## STAKEHOLDER ENGAGEMENT SUMMARY

In January 2016, the DeKalb County School District hired Education Planners, LLC of Marietta, Georgia to assist the district in conducting a Secondary Schools Facility Planning & Feasibility Study that would develop long-term plans for addressing the capacity needs of the district's middle schools and high schools. The district projects significant overcrowding will occur over the next five years in multiple high school clusters. The scope of the study includes three specific tasks:

Task 1: Analyzing comprehensive data pertaining to the district's middle schools & high schools

Task 2: Stakeholder Engagement

Task 3: Development of regional master plans

### The following is a summary of Task 2, Stakeholder Engagement.

The Stakeholder Engagement Plan was crafted to accomplish three objectives:

- 1. Engage and involve affected stakeholder groups in a meaningful way to ensure that community stakeholders understand the process and are given ample opportunity to give and receive information.
- 2. Provide clear and detailed information to affected stakeholder groups regarding existing conditions and proposed changes.
- 3. Receive relevant, targeted feedback that can be used to adjust and modify plans as needed prior to final approval.

Step 1 of the Stakeholder Engagement Plan created five Regional Steering Committees - one committee for each of the district's five school regions. Each Steering Committee is composed of the principal or designated administrator from each middle school and high school in the region, and a parent representative from each middle school and high school.

Step 2 of the Stakeholder Engagement Plan scheduled three rounds of meetings with each Regional Steering Committee to share comprehensive data pertaining to the district's middle schools and high schools, including: FCA/FEAA reports; enrollment & capacity; enrollment projections; age of facilities; feeder patterns; transportation distances; etc. Additionally, these meetings featured workshops to identify challenges, opportunities and priorities by region, and develop those results into specific recommendations.

Following each round of Steering Committee meetings, two geographically convenient public meetings were held. These meetings, open to the general public, shared the study process, school data, and the opportunities, challenges and priorities developed in the Steering Committee workshops. Additional public feedback was used to refine the work of the Steering Committees and begin shaping specific options to address middle school and high school capacity needs.

Following the Round 1 and Round 2 public meetings, the broader community was invited to participate in online

surveys that presented the same information shared in the public meetings and asked participants to state preferences, rank options and leave written comments. Surveys were provided in both English and Spanish to accommodate as many stakeholders as possible.

## **ROUND 1**

## **Round 1 Steering Committee Meetings:**

- One meeting in each district region:
  - Each Steering Committee composed of one administrator and one parent from each middle and high school in the region.
- Each committee reviewed custom data packet with information pertaining to schools in that region.
- Each committee reviewed Powerpoint presentation.
- Each committee participated in workshop exercise to provide feedback regarding challenges and opportunities by region.

### **Round 1 Steering Committee Results:**

Key challenges identified by region in Round 1:

Region 1	Region 2	Region 3	Region 4	Region 5
Overcrowding	HVAC	Overcrowding	Athletic facilities	Curricular prgms/ STEM, dual language
Redistricting/ Add Doraville Cluster	Overcrowding	HVAC	Access control/ Security	Parent Engagement
Athletic facilities	Attendance lines/ Rearrange clusters	STEM program	Curricular prgms/IB, Arts, STEM, Culinary	Security/Doors, locks, cameras
HVAC	Parking	Security cameras	Security cameras/ Monitoring	Teacher Retention
Additional security personnel	Security fencing	Access control/ Security	Computers/Labs	Pest control

Round 1 summary feedback

## **Round 1 Public Meetings:**

- Public Meetings were held on April 12, 2016 at Tucker High School and on April 14, 2016 at Southwest DeKalb High School.
- As a single group, participants viewed a Powerpoint presentation sharing middle school and high school data, and a summary of Steering Committee work.
- In small groups, participants identified challenges and opportunities in an exercise similar to the one conducted with the Steering Committees.

### **Round 1 Public Meeting Results:**

## **Round 1 Online Survey:**

An online survey was open to all stakeholders April 12-21 and generated a total of 125 responses. Complete summary of results: <u>http://tinyurl.com/zfkf7au</u>

### **Round 1 Online Survey Summary Results:**

#### ONLINE SURVEY RESULTS 125 Responses

.

#### **QUESTION 2**

Considering the cost to build new schools, and that E-SPLOST renewal could provide up to \$170 million for new construction (new middle and high schools and/or additions). How would you prioritize the use of those funds? Select highest priority

#### ONLINE SURVEY RESULTS 125 Responses

#### QUESTION 3

What other strategic adjustments could improve the balance of MS & HS enrollment and capacity across regions (i.e., shifting or adding curricular programs, adjusting choice options, adjusting one-to-one feeders, etc.)? Select highest priority.

