhood school with a focus on reaching the "total child." Miller is an exceptional school with highly qualified educators. We are focused on providing a stimulating, positive environment in which our students can maximize their potential and accept learning as a necessary, life-long endeavor.

Our school will become a "failure free school," based on the belief that all students have the ability to learn regardless of their learning profile or socio-economic status. Students will become accountable for their learning and educators will become accountable for their teaching. Excellence in academics is the target and eminence in academics is the goal. This goal will be reached as we prepare students both academically and socially to be highly productive and responsible citizens. We will work together, school and community to elevate the students to the highest level of learning. We will model this belief daily, to our students, parents, community and ourselves.

We are very proud of our after school tutorial program, and our after school PE program. Our partnership with Georgia Perimeter College provided our students with a wealth of cultural activities as well as contests sponsored by and classes taught by their professors.

#### **2) Describe how the school stakeholders and the CSIP Steering Committee developed a comprehensive needs assessment. Include the following information:**

▫ **When, where, and how often the team meets (include agendas, minutes, and sign-in sheets as an appendix)**

▫ **The process used to disaggregate information and to identify areas of need based on the eight strands of the Georgia School Keys**

The CSIP Steering Committee consists of the school principal, assistant principal, a CSIP facilitator, a parent, and committee chairs representing the grade levels and the core academic content areas, special education, media and professional learning. The members were selected in two ways. The

**3) Identify data used to complete your Comprehensive Needs Assessment. Check all that apply.**

|                        | SAT, ACT, and AP Exams              |                  |   | X                                 | Parent/Community Surveys    |

*Note: The outcome/summative assessment data utilized in the development of this plan is derived from both state and national assessments that have been validated and administered state-wide and nation-wide.*

**Leadership and Governance**

**4) Write a narrative summarizing your school’s strengths. Data sources from comprehensive needs assessment must be included in the narrative to support findings.**

Implementation of best teaching practices and student performance are the strengths at E. L. Miller. Teachers inform parents/guardians of student progress in a timely manner through mail, e-mail, progress reports and sending parent correspondence home weekly. Conferences with parents/guardians are held regularly. Effective parenting skills were offered to parents/ guardians through E. L. Miller’s parenting center and Title I Parent meetings. Academic strengths are in Reading, and English Language Arts. E. L. Miller has met AYP consecutively from 2003 – 2011 in reading/ELA.

**The major strengths** we found in our program were in Reading. The domains of Vocabulary and Comprehension proved to be in the 80% range for grades 3<sup>rd</sup> – 5<sup>th</sup>. CRCT scores validate the need for increased performance in the areas of Math and Science. Based upon our analysis of the instructional and organizational effectiveness, we have identified specific priorities for improvement. These priorities were based on a comprehensive needs assessment that addressed all the academic areas and includes an analysis of factors that may affect student achievement such as: school climate, parental involvement, discipline, attendance, research-based teaching strategies, learning styles, and professional development.

Brief Summary based on 2011-2012 CRCT building wide data analysis:

|   |                 |  |
|---|-----------------|--|
| <b>Reading</b>  | <b>Strength</b> | <b>Comprehension, Vocabulary</b>         |
| EL Miller Elementary School has shown growth on the 2011-2012 CRCT for students meeting and exceeding the standards in the areas of Reading. The 3 <sup>rd</sup> grade increased by 1% the 4th grade student reading scores increased by 5% and 5 <sup>th</sup> grade student reading scores increased by 6%.   |                 |  |
| <b>Math</b>   | <b>Weakness</b> | <b>Number /Operation, Measurement</b>    |
| The 3 <sup>rd</sup> grade students demonstrated a weakness on the CRCT Math Assessment with an 11% decrease while 5 <sup>th</sup> grade students showed a 6% decrease. The data shows evidence that the current students are weak in the Number /Operations and Measurement domains.  |                 |  |
| <b>Sci.</b>   | <b>Weakness</b> | <b>Improvement in all domains needed</b> |
| Science score indicated that overall improvement is needed in all domains. The Science CRCT results demonstrated that Science and Social Studies are areas for improvement. The 4 <sup>th</sup> grade students did not show a gain in Science and therefore remained at 62% for two consecutive years. The 3 <sup>rd</sup> grade scores show a decrease of 14%. While the 5 <sup>th</sup> grade students did show a 9% gain, the overall 40% met/exceed shows need for improvement. |                 |  |

|  |                            |  |
|--|----------------------------|--|
| <b>SS</b>  | <b>Strengths</b>           | .  |
| The 4th grade student Social Studies scores increased by 10% and 5 <sup>th</sup> grade scores increased by 9%. All areas social studies can be improved. |                            |  |
| <b>Area for Improvement</b>  |                            |  |

| <b>5<sup>th</sup> Wtg.</b>   | <b>Strength</b>            | <b>Weakness</b>                            |
|  | Ideas, Organization, Style | Conventions shows area of need improvement |

