

Doraville United Elementary Redistricting Round 2 Community Input Survey

Recorded Date	Which school community do you represent?	Pros for Option 1 Map	Cons for Option 1 Map	Pros for Option 2 Map	Cons for Option 2 Map	Which focus/option do you feel best serves students in the area?
10/16/2019 8:52	Other					
10/16/2019 15:23	Montgomery ES	Only 6 portable classrooms left	None	None	Nothing really changes regarding the overcrowding	1
10/16/2019 16:06	Montgomery ES	relieves overcrowded school	This would move my house from montgomery to Doraville united district, while the rest of the street that i live along (Keswick Drive) is not moving. This would be very unfortunate for my children to not go to school with their neighbors, also there is no street access to the rest of the Doraville district from our house.	relieves overcrowding, keeps my street intact with our neighbors along Keswick Drive. My children would be going to school with the other children on our street. The School bus would come by our house and we live closer to the school that we are districted for.	There is still some overcrowding.	Option 2
10/16/2019 16:16	Ashford Park ES		This cuts off our community from ashford park elementary, which historically has been included with the surrounding areas that remain in that district and redistricting would require the crossing of several key dangerous roads (Peachtree industrial, clairmont, etc) for my child to get to school, further creating an unsafe travel environment.		This option also eliminates my neighborhood from ashford park elementary, which has historically been included in this district with the other districts that still remain in this area and would create an unsafe environment for travel to school as my child would have to cross several dangerous roads (Peachtree industrial, clairmont, Buford, etc).	Frankly neither
10/16/2019 16:25	Ashford Park ES	Option 1 gets rid of more portable trailers somehow.	Ashford Park is STILL the most over capacity out of all of the schools- and it won't relieve much of this overcrowding. Plus, moving those students from APS to the new school means they now have to travel much longer and cross busy roads to get there. They can currently walk the 1 mile to Ashford Park in less time than they could take the bus.	There is some relief for the Dunwoody cluster as well as Cross Keys.	Ashford Park is STILL the most over capacity out of all of the schools- and it won't relieve much of this overcrowding. Plus, moving those students from APS to the new school means they now have to travel much longer and cross busy roads to get there. They can currently walk the 1 mile to Ashford Park in less time than they could take the bus.	Neither
10/16/2019 20:38	Other	Reduces amount of students in portables by taking all schools, with exception to APES closer to 100% capacity. Thank Option 2	Hightower ES isn't shown on the map but it is closer to DUES than APES. And only bc of some magic lines drawn on a map that send HES to DHS, it's not being considered for relief. I think it is criminal to HES. You know that HES needs relief. You know it. And if there's a new school thisclose to it and they don't get relief, when will they?	This gives Hightower relief by shifting this redistricting to the north. This will "fix" the issues north of the I-85 line in DCSD. Hightower is close to DUES and is massively overcrowded. An imaginary line on a map has it in another cluster but regardless of cluster, it needs relief and DUES is the right fit, distance-wise.	It gives little relief for Montgomery and Ashford Park. Although this opens the door for the next round of new schools.	Option 2: It relieves 10 schools instead of 9, with Hightower ES being as close to a new school as it's going to get for a long time, thus eliminating an issue down the road of moving kids, again.
10/16/2019 20:44	Montgomery ES		Too many reassignments and siblings and neighbors who carpool and help each other separated.	Itâ€™s a better division, but still divisive to the MES community.	It still divides neighbors and siblings.	Ideally not redistricting at all. If not possible, keep everyone up to Peachtree Blvd at Montgomery.
10/16/2019 20:56	Montgomery ES	Provides more overcrowding relief for Montgomery			Only 20 kids will leave Montgomery	Relieving overcrowding at MES
10/16/2019 21:00	Montgomery ES	Relieves overcrowding at Montgomery slightly and all the other area schools.	It doesn't relieve too much overcrowding at Montgomery and leaves open seats at Montclair	none	Does not help overcrowding at Montgomery and Ashford Park. Very high Tax paying areas are not getting adequate schools. Parents deserve better, they work hard and pay a lot in state/property taxes, we deserve better schools	Option 1
10/16/2019 21:06	Montgomery ES	None	Splits Sexton Woods/Keswick village/Gainsborough Disruptive student w/o relieving overcrowding	Relives overcrowding for CR, DRES & HIGHTOWER Less disruptive splits but doesnt use natural borders	Don't split Sexton Woods/Keswick village...20 kids would have longer travel and more need to cross p'tree Blvd.	2
10/16/2019 21:15	Other			This plan helps the significantly overcrowded Dunwoody cluster and offers students from Hightower an option to decrease overcrowding with a geographically close school. This would also help alleviate traffic around the Hightower area.		option 2