## **ROUND 2**

### **Round 2 Steering Committee Meetings:**

- One meeting in each district region:
  - Each Steering Committee composed of one administrator and one parent from each middle and high school in the region.
- Each committee reviewed Powerpoint presentation.
- Each committee participated in workshop exercise to begin identifying solutions to enrollment/capacity concerns in middle schools and high schools.

## Round 2 Steering Committee Meeting Results:

1. BUILDING NEW MIDDLE SCHOOLS & HIGH SCHOOLS	2. ADDING ON TO EXISTING MIDDLE SCHOOLS & HIGH SCHOOLS	3. CHANGING ATTENDANCE ZONES (WITHOUT BUILDING NEW SCHOOLS)	4. MOVING, ADDING OR ALTERING SCHOOL CHOICE PROGRAMS (MAGNETS, THEMES, ETC.)	5. OTHER FACILITY NEEDS (HVAC, SAFETY, ATHLETIC FACILITIES, PARKING, ETC.)
<ul> <li>A. Should new schools be built?</li> <li>B. If so, where should they be built?</li> <li>C. What attendance areas will be required?</li> <li>D. Why? (What problem or opportunity would this address?)</li> </ul>	<ul> <li>A. Should additions be built at existing schools?</li> <li>B. If so, at which schools?</li> <li>C. Why? (What problem or opportunity would this address?)</li> </ul>	<ul> <li>A. Should attendance area changes be made?</li> <li>B. If so, where?</li> <li>C. Why? (What problem or opportunity would this address?)</li> </ul>	<ul> <li>A. Should school choice programs be moved, added, and/or altered?</li> <li>B. If so, which programs? Where?</li> <li>C. Why? students	Transportation/distance -traffic	needed in schools in Regions 3,4,5		
Make class sizes large enough for students	Rezoning Clarkston - Redan/Stone Mountain	Merge McNair HS & Cedar Grove HS, also merge Cedar Grove MS & Columbia MS		
New sport facilities on campus at a HS - kids/parents should not have to drive to another school	Merge DESA/DSA - Avondale MS			
	Avondale vs. 9th grade charter			
	After merging DESA/DSA and creating 9th grade academy, rezone Clarkston HS to Stone Mountain HS			
	What Are Best Options to Relieve			
Build New Middle School(s) to Provide Sufficient Seats to House Students in Regions 1 & 2?	Overcrowding & Make Efficient Use of Region 2 Facilities As Well As Clarkston HS in Region 3	Build New High School to Provide Sufficient Seats to House Students in Regions 1 & 2?	What Are Best Options to Address Under- Capacity Schools in Regions 3, 4, & 5?	Build New Middle School(s) to Provide Sufficient Seats to House Students in Regions 1 & 2?
Disproportionately distributed to Regions 1	1 0	Build 3: Doraville, between Cross Keys, Druid Hills on old Briarcliff site	Stop ignoring Regions 3,4, 5	
& 2	McNair HS	Druid Hills on old Briarcliff site	stop ignoring Regions 3,4, 5	
Expand Kittredge & Wadsworth to 8th grade (4th - 8th not just until 6th) Feed this into HS	Themed schools placed at under capacity schools (IT or architecture, etc. themed) Chapel Hill MS, McNair HS/MS, MLK HS/MS and students follow program from MS to HS	Build Doraville to relieve CK, DHS, LK	Parents feeling tired of driving north - let's make our community schools better (invest time, energy, etc.)	
New magnet school in middle of DCSS (Avondale or Tucker)	Add special programs (STEM, etc.) to these schools (utilize virtual tools)	GM Plant - vague consideration	Need to focus more on MS (real concern)	
Yes, build/relieve Sequoyah MS on Briarcliff site	No 9th grade academy (transportation issues)	Additions to DHS	New school location for Champion MS- Immediate need	
Redistrict would relieve Peachtree MS,	Redistrict portion of Clarkston HS to Redan		Dual language immersion program at all	
Chamblee MS	HS moving programs with students	Utilize old Briarcliff HS site	levels	
Add 2nd middle Region 1	DSA/DESA - expand to 8th (DESA) - don't merge	Utilize Old Chamblee MS site		
Change grade adjustment - MS = 7,8,9		Alternative to new HS - switch DHS and PCMS, however doesn't help CCHS		
		Move magnet from Chamblee to another school that has capacity to be a stand alone school		

## **Round 2 Online Survey:**

.