Data from the 2011-2012 has been compiled and distributed to each grade. The Design/Leadership team along with administrators and the academic coach will lead the staff in continuous disaggregation of the data and analysis for next steps.

**5) Write a narrative summarizing your school’s challenges. Data sources from comprehensive needs assessment must be included in the narrative to support findings.**

**The major needs** we discovered were the need for increase in informational reading which will help with understanding of more complex science and social studies text. Students can benefit from more instructional focus on scanning for information, reading charts, and practice in use of higher order thinking skills. Cross-curricular implementation will be used to increase learning time in the needs improvement content areas.

Math and Science scores need to increase and utilization of more cross-curricular lesson planning to include more nonfictional text. The student Support Team (SST) process needs to be expedited to ensure that students’ academic and behavioral needs are met as expeditiously as possible. The school is in a constant state of transition and students entering are often below grade level expectation which has a direct effect on academic goals. There is a need to decrease the number of students on level I and increase the number of students on level II & III in Reading, Math, Science and Social Studies. Technology equipment is not repaired or replaced in a timely fashion. The computer math lab needs to be adequately functioning at all times to enable students the ability to practice and reinforce identified math skills in grades K-5. \* See charts above

**6) List the professional development needed to address the challenges summarized above.**

***Next Steps to Improve Math:***

- K-5<sup>th</sup> grade teachers will receive ongoing professional development in Common Core Georgia Performance Standards for Math to increase the understanding of the standards and rigor and thus increase student achievement.
- K-5<sup>th</sup> grade teachers will attend WOW Days (Working on the Work) every nine weeks. During this forum, teachers meet on grade levels to analyze and disaggregate student data from the previous benchmarks to plan for instruction for the upcoming nine weeks. The flexible groups will then be adjusted to match the according to the data.
- K-5<sup>th</sup> grade teachers will receive in-depth training from the Assistant Principal of Instruction and the Academic Data Coach on conducting effective math conferences.