Doraville United Elementary Redistricting Round 2 Community Input Survey

Recorded Date	Which school community do you represent?	Pros for Option 1 Map	Cons for Option 1 Map	Pros for Option 2 Map	Cons for Option 2 Map	Which focus/option do you feel best serves students in the area?
10/16/2019 21:21	Montgomery ES	None	The option is very disruptive and shuffles kids without relieving overcrowding It splits multiple neighborhoods which should remain together. It subjects a large number of kids to multiple redistricting efforts in their K-5 career It does not relieve overcrowding at Hightower ES	Compared to the first option, it's less disruptive overall It relieves not only Carey Reynolds and Dresden but also provides significant relief to Hightower It splits less neighborhoods than option 1	Major concerns for section D: - splits Sexton woods (disrupts intact neighborhood) - farther geographically from the school - concern over traffic safety: need to cross Peachtree-industrial - disrupts school feeder alignment (students will go from DUES back to Chamblee middle and high school)	Neither
10/16/2019 21:25	Montgomery ES		Major concerns for section D: - splits Sexton woods (disrupts intact neighborhood) - farther geographically from the school - concern over traffic safety: need to cross Peachtree-industrial - disrupts school feeder alignment (students will go from DUES back to Chamblee middle and high school)		Major concerns for section D: - splits Sexton woods (disrupts intact neighborhood) - farther geographically from the school - concern over traffic safety: need to cross Peachtree-industrial - disrupts school feeder alignment (students will go from DUES back to Chamblee middle and high school)	Neither as both negatively impact all section D students without adding any material value
10/16/2019 21:26	Ashford Park ES		Ashford Park community is split to remove students from there friends and neighbors just to free 18 spaces, which is not adequate to help with projected capacity. Students would have to travel longer distance than staying at APS and switch again for middle and high school.		Ashford Park community is split to remove students from there friends and neighbors just to free 18 spaces, which is not adequate to help with projected capacity. Students would have to travel longer distance than staying at APS and switch again for middle and high school.	A few minor changes with a bit longer term vision will be a better option.
10/16/2019 21:32	Montgomery ES	None	Our neighborhood is being annexed into Huntley hills and we live here to attend Montgomery!	Our neighborhood stays at Montgomery!	Other neighborhoods are affected	Neighborhood. Kids need consistency
10/16/2019 21:34	Montgomery ES	None	Breaking up the Sexton Woods neighborhood into 2 Schools for such a small number of students isn't optimal for those students, nor does it provide any overwhelming benefit for the school population.		Same as map 1. Breaking up Sexton woods for the sake of such a small number of students is more detrimental to those students than a benefit to the overcrowding issue.	ensuring neighborhoods are not broken up into different districts
10/16/2019 21:38	Ashford Park ES	My neighborhood remains in Ashford Park ES		My neighborhood remains at Ashford Park ES		
10/16/2019 21:42	Montgomery ES	Section D covers new apartment developments on Peachtree Blvd, which have not yet opened and would therefore be less disruptive to families.	Insufficient reduction in number of Ashford park students.	Cleaner geographic boundaries than Option 1	Ashford Park insufficiently reduced with regards to utilization.	Option 2
10/16/2019 21:44	Montgomery ES	More relief for Montgomery Elementary which is severely overcrowded. I would just move the entire Sexton Woods neighborhood (keep that hood intact) to the new school. The footprint for Montgomery is too big. I understand the need to be a united front, but let's move large neighborhood clusters to balance vs constantly revisiting boundary lines.	Not enough planning for the future. MES is severely over crowded. Move all Gainesborough and Chamblee-Dunwoody North corridor neighborhoods to HH. Move All of Sexton Woods to Harts Mill to the new school to keep those areas intact. Let's get balanced for the next 3-5 years!	More relief for Montgomery Elementary which is severely overcrowded. I would just move the entire Sexton Woods neighborhood (keep that hood intact) to the new school. The footprint for Montgomery is too big. I understand the need to be a united front, but let's move large neighborhood clusters to balance vs constantly revisiting boundary lines.	Not enough planning for the future. MES is severely over crowded. Move all Gainesborough and Chamblee-Dunwoody North corridor neighborhoods to HH. Move All of Sexton Woods to Harts Mill to the new school to keep those areas intact. Let's get balanced for the next 3-5 years!	Option 1, but with more long term planning (migrate Sexton Woods and Chamblee-Dun North corridor on both sides.
10/16/2019 21:49	Ashford Park ES	Relieves crowding at Cary Reynolds and Dresden ES	Neighborhoods divided, kids crossing Peachtree / Clairmont intersections	Relieves crowding at 2 of the schools	Cross major intersections required	2
10/16/2019 22:01	Ashford Park ES	I stay in current school district. Ashford Park has a good reputation and is in convenient location.	Enrollment is above capacity	Same as Option 1	Same as Option 1	No strong opinion outside Ashford Park
10/16/2019 22:32	Other	Helps Carey Reynolds and Dresden.		Helps Carey Reynolds, Dresden, and Hightower with overcrowding.		Option 2
10/16/2019 22:48	Montgomery ES	None that effect me or my community.	Doesn't address the #1 and #2 over-crowded schools in Ashford Park and Montgomery. Based on enrollment projections for 2021 that don't follow 4-year trend. Breaks up intact neighborhoods in Keswick. Affects communities recently divided by previous redistricting. Inefficient to operations as requires redistricting again next year.	None that effect my community.	Hightower greatly affected but wasn't represented at meeting. Based on enrollment projections for 2021 that don't follow 4-year trend. Breaks up intact neighborhoods in Keswick. Affects communities recently divided by previous redistricting. Inefficient to operations as requires redistricting again next year.	Neither address most students well.