An online survey was open to all stakeholders May 10-June 15 and generated a total of 211 responses. Complete summary of results: <u>http://tinyurl.com/h4euv2h</u>

Summary of write-in responses to questions:

			HIGH SCHOOLS			
New Build Location	New Build Specifics	Additional Classrooms	Rezoning	Renovation	Consolidation	Merging
Former GM Plant	Provide relief to CKHS & LHS	At Chamblee	Rezoning and better residency	Add floors to existing DHS and	CCHS & CKHS attendance	
	wihout changing current feeder		verification for students of all	CCHS.	areas	
	patterns		schools	<b>a</b>		Merge DESA and DSA
Near Henderson ES	Central to LHS, CKHS & DHS	At Dunwoody	Rezone Hightower ES to Chamblee (which is under capacity) to	Renovation better for environment	Regions 3, 4, & 5 close under capacity schools and combine	
			relieve Peachtree MS and	environment	capacity schools and combine	
			Dunwoody HS			
Near I-285-Peachtree Industrial	Build to standard size of Cobb &	At Lakeside	Rezone students in Regions 3, 4, &	Renovate CKHS and combine with		
	Gwinnett		5 (school choice)	CCHS		
Northlake area	Build with 2,000 seats	At Druid Hills	Rezoning should be consistent	Convert Druid Hills MS back into a		
				HS		
Brookhaven	Build ESOL focus school for high Hispanic population	At Lithonia/Miller Grove HS's	Rezone LHS shift students to adjacent HS and/or a potential	Convert CKHS to MS		
	rispanic population		new school in Doraville			
Centrally located	Build with same philosophy as	Add additionas and put money into	Rezone Regions 3, 4, & 5 to free	Remodel the school on Druid Hills		
	Esther Andrews & Arabia	existing schools	up USABLE school space.	across from Target		
	Mountain					
Between CKHS & LHS	Build enough schools to	Add trailers	Split CKHS cluster into 2 zones	Reopen and renovate Avondale		
с. <u>к. и. і. і</u>	alleviate overcrowding					
Cross Keys/Lakeside area	Somewhere beneficial to the 4 neighborhoods in question		Rezone Clarkston by shifting students to Redan HS and/or	Use Briarcliff HS as MS for LHS

## **ROUND 3**

### **Round 3 Steering Committee Meetings:**

- One meeting in each district region:
  - Each Steering Committee composed of one administrator and one parent from each middle and high school in the region.
- Each committee reviewed Powerpoint presentation.
- Each committee participated in workshop exercise to review and identify Pros & Cons of draft Options to address enrollment/capacity concerns in middle schools and high schools.

#### **Round 3 Results:**

#### **Steering Committee Ranking of Options**

(Point totals inversed so that higher number reflects greater support. 1=4 pts., 4=1 pt.)

## Round 3 Steering Committee Feedback Comments:

			REGIC	DN 1				
OPTIC	DN 1	OP	TION 2-A	OPTI	ON 2-B		OPTION 3	OTHER
PROS	CONS	PROS	CONS	PROS	CONS	PROS	CONS	
Deals with portables (92%)	No \$ set aside for auditorium	Minimizes zone adjustments (less disruptive)	No room to build at CKHS (can only build up)	Same as 2-A	Same as 2-A		Too disruptive	
Uses land DeKalb already owns	Needs to look at CTAE	Cost efficient	No new schools				Too much change after long period of relatively fixed attendance zones & MS to HS feeder	
Local - improves local involvement & after school program participation	All in Region 1-2 (opposed by other Regions)	Amount spread out among more schools	CKHS cluster less renovations	Less \$ on renovations			Will cause significant disruption to district and school business	
Least disruptive solution	Long term excess capacity	If Option 1 is not available, this option is next favorable	Old schools worn out during construction	Same as 2-A	Same as 2-A		Not a favorable option due to massive district wide reorganization of attendance zones and disruption of 1 to 1 feeder patterns	
Allows N. DeKalb to experience relief from overcrowding, where there is great need	Maybe cut up by I-85 & I-285		Mixed on redistricting		Least favorable option			
Price tag is not a deterrent, fund already there via SPLOST	Immaterial to maintain MS to HS		New construction on existing school campuses presents logistical challenges to teaching/learning & security issues		Chamblee HS/MS community would have significant concerns due to long history of success with magnet programs and the removal of the programs would not be favorable			
Allows for 1 to 1 feeder patterns to remain which is valued by our district Most affordable option	Possible negative implications of Dunwoody students only going to school within Dunwoody city limits		Uncertainty about available space on existing campuses where new construction would go		Leaves no magnet programs in Region 1 or 2			