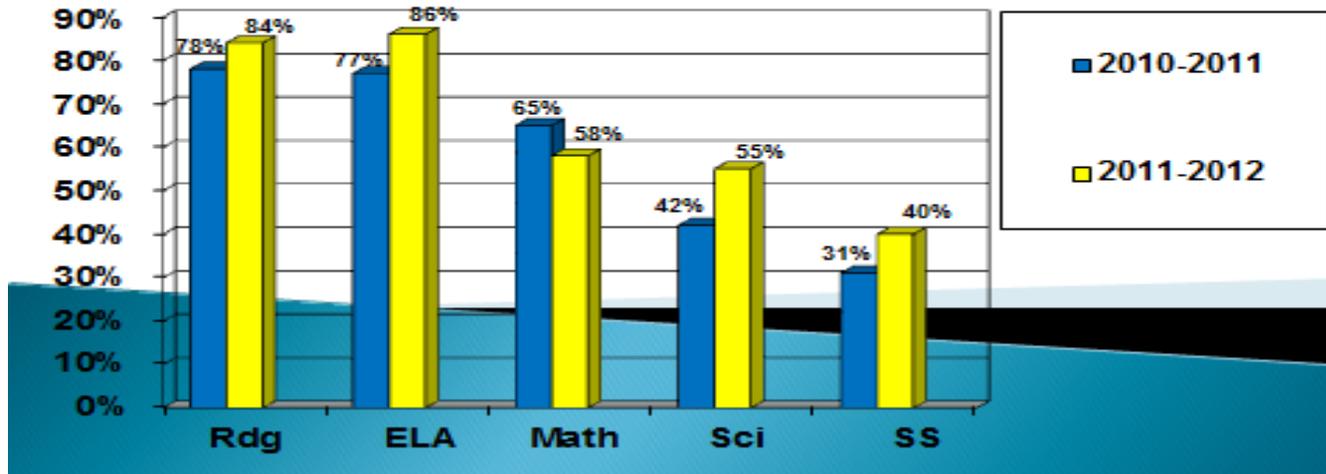

***Next Steps to Improve Writing:***

- K-5<sup>th</sup> grade teachers will receive a Writing Calendar in which each genre (Argument, Informational/ Explanatory and Narrative) will receive the time needed to successfully teach and increase writing scores.
- Teachers will receive extensive training in the Common Core Georgia Performance Standards for Writing.
- The Academic Data Coach will implement a 5<sup>th</sup> grade “Writing Boot Camp” which will occur after each genre is taught.
- K-5<sup>th</sup> grade teachers will begin administering posttest after each writing genre to determine student’s instructional needs.
- K-5<sup>th</sup> grade teachers will receive a Writing Calendar in which each genre (Argument, Informational/ Explanatory and Narrative) will receive the time needed to successfully teach and increase writing scores.
- Teachers will receive extensive training in the Common Core Georgia Performance Standards for Writing.

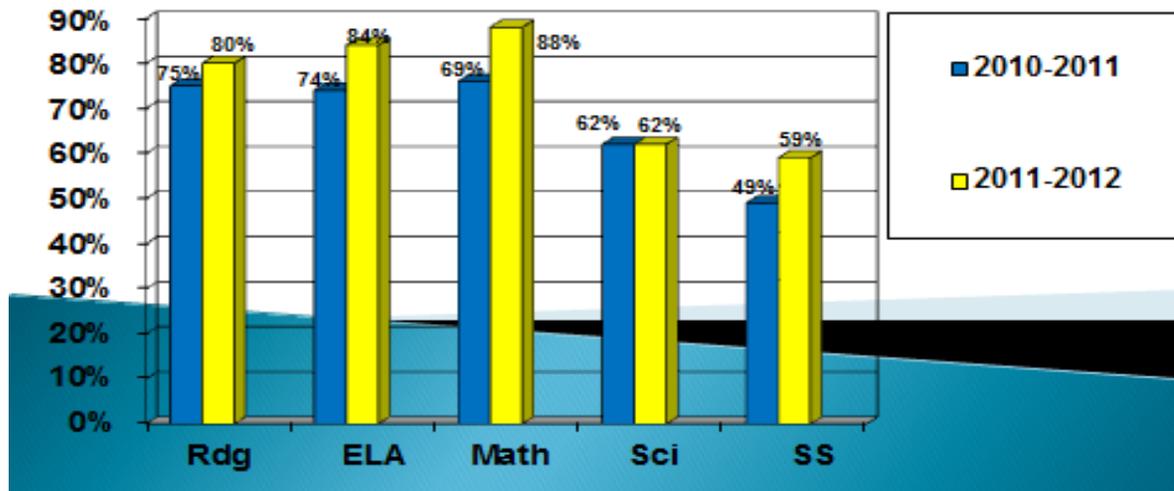

We have based our plan on information about all students in the school and identified students and groups of students who are not yet achieving to the State Academic content standards and the State student academic achievement standard including:

- i. Economically disadvantaged students data reflect Title I Building status
- ii. Students from Major racial and ethnic groups are majority African American
- iii. Students with disabilities talking the CRCT from 3-5<sup>th</sup> grade: are identified as special are as speech-language impairment, mild intellectual disability autism and emotional and behavioral disorder identification.
- iv. Students with limited English proficiency are not present in our school at this time.