Doraville United Elementary Redistricting Round 2 Community Input Survey

Recorded Date	Which school community do you represent?	Pros for Option 1 Map	Cons for Option 1 Map	Pros for Option 2 Map	Cons for Option 2 Map	Which focus/option do you feel best serves students in the area?
10/16/2019 22:52	Huntley Hills ES	Relieves overcrowding at Cary Reynolds & Dresden. Reunites an apt. complex Helps with overcrowding at Huntley Hills. But worried about moving just those kids will actually hurt them educationally than help, the majority you are moving are Hispanic & Benagli to an ESOL pop. our better diversity is beginning to help those students improve.	Doesn't do enough to relieve overcrowding at Ashford Park or Montgomery, what's the point of breaking up a neighborhood to move 47 kids from Montgomery and 18 from APES when it doesn't actually relieve overcrowding from those schools. If you are going to do it, move a larger group of homes or don't do it at all.	Relieves overcrowding at Dresden & Cary Reynolds, plus helps Hightower. Please keep the E2 in the final version, I know it is only 2 kids now, but there is planned development over there and it will help with future overcrowding at HHES.	Still leaves 3 schools overcrowded. Again, what's the point of breaking up a neighborhood (D&F) to move 20 kids from Montgomery and 18 from APES when it doesn't actually relieve overcrowding from those schools. If you are going to do it, move a larger group of homes or don't do it at all.	go back to the drawing board outside of what you have done for Cary Reynolds and Dresden the clusters are still overcrowded. I am also concerned about moving Title 1 ESOL students all to the same school and not focusing on the success of those students and the support that the new school would need based on the demographics of the population you are moving to it.
10/16/2019 22:52	Cary Reynolds ES					Option 1
10/16/2019 23:17	Ashford Park ES	Keeping the neighborhood's that children live in intact with the school they will attend		Keeping children at their neighborhood school that they live in		
10/16/2019 23:43	Montgomery ES		Section D is less than a mile from Huntley hills. Having to drive over peachtree and buford highway to reach doraville United is not reasonable. The neighborhood would be severed from existing connected neighborhoods and aligned with neighborhoods separated by a large commercial		This option does not provide any alternative for section D. The same sentiments are shared. This does not properly align the children with nearby families.	Neither
10/17/2019 6:52	Dresden ES	-Se eliminaria mas aulas portatiles de escuelas sobrepobladas, que en mi caso afecta a niÑ±os con necesidad especial . -Se aliviaria la sobrepoblacion de Dresden y CaryReynolds -Proximidad geografica con ecuelas sobrepobladas	-No se proveera transporte a las areas circundantes.	-Mas asientos disponibles -Mas escuelas beneficiadas	-Menos aulas portatiles removidas -No se aliviaria la sobrepoblacion en Dresden y Cary Reynolds -El area circundante quedaria mas retirada de las escuelas.	La opcion numero 1 que se enfoca en Dresden y Cary Reynolds
10/17/2019 7:38	Dresden ES	Se elimina mas trailas Mas cerca al area Habria menos alumnos en dresden	No darian bus Seguridad al caminar	Habra mas cupo para mas niÑ±os. Tomaran niÑ±os de dresden	Pocos niÑ±os seran tomados de dresden Quitaran pocas trailas	Option numero 1
10/17/2019 8:42	Ashford Park ES		"E" would lose geographic proximity to it's elementary school. "E" is approximately 1-1.4 miles away from APES and roughly 2-2.4 miles from DU. APES is only a single 4-way stop from "E", DU is across 2 4-lane major roads and a 4-way stop. Instructional Capacity of APES unchanged as area E has many German Immersion students (8 or more by my count)		"F" loses Geographic Proximity to APES 1mi vs. 2.4mi. APES gains no Instructional Capacity as >8 of 18 students in "F" are in German Immersion and would not migrate to DU. Traffic/Safety would necessitate left turn onto 4 lane Clairmont Road for "F" to attend DU. Breaks Intact Neighborhood of Ashford Park, and German Immersion Community.	Neither
10/17/2019 9:15	Other		Not as comprehensive as option 2. Does not address overcrowding at Hightower.	More comprehensive. Addresses extreme overcrowding at Hightower.		Option 2
10/17/2019 11:56	Montgomery ES	Creates a "neighborhood school" for Doraville United ES; alleviates overcrowdedness in other schools.	My neighborhood, Sexton Woods, is now divided. Most of the neighborhood remains zoned for Montgomery, except for area 'D'. I live on Sexton Woods Drive, which means that my children will have to cross Peachtree Industrial to go to a different school than the children living across our backyard fence.	Creates a "neighborhood school" for Doraville United ES; alleviates overcrowdedness in other schools.	Option 2 does not optimize Montgomery enough to justify breaking the Sexton Woods neighborhood and sending the students in Area D to another school across Peachtree Industrial.	A modified option 1. Peachtree should serve as the line, and the small areas totaling 47 students should remain in Montgomery. Allowing these students to remain in Montgomery will result in a 2021 solution that falls somewhere between Options 1 and 2.
10/17/2019 12:50	Montgomery ES		The Sexton Woods and Keswick neighborhoods are really one cohesive neighborhood. This Option breaks up that cohesive neighborhood and only offers minimal relief to the over-enrollment at Montgomery.		The Sexton Woods and Keswick neighborhoods are really one cohesive neighborhood. This Option breaks up that cohesive neighborhood and only offers minimal relief to the over-enrollment at Montgomery.	Neither. The only schools/students that benefit are Cary and Dresden. Otherwise the options just rip friends apart for minimal benefit at present schools.
10/17/2019 13:37	Woodward ES	Relieves each overcrowded school	Might put strain to bus students from Montgomery & Huntely Hills all the way to Doraville United	Geographically makes a lot of sense to just slice out all the students close by and it still addresses the severe overcrowding at Dresden Elm	Doesn't do a lot to relieve Huntley Hills, could burden hightower	Option 1

