**PLAN**

Review the Goal Area, Performance Objective, Initiative(s), Performance Measures, and Action Steps that you are working on for this particular area. What have you completed? What can you celebrate?

- Continued support structure to ensure schools are trained to provide parents access to Campus Portal.
- Conducted parent workshops focusing on topics such as Campus Portal, student portal (Launchpad) and 21st Century Teaching and Learning.

**DO**

Describe the work of your team in achieving your Performance Objectives. Specifically address your Initiatives and Action Steps.

- Continuing the process of cleansing the data converted from the previous system.
- Implementing additional Campus Portal functionality for parents and students such as transportation, student assignment, and messaging features.
- Developing and implementing a Tech Café program schedule that will focus on providing parent-focused Cybersafety, Social Media, and VERGE Blended Learning Tools.

**CHECK**

Are you getting the results needed to reach the Performance Targets? How are you monitoring and measuring to ensure results?

- Our current progress of 42,356 shows us missing our target at approximately 7,600 parent accounts.

**ACT**

What are the challenges or obstacles you are facing or anticipating? What needs to change and/or improve to reach your Performance Targets? How will these changes lead to progress?

- **Challenges that we are currently facing include:**
  - We need a district-level plan that markets Campus Portal account access at the school level.

- **This plan will lead to progress because:**
  - Parental involvement utilizing a tool as simple as the Campus Portal equates to Stakeholder Engagement.
  - Schools will continue communicating the benefits of using the Campus Portal to their new and existing parent community.
  - Stakeholders will increase participation in the Get Connected campaign which includes utilizing all digital resources to stay abreast of district and local school news.