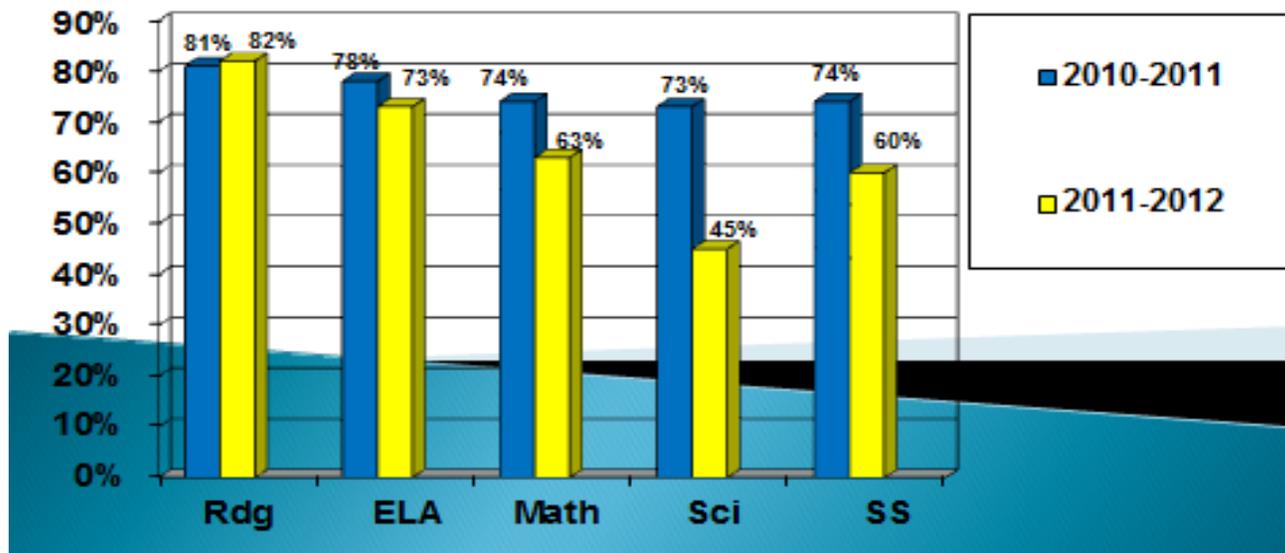

### EL Miller Elementary School 5th Grade CRCT Results 2010-2012

### EL Miller Elementary School 4th Grade CRCT Results 2010-2012

### EL Miller Elementary School 3rd Grade CRCT Results 2010-2012

**8) Describe how the following student support personnel work with the district office and outside agencies to meet student needs.**

School Counselors:

Psychologists:

Student Support Specialists:

Social Workers:

School Nurses:

The principal, school psychologist, social worker and school clinician work collaboratively to locate resources that best accommodates the needs of the student. Community, county and state resources may be utilized.

**Strategies to Increase Parental Involvement**

**9) Identify how the school provides parents and community outreach/support through activities and initiatives. Check all that apply:**

|   |  |   |                                   |
|---|--|---|-----------------------------------|
| X | Site-based Parent Centers/Information Stations |   |                                   |
| X | Parent Lending Libraries                       | X | Pre-K Family Resource Specialists |
| X | Parental Involvement Workshops                 |   |                                   |
| X | Parental Involvement Survey/Summary            |   | Others (list here)                |

**10) Describe how the school uses the strategies checked above to increase parental involvement.**

E. L. Miller is an exceptional school with highly qualified educators. We are focused on providing a stimulating, positive environment in which our students can maximize their potential and accept learning as a necessary, life-long endeavor.

Excellence in academics is the target and eminence in academics is the goal. This goal will be reached as we prepare students both academically and socially to be highly productive and responsible citizens. We will work together, school and community to elevate the students to the highest level of learning. We will model this belief daily, to our students, parents, community and ourselves.

Parental involvement is a major component of a successful educational program. Our students, parents, teachers and community are committed to “Victory in Every Classroom” of achieving academic excellence.

We are very proud of our after school tutorial program and the Miller Academy.

The Parent Center provided workshops for parents and students. The workshops were No Child Left Behind, Math & Reading Concepts for Testing, Health & Nutrition, Systematic Training for Effective Parenting (STEP), and Technology Classes.

Educational Conferences are held twice annually to encourage parents to get involved in the education of their elementary, middle and high school students. A variety of sessions will be offered in several languages to assist parents with language barriers.

E. L. Miller will provide parents with information about parental involvement activities in a timely manner. Newsletters, notes on progress reports, conferences, school calling post, student agenda planners, and minutes from meetings will give current information.

The school meetings involving parents will be arranged at a variety of times, such as morning and evenings to maximize opportunities for parents to participate in school related activities.

If requested, Miller will provide opportunities for regular meetings for parents to make suggestions in decisions relating to their student’s education through individual parent conferences or activities held by the individual grades.

The school will ensure that information relating to school meetings, parent programs and associated activities will be sent in a timely manner to participating children in a form and language that parents can understand.