Doraville United Elementary Redistricting Round 2 Community Input Survey

Recorded Date	Which school community do you represent?	Pros for Option 1 Map	Cons for Option 1 Map	Pros for Option 2 Map	Cons for Option 2 Map	Which focus/option do you feel best serves students in the area?
10/17/2019 13:50	Montgomery ES		Students in Section A will drive past Cary Reynolds on their way to DUES. This was not OK for CKHS students passing CCHS; why is this OK for elementary kids? Better to give Section A to Cary Reynolds and move the southern part of CRES to DUES. Should show revised demographics too.		DUES kids will attend 3 different MS. Bad idea. CKHS/CCHS keep 13 more trailers with this option than Option 1. How is that best? Why is 2021 the last forecast date? You should look out thru 2025 at least so you don't have to put kids thru this again. Using Sexton Woods Dr. to divide MES/HHES cuts that neighborhood in half. Bad idea.	I think it's rotten that these decisions are only being made with 2021 enrollment figures. What happens after that? Your own forecast thru 2025 shows Montgomery enrollment increasing another 150ish kids. Won't you just have to redistrict again in just 5 years?
10/17/2019 15:42	Montgomery ES	Provides the most overcrowding relief for all schools Uses mostly large roads as dividing lines Reduces the largest number of portables	Takes a small number of kids in area D & E that spills up neighborhoods Doesn't provide enough over crowding relief	None	Horrible gerrymandering Hightower kids should stay in Dunwoody cluster Doesn't use large roads as dividing lines Doesn't relieve enough of the over crowding Leaves too many portables, they should be short term Doesn't utilize enough of the empty seats Larger scale redistricting should be considered to shift more kids south to open seats	1
10/17/2019 16:30	Ashford Park ES		I recently purchased a home at Quinn Place (zone E) that is currently zoned for Ashford Park ES. The reason we purchased this location is because of the school. We believe this rezoning will significantly impact our home value and our decision to move to this location. It also forces us to a school further away from our home which is not realistic.		I recently purchased a home at Quinn Place (zone F) that is currently zoned for Ashford Park ES. The reason we purchased this location is because of the school. We believe this rezoning will significantly impact our home value and our decision to move to this location. It also forces us to a school further away from our home which is not realistic.	Neither - we are zoned in E for Option 1 or F for Option 2. We would like to have this challenged. Is there any way to have this rezoned back to Ashford Park ES? This rezoning would also be further from our home location. We are currently 1.2 miles from Ashford Park ES which does not make any sense to rezone to a further school.
10/17/2019 16:58	Montgomery ES	Partial reduction in trailers	Splits up a cohesive community, isolates small pockets within a natural community, creates longer commutes and additional traffic on Peachtree and Chamblee Dunwoody	Keeps more of the Montgomery community together	Splits up the Montgomery community by isolating a small group of students in Zone D. As this redistricting those in this zone would have a highly disruptive impact on students, and minimal impact on classroom sizes, Option 2 cannot be justified.	As both split up natural communities and do not eliminate over crowding, I cannot support either option.
10/17/2019 17:03	Ashford Park ES		Disrupting 18 kids in AP neighborhd (E), doesn't touch overcrowd issue/eliminate even 1 class trailer. E less than 1 mile from AP ES/kids can walk there, but would have to be driven or take long, \$, very early morn bus ride to Doraville ES out of area. That's hardship on kids & parents. Goes against primary crit 1 & sec crit 1, 5, 6. It's cruel.		Same cons for Opt 1 (replace E for F) & add this to Opt 1-- It's cruel and inconvenient for 18 kids and parents and frankly insulting! There are families who live a step from John Lewis in Brookhaven who get to stay at AP ES, but my kid is closer to AP ES & has to literally commute to another city of Doraville! 18 AP kids are being discriminated.	Neither helps the AS overcrowding.
10/17/2019 19:07	Montgomery ES	Relieves MES a little	Cuts off families that have been attending MES and purchased homes in the Gainsborough West sun-division to attend MES. Will impact property values.	Keep MES district intact	Requires more trailers. MES needs additional space. Suggest moving gymnasium to lower field and utilizing space to extend the back of school or add a wing perpendicular to current building to form a U.	Option 2
10/17/2019 19:13	Ashford Park ES	None	It isolates the F section and separates it from the community it is apart of. The drive to get to Doraville ES because a huge pain point, and is very unsafe in comparison to the quick and easy right turn for us to get to APES carpool. Also, more relief could come from south APES district.	None	It does not alleviate enough from Ashford park, separates the F section from the community it identifies with, and creates unnecessary headache/safety challenges in getting to school in the mornings/afternoons. More relief for Ashford park could come from the south of the district. Doraville ES should incorporate dunwoody, not Ashford/montgomery.	Neither