					<b>REGION 2</b>			
OPTIC	DN 1	OPT	ION 2-A		OPTION 2-B		OPTION 3	OTHER
PROS	CONS	PROS	CONS	PROS	CONS	PROS	CONS	
Best increase in capacity	DSA not addressed	Use existing property	DSA not addressed	Same as 2- A	Same as 2-A	Most economical; do with \$	DESA should not be moved just went thru battle to move. It will not be centrally located	Do not move DESA
Least disruption Most forward looking	Most expensive DSA not addressed	Modest budget Cost	Over estimating feasibility of site capacity (parking, community, emergency Less popular (redistricting)	Cost	Magnet program not at central location/Briarcliff/Avondale DSA not addressed	Funds available for DSA & other projects Ability to address ES	DSA not mentioned Most disruptive	Add DES Do not add to Lakeside HS
More community buy-in for rezone	1 School		Redistricting limited to area of the school		Too many individual renovation projects Less renovation projects	Cost less	A lot of shuffle	New School 2500 What are the costs of
Better cost	Split feed		Split Feed		between 2A & 2B (-\$27 million)	More \$ available	Too much (questionable estimate)	the needs in the "white box"?
\$ for white box projects & DESA Helps with overcrowding	New school High capacity		Location of MS DSA not addressed				Splits Henderson MS community Split feeders - difficult/disruptive	Region 2 discussed HVAC, Security, and other needs that may not be addressed due to overcrowding as a driver Why is there so much movement in Region 2 if the Region 1 overcrowding is a priority
Utilizes current facility	No \$ for ES		Too many individual renovation projects				Relocate DESA	Add a 600-seat addition to LHS, could address Region 2 capacity issue
Most capacity \$ goes to HS/MS Henderson split feeder	60 MM for 2 new Cross Keys ES		Moving magnet to SWD is intrusive to parents and only benefiting the numbers and not other extenuating factors				Least preferable	Region 2 has historically been very active in redistricting New CKHS seems critical Revert Sequoyah to HS, build 2 MS
OK temporarily	Student movement Price							(Briarcliff & other location) Moving students from Chamblee & Dunwoody may not be well received, addition may need to be considered

REGION 3									
OPTION 1		OPTION 2-A		OPTION 2-B			OPTION 3	OTHER	
PROS	CONS	PROS	CONS	PROS	CONS	PROS	CONS		
Seems the most feasible, while there is some transfer of students, gaining a new cluster seems reasonable in trade	Concern about our most at-risk students being moved to schools that put them at more risk						Total of 1,400 students from Clarkston & Tucker HS to Stone Mountain HS but Stone Mountain is receiving no additions or improvements	Clarkston HS strongly values the diversity of our community. We need 800+ seats to keep our students in an environment that meets the educational, socio-emotional & spirit of Clarkston. We do not want to be an all-newcomer ELL school, we need to be able to offer AP courses, and thrive in a diverse community	
							Approximately 4 years ago Tucker was rebuilt and capacity was not taken into consideration, then 100 students from Stone Mountain are transferred	Additional information about possible reimbursement from state on constructing of a new school	
								How will the transferring of students from Stone Mountain HS to Stone Mountain HS & Redan HS be determined?	

REGION 4										
OPTION 1		OPTION 2-A		OPTION	12-В		OTHER			
PROS	CONS	PROS	CONS	PROS	CONS	PROS	CONS			
Relieve	No benefit to	Additional seats to	No benefit to	Improvements more	Political	Cost				
overcrowding	Region 4	all	Region 4	widespread	nightmare	savings	Death of a superintendent			
		No	Lots of construction	Region 4 magnet program numbers		ES will				
	Quick fix	redistricting/limited	all over the district	increase		benefit	Hot MessIII			
	Too much \$	Cost effective	Students leaving home schools/redistricting	Same as 2-A		Cost effective	Too much redistricting			
	No benefit to south end				In need of a centrally located magnet					
	schools	Additions only		Cost effective	program		Closing community schools			
	Too many facilities are neglected						Too much disruption (district- wide)			
	Concentration on north DeKalb schools									

REGION 5									
OPTION 1		OPTION 2-A		OPTION 2-B		OPTION 3		OTHER	
PROS	CONS	PROS	CONS	PROS	CONS	PROS	CONS		
Addresses CKHS overcrowding	Doesn't address Regions 3, 4, & 5	Spend less \$ (- 30 million)	No new schools	Moves magnet students to SWD HS	Moves magnet students from Chamblee	Addresses whole district	Master scheduling nightmare		
Less movement	Leaves unused building space	Opens seats	Doesn't address Regions 4 or 5	Balance magnet enrollment with one feeder to feeder	No new schools	Less \$ in new construction	Won't last		
New HS/MS	Integrity of redistricting	Less movement	Distance concerns for MLK to Lithonia	Provide relief	Relocate magnet programs	Cost effective	No relief		
Relief for Sequoyah/Cross Keys	Over budget	Lowest redistricting cost	ES needs				Political fight		
Political happiness	Feeder pattern	No new schools Partial relief for Regions 1, 2, & 3	Still 20 over capacity						

# Round 3 Public Meetings:

• To be held August 23, 2016 at Clarkston High School and August 25, 2016 at Cross Keys High School.