E. L. Miller encourages voluntary parental involvement. Parents can visit or volunteer in the classroom and document their hours on the volunteer log provided by the school. Parent Center visits are encouraged as a way for parents to work with educators to improve the performance of the children. The Parent Center is a Lending Library. Parents can borrow resources to assist their child in areas from Pre-K through Grade 5.

As part of E. L. Miller’s community outreach activities and initiatives we are in partnership with Georgia Perimeter College (GPC). Members of the GPC staff provide staff development for our staff and GPC students assist our students in various projects and activities for Math and Science.

**11) Identify how the school communicates with parents as partners in education. Check all that apply:**

|   |   |   |                                 |
|---|---|---|---------------------------------|
|   | Parental Involvement Handbook for Parents | X | Newsletters ( Tuesday Folder )  |
| X | School Website                            | X | Calling Post                    |
| X | DCSS Website/Community.Net                | X | Parent Portal                   |
| X | Parent Right to Know Letter               | X | Other: Conferences and meetings |

**Stakeholder Communication**

**12) Describe how individual student assessment results will be provided to and interpreted for parents.**

Parents and community members serve on the Parent Teacher Association Board, the School Council, and the CSIP Steering Committee.

Parents serve on the CSIP Steering Committee. They assist with the data analysis, revising the draft reports submitted by the committees and assist with presentations to the larger parent groups.

The School Council serves as an advisory committee regarding instruction and attendance

**13) Describe how disaggregated school data results will be provided to school stakeholders\*\*.**

The results of the disaggregated data are communicated in numerous ways. The DeKalb County School System website, The Governor’s Office of Student Achievement and the Department of Education websites provide this data to the public. Additional, local newspapers print the test results by schools. At the local school, the website, PTA newsletters, and a Parent Open House provide this information to the parents and community members.

**14) Describe how the CSIP will be communicated with and made available to school stakeholders\*\*.**

The school will provide the CSIP to stakeholders through the school and system websites, PTA Open House, School Council Meetings, and letters to parents. Translation or interpretation of the plan, to the extent feasible, shall be provided for any language that a significant percentage of the parents of participating students in the school speak as their primary language.

Note: The outcome/summative assessment data utilized in the development of this plan is derived from both state and national assessments that have been validated and administered state-wide and nation-wide. Achievement data is collected, disaggregated, and published by the Georgia Office of Student Achievement and is therefore valid and reliable (ESEA Mandate #12).

\*\* Translation or interpretation of the plan, to the extent feasible, shall be provided for any language that a significant percentage of the parents of participating students in the school speak as their primary language.

Note: The outcome/summative assessment data utilized in the development of this plan is derived from both state and national assessments that have been validated and administered state-wide and nation-wide. Achievement data is collected, disaggregated, and published by the Georgia Office of Student Achievement and is therefore valid and reliable.

\*\* Translation or interpretation of the plan, to the extent feasible, shall be provided for any language that a significant percentage of the parents of participating students in the school speak as their primary language.

### **Selecting Appropriate Interventions Using Scientifically Based Research**

All interventions based on the Georgia School Keys are predicated on scientifically-based research and do not require citations.

The School Keys: *Unlocking Excellence through the Georgia School Standards* is the foundation for Georgia's comprehensive, data-driven system of school improvement and support. Correlated to several well-known and respected research frameworks, the School Keys describe what Georgia's schools need to know, understand, and be able to do, in the same manner that the Georgia Performance Standards (GPS) describe what Georgia's students need to know, understand, and be able to do. Through the Georgia Assessment of Performance on School Standards diagnostic process (GAPSS Analysis), a variety of data are collected from multiple sources to assess the status of a school on each of the standards. The data are combined to inform the results of the GAPSS Analysis, which, in turn, informs the development and implementation of school improvement initiatives, including high impact practices, in a school. A Memorandum of Agreement with the Southern Association of Colleges and Schools Council on Accreditation and School Improvement (SACS/CASI) details conditions under which the School Keys and GAPSS Analysis may count for a SACS/CASI Quality Assurance Review and accreditation visit.