Doraville United Elementary Redistricting Round 2 Community Input Survey

Recorded Date	Which school community do you represent?	Pros for Option 1 Map	Cons for Option 1 Map	Pros for Option 2 Map	Cons for Option 2 Map	Which focus/option do you feel best serves students in the area?
10/17/2019 19:19	Ashford Park ES	None	There are only 18 kids being asked to move from APES. Of those 18, 10 are German immersion students that won't move anyways. The area in F is a part of the Ashford Park neighborhood, and is not connected to the Doraville area bc of an airport, retail, fast food, and other commercial land. You should pull from Dunwoody.	None	To relieve the portable units at APES, why not pull kids from south of that district to the under capacity schools down there. Pull students for Doraville from the next corridor over. DONT SEPERATE US FROM OUR NEIGHBORHOOD!!	None
10/18/2019 6:57	Cary Reynolds ES	Less trailer classrooms	None	Less trailer classrooms	Far for some students	1
10/18/2019 10:22	Ashford Park ES	Relieves overcrowding for Dresden ES.	Our kids go to Ashford Park and are in 1st and 4th grades. They are both in German Immersion. However, it makes zero sense to cut out 18 students out of their own community when Clairwood Terrace, Dyer Circle, and Ham Dr are ALL in Ashford Park proper. Completely unacceptable.		Same to us as Option One. Our kids go to Ashford Park and are in 1st and 4th grades. They are both in German Immersion. However, it makes zero sense to cut out 18 students out of their own community when Clairwood Terrace, Dyer Circle, and Ham Dr are ALL in Ashford Park proper. Completely unacceptable.	Neither
10/18/2019 13:25	Huntley Hills ES	None	My son is in the Montessori Program at HHES. He should not be forced to move to a new school. If you cut off this side of Peachtree Industrial you are doing a disservice to the diversity of HHES.	This Keeps HHES most intact and preserves its cultural diversity which is what makes HHES great! Please consider	I hate to see any kids forced to move schools that they love. There has to be a better way	Option 2
10/18/2019 13:37	Montgomery ES	It moves the most kids off of Montgomery to give a little relief to a growing population. It makes a clear line of Chamblee Dunwoody as the school line.	It splits the neighborhood of Sexton Woods. 11 kids are in the streets of Teal, Sexton Woods and Vanet, which are all 1 neighborhood and across the street from kids going to Montgomery. It pulls an inconsequential amount of children off of Ashford Park. Areas south of Dresden should be considered to go to John Lewis to help their issues.	none.	It pulls 11 kids from the neighborhood of Sexton Woods. The streets of Teal, Sexton Woods and Vanet are all part of 1 walkable neighborhood. The removal of 20 kids from Montgomery and Ashford Park is inconsequential it would be better to just leave it intact versus disrupt those children. It pulls in a Dunwoody cluster school which makes no sense	1
10/18/2019 14:53	Huntley Hills ES					Option 1
10/18/2019 15:12	Huntley Hills ES	Less congested	No relief for Ashford park	Less disruptive	None for our school	2
10/18/2019 15:40	Huntley Hills ES	relieves severe overcrowding at Cary Reynolds and Dresden; reunites an apartment complex that was split between Montclair and Dresden.	splits Sexton Woods to a different elementary school and out of their Middle and High School cluster (they will return to the Chamblee Cluster for Middle and High); adding some Sexton Woods students to Doraville United does not truly relieve overcrowding issues at Montgomery.	relieves severe overcrowding at Cary Reynolds and Dresden; reunites an apartment complex that was split between Montclair and Dresden.	splits Sexton Woods to a different elementary school and out of their Middle and High School cluster (they will return to the Chamblee Cluster for Middle and High); adding some Sexton Woods students to Doraville United does not truly relieve overcrowding issues at Montgomery.	Option 2
10/18/2019 15:42	Huntley Hills ES	Kids who live on that side of Peach Tree Industrial will be closer to school.	removing kids from a school that they know.	fewer kids removed.		option 1
10/18/2019 19:46	Other		Misses the mark on geographic enrollment area changes that are present in option 2	Makes sense from a geography standpoint and helps alleviate an extremely overcrowded Dunwoody cluster.		Option 2
10/19/2019 10:33	Montgomery ES	None	Parents have purchased the houses in Montgomery ES area so their children could attend this school and not Huntley Hills. This option is doing the opposite, which is making us take our children to the school NOT of our choice!!	This option is leaving the Montgomery ES children in the school of their parents choice and not making them go to Huntley Hills.	None	Option 2
10/19/2019 23:57	Montgomery ES	Natural barriers-pro students from Montgomery will not be rezoned across Chamblee- Dunwoody Rd to HuntleyHills. Pro that Dunwoody Forest (Colt/Remington/Winchester), Nancy Creek area/Murphy candler (also Gainsborough West), Sexton woods(most),west of Chamblee Dunwoody Road/Harts Mill stay together(original Nancy Creek area). Map better shape	Sexton woods split and too many Montgomery kids rezoned out of Montgomery. I Don't believe splitting Gainsborough East and West is a con- the only thing these 2 areas share is a name(anyone can join the pool, lots of Huntley hill people go there!). I can't even define what Gainsborough west area actually is- it's more considered Murphy candler.	Natural barriers-pro students from Montgomery will not be rezoned across Chamblee- Dunwoody Rd to HuntleyHills. Pro that Dunwoody Forest (Colt/Remington/Winchester), Nancy Creek area/Murphy candler (also Gainsborough West), Sexton Woods (Most of), and west of Chamblee Dunwoody Road/Harts Mill stay together(original Nancy Creek area).	Rezones Montgomery kids out of Montgomery -keep us together unless you have a better long term plan (like opening Nancy creek)	Neither- keep Montgomery together.
10/20/2019 3:25	Montgomery ES		Moving a small group of kids from MES or APES does not fix overcrowding. Either a new school needs to be built or Nancy Creek ES needs to reopen. However Kitteridge needs to stay intact in its own building. Is there space to build a new wing to both schools to help with overcrowding?		Same cons as one.	Option 2