These School Keys are intended to serve as a descriptor of effective, high impact practices for schools. In identifying these School Keys, the Division of School and Leader Quality of the Georgia Department of Education along with its collaborative partners aligned the School Keys with the research

by Dr. Robert Marzano in the meta-analysis, *What Works in Schools* (2003), *School Leadership that Works*, (Marzano, Waters, and McNulty, 2003), and the Standards of the Southern Association of Colleges and Schools Council on Accreditation and School Improvement. The eleven factors identified by Dr. Marzano and similar terms and statements from the other research documents were combined until eight broad strands were determined to encompass the research: Curriculum; Instruction; Assessment; Planning and Organization; Student, Family, and Community Support; Professional Learning; Leadership; and School Culture. The eight strands have been further developed and defined into performance standards, linguistic rubrics, and elements/descriptors to assist schools in the process of school improvement.

The School Keys serve as a tool for all schools in the state. The document was field-tested during the 2004-2005 school year. Data from the field test were used to revise the School Keys for the 2005-2006 school year. An external validation study of the School Keys was conducted by the Georgia Partnership for Excellence in Education. This external validation included responses from and critiques by a national panel of experts in school improvement. Based on input from the external validation, further refinements were made to the School Keys, including clarification of language and the development of linguistic rubrics to guide the standards application process.

**Coordination and Integration of Federal, State, and Local Services and Program Funds**

| Funding Sources  | Provide a narrative explanation of how funds will be used to support student achievement and/or school improvement in relation to the components of this plan.   |
|--|--|
| Federal Funds  | The funding generated from the Title 1 Program and title I American Recovery and Reenactment Act (ARRA) will be used to provide additional instructional personnel, instructional materials and equipment, professional learning opportunities and parent involvement activities.                                |
| State Funds  | Per pupil funds will be used to purchase materials and supplies that address the needs identified in the CSIP  |
| GA DOE School Improvement Grant (Needs Improvement Title I Schools Only) |  |
| Federal School Improvement Grants  |  |
| Local Professional Learning Funds  | Professional learning funds will be used to purchase resource materials for differentiated instruction, using formative and summative assessments, methods for teaching performance standards, balanced assessments and the development of rubrics to promote learning in a standards base learning environment. |
| Grants (list)  | The eMath was a three year commitment which is now complete. All teachers have completed training and the technology is expanding and enhancing the knowledge of our students.   |
| PTSA   | The PTA provides funds for academic recognition programs each semester. Funds are used to purchase trophies for Principal’s List and Honor Roll recipients. Funds are also provided for teachers to purchase instructional materials to support reading, math and language arts instruction.                     |
| Partners in Education  | Georgia Perimeter College provides on campus Math and Science activities for fifth grade students. Funds will be used to provide transportation for students.  |
| Federal Funds  | The funding generated from the Title 1 Program and title I American Recovery and Reenactment Act (ARRA) will be used to provide additional instructional personnel, instructional materials and equipment, professional learning opportunities and parent involvement activities.                                |

Select appropriate research-based performance actions that support your plan. If an individual school chooses to select a performance action or initiative other than those sited in the Georgia School Keys Implementation Resource Guide, a citation is necessary. Cited research should directly align with the performance action or initiative it supports. Copies of all budgets referenced in this section should be placed in the appendix.

| <p><b>Instruction Standard 2: Performance/Action 1</b><br/>                     Utilize and monitor the three part lesson as an instructional framework for all lessons. The framework includes: Opening- The beginning of the lesson clearly establishes the expected learning outcomes. Work Session- During the work session, students are given ample time to practice the new critical experiences and Science inquiry focusing on Physical Science and Earth Science. Closing- Students are given time at the end of each critical experience to give and receive feedback, clarify understandings, and summarize what was learned in an experience. Closings and summaries confirm conceptual understanding. They link back to the opening and the targeted standard or elements.</p> | Per Pupil<br>Fernbank<br>Science<br>Center | Aug. 2012-<br>May. 2013<br>Principal<br>API<br>K-5 Science<br>Teachers<br>Student<br>Support<br>Specialist<br>Data Coach<br>Academic Data<br>Coach | Teacher<br>observation,<br>oral and<br>written<br>presentation<br>Portfolio<br>Projects<br>Teacher made<br>test<br>Chapter Test<br>Time for Kids<br>Non Fiction<br>Text<br>Cross-<br>Curricula | Teacher and students can explain different instructional phases of a lesson, for example, the opening, work session, and closing of a lesson. |