Doraville United Elementary Redistricting Round 2 Community Input Survey

Recorded Date	Which school community do you represent?	Pros for Option 1 Map	Cons for Option 1 Map	Pros for Option 2 Map	Cons for Option 2 Map	Which focus/option do you feel best serves students in the area?
10/20/2019 8:29	Ashford Park ES	C area is in close proximity to DUES and relieves HHES.	D/E violate geographic proximity, traffic/safety, and neighborhood intactness. E is 0.5 mile to APES but 2.5 mile to DUES. E is a part of the intact ashford park community with natural borders. Our families are a part of the APES community - church, playdates, swim team, intramural. Our kids can currently walk, run, bike safely to school.	Incorporating the overcrowding at Hightower is *critical*. It just makes sense because of geographic proximity. This has the support of the community and board members. In fact, more students (200) from Hightower should be sent to DUES to fix overcrowding permanently and keep more of the student community together.	D/F still violate geographic proximity, traffic/safety, and neighborhood intactness. We are enmeshed in our APES community and taking 18 students from APES (half won't leave because they are in german immersion) from their community to DUES where they know noone, can't walk to new peers homes, playdates, have no common community, etc makes NO SENSE	NEITHER - start again. Moving 18 students from D&E/F areas does NOTHING to alleviate overcrowding at those schools but DOES isolate a handful of kids from their community. Go back to the drawing board and look at Hightower elementary or Embry Hill. Cary Reynolds should be shut down. Take CR students to DUES and build a new school for Kittredge and use old kittredge for MES overcrowding.
10/20/2019 9:34	Ashford Park ES	Gives needed relief to Dresden and CR.	DUES district is too long and stretched out, not making for a cohesive neighborhood school community.		The DUES district here is simply a mess.	Neither! Area E on map 1 and Area F on map 2 need to remain in the Ashford Park school. Not only does it make geographical sense, but those few students that are proposed to be moved will not relieve the overcrowding issue at all. Thing neighborhood as been traditionally Ashford Park for years, and keeping the neighborhood cohesive is paramount.
10/20/2019 9:50	Ashford Park ES		Concerned about scenario E: 1) safety for Ashford park students having to go to a school further away from them and crossing the street to get on the bus 2) students being segmented away from their neighborhood and friends to attend a school that is in a different city than where they live		Concerned about scenario E: 1) safety for Ashford park students having to go to a school further away from them and crossing the street to get on the bus 2) students being segmented away from their neighborhood and friends to attend a school that is in a different city than where they live	To keep the students who live in Ashford Park at Ashford Park elementary school
10/20/2019 9:52	Ashford Park ES	Na	Unfair to break a few students from apes community, especially from residential streets	Na	Unfair to remove a few students from an intact community, make them travel through highways to get to school (when they can walk safely now to apes)	Neither
10/20/2019 14:33	Huntley Hills ES		Doesn't help with the main challenge of overcrowding at MES and APES. It also splits up communities.	It is less disruptive for the majority. It is less disruptive for HES	It also doesn't solve for the overcrowding issue	2
10/20/2019 14:41	Other		Option 1 provides no relief to the Dunwoody Elementary School cluster, which is even more overcrowded than the Cross Keys/Chamblee cluster. Dunwoody's cluster needs relief, and Doraville United sits just two miles from the exceedingly overcrowded Hightower Elementary.	This gives Hightower Elementary (and thus the entire Dunwoody Elementary School cluster) much needed relief.		Option 2, or any option in which the Dunwoody Elementary School cluster gets as much relief as possible. Dunwoody cluster students have nowhere to sit, and nowhere to move to the North, as it's the northernmost region in DCSD. Dunwoody cluster needs as much relief as possible.
10/20/2019 17:33	Ashford Park ES	Good relief IF you DO NOT TOUCH E. That is a SMALL group of students that you will rip out of a neighborhood, community and friends they love.	Taking small groups of students - D, E,F and isolating them from their communities, friends, churches, schools, play groups. Isolating such a small group when it doesn't really affect the overcrowding at all. Plus creating traffic and commuting challenges by taking small groups to a school far away. Doesn't make any sense to tear apart a small %.	Keeps Gainsborough together.	Doesn't make any sense to touch D and F - ripping apart a small group of kids and isolating them from their neighborhood and friends and community. Picking 18 kids from AP and moving them far away is not promoting community. It is creating a disaster for these kids and tearing them apart - they are part of AP and should go to school there. Traffic!	Keep neighborhoods together! Community!!! Don't isolate!
10/20/2019 19:29	Other			helps overcrowding at High Tower	High Tower is still over crowded	Need to build a new Doraville High school
10/20/2019 20:16	Ashford Park ES		I moved to this neighborhood due to the proximity to Ashford Park ES. To change that and send kids further away from their friends 2 streets over makes no sense and is a slap in the face to the whole reason we picked this beautiful neighborhood.		I moved to this neighborhood due to the proximity to Ashford Park ES. To change that and send kids further away from their friends 2 streets over makes no sense and is a slap in the face to the whole reason we picked this beautiful neighborhood.	No change
10/20/2019 21:41	Ashford Park ES	None	I bought this house in 2018 because of Ashford Park. The median income and median home value for Ashford is twice the amount than United ES. We are literally in the backyard and walking distance of Ashford Park ES. It doesn't seem fair to punish our kids and house value. It seems more fair to move only the East of Clairmont side.	None	Same as option 1	Neither. Section E of option 1 should remain Ashford Park.

Doraville United Elementary Redistricting Round 2 Community Input Survey

Recorded Date	Which school community do you represent?	Pros for Option 1 Map	Cons for Option 1 Map	Pros for Option 2 Map	Cons for Option 2 Map	Which focus/option do you feel best serves students in the area?
10/20/2019 21:47	Ashford Park ES		We are currently building a home in section E of the Option 1 map and one of our main reasons was the proximity to Ashford Park ES. It would seem that displacing 18 students from Ashford Park ES does little to help the overcrowding in the big picture while placing a large burden on the families and homeowners in the area to make such a small impact		We are currently building a home in section F of the Option 2 map and one of our main reasons was the proximity to Ashford Park ES. It would seem that displacing 18 students from Ashford Park ES does little to help the overcrowding in the big picture while placing a large burden on the families and homeowners in the area to make such a small impact	Neither, taking 18 students from Ashford Park ES has little impact on the overcrowding while putting a much larger burden on the families and homeowners in the area.
10/20/2019 21:55	Ashford Park ES	Addresses overcrowding in all but 2 schools	Splitting ashford Park neighborhood	Addresses all but Montgomery and Ashford Park	Splitting up ashford Park neighborhood plus leaving overcrowding to Montgomery and Ashford with large growth in future	Neither
10/20/2019 21:56	Ashford Park ES		Does not keep Ashford Park neighborhood intact, which has its own school within walking distance for these students.		Does not keep Ashford Park neighborhood students intact. AP has its own school within walking distance for the students.	
10/20/2019 22:11	Ashford Park ES	Based on geography, traffic flow, and the significant student capacity changes it will provide, redistricting Cary Reynolds & Dresden Elementary students makes complete sense.	Redistricting APES is illogical: Kids would have to cross at least 3 major intersections to get to new school (can currently walk there safely); with the German Immersion program, its actually only 10 kids which doesn't make a dent in overcrowding; its impossible and massively unsafe for school bus to make a left out of Dyer/Ham/Clairwood	Redistricting Cary Reynolds, Dresden ES, Hightower ES, and Montclair makes sense and will actually positively impact overcrowding.	Please leave APES alone: Kids would have to cross at least 3 major intersections to get to new school (can currently walk there safely); with GI program, its only 10 kids which doesn't make a dent in overcrowding; its impossible and massively unsafe for school bus to make a left out of Dyer/Ham/Clairwood; shouldn't separate a neighborhood!	Neither proposed option should be passed. Traffic congestion on main roads and vicinity to current/new proposed school really needs to be considered!
10/20/2019 22:24	Ashford Park ES		Safety concerns for commuting to school. Keep Ashford Park together and keep kids from having to cross a major intersection to reach school.		Keep Ashford park intact and keep kids from having to cross a major intersection to reach school.	Keep the same, no change
10/20/2019 22:28	Ashford Park ES		I request that all of the Ashford Park Neighborhood stay at Ashford Park Elementary school. The neighborhood school is why we purchased our home and we would like to see it stay that way.		I request that all of the Ashford park neighborhood stay at Ashford Park Elementary School. The neighborhood school is why we purchased our home and love the area.	Neither
10/20/2019 22:40	Ashford Park ES	Helps alleviate school overcrowding.	Removes neighborhood and natural boundary lines for districting. Breaks up current attendance for elementary kids forcing them to attend new school. Doesn't focus on other schools like John Lewis that is bigger and has more capacity. Doesn't expand current schools for future student enrollment and influx of people moving into districts	Helps alleviate overcrowding	Removes neighborhood and natural boundary lines for districting (APES) Breaks up current attendance for elementary kids forcing them to attend new school. Doesn't focus on other schools like John Lewis that is bigger and has more capacity. Doesn't expand current schools for future student enrollment and influx of people moving into districts	One that keeps Ashford Park intact as a neighborhood district
10/21/2019 3:05	Ashford Park ES		Moving 18 kids that live in Ashford Park		Moving 18 kids that live in Ashford Park	
10/21/2019 3:21	Ashford Park ES		This option removes a section of our neighborhood (Ashford Park) to redistrict to Doraville ES. Please consider keeping our neighborhood as a whole.		This option removes a section of our neighborhood (Ashford Park) to redistrict to Doraville ES. Please consider keeping our neighborhood as a whole.	Our school is obviously overcrowded, but removing students in the neighborhood where the school is located doesn't promote the school system's mission.
10/21/2019 7:57	Ashford Park ES		We want all the families of Ashford Park to stay together at Ashford Park elementary. Keeping them there will not affect enrollment and is crucial to our community!		Please keep all of Ashford Park together! We have a strong community and do not want to separate these streets, that are in Ashford Park.	community
10/21/2019 8:05	Ashford Park ES	Alleviating overcrowding at Cary Reynolds and Dresden	Breaking up the Ashford Park community by relocating a handful of kids. These families reside in Ashford Park and should stay in that district. Plus, it's much safer for them to get to APES than any other school, based on roads they'd have to traverse.	Alleviating overcrowding at Cary Reynolds and Dresden.	Breaking up the Ashford Park community by relocating a handful of kids. These families reside in Ashford Park and should stay in that district. Plus, it's much safer for them to get to APES than any other school, based on roads they'd have to traverse.	2

Doraville United Elementary Redistricting Round 2 Community Input Survey

Recorded Date	Which school community do you represent?	Pros for Option 1 Map	Cons for Option 1 Map	Pros for Option 2 Map	Cons for Option 2 Map	Which focus/option do you feel best serves students in the area?
10/21/2019 8:58	Ashford Park ES	None	By taking a small number of students from Ashford Park, the intactness of our neighborhood will be significantly damaged. Friends and siblings will not be able to stay together. The new school is significantly farther away. Additionally, only 18 children going from Ashford Park to Doraville United will not make a difference in school population.	None	By taking a small number of students from Ashford Park, the intactness of our neighborhood will be significantly damaged. Friends and siblings will not be able to stay together. The new school is significantly farther away. Additionally, only 18 children going from Ashford Park to Doraville United will not make a difference in school population.	Neither. Keep APES together.
10/21/2019 9:09	Ashford Park ES		Section E only moves 10 children out of AP since the other 8 are German immersion students. This doesn't have enough impact to significantly effect over crowding while disrupting the Ashford Park neighborhood area.	Less shift between Montgomery and Huntley Hills	Section E only moves 10 children out of AP since the other 8 are German immersion students. This doesn't have enough impact to significantly effect over crowding while disrupting the Ashford Park neighborhood area.	2 but remove the impact to the 10 students in AP
10/21/2019 9:11	Cary Reynolds ES	It keeps Northwoods and Oakcliff neighborhoods mainly in tact.	Most people in Doraville will continue to go to substandard schools while children from Chamblee will get a new state of the art facility.	More Doraville residents will get to attend this school.	Breaks up the Northwoods neighborhood (Fleetwood Hills)	Option 2
10/21/2019 9:24	Ashford Park ES	As far as my school is concerned there aren't any pros.	You are only moving 18 children. Of those 18 a known 12 are in the GI classroom at APS. This would mean your moving 6 kids. That would be ostracizing them from there community. We currently live a mile from APS. Yet you want to bus over 3.5 miles which would cause more traffic in an already busy area. You would affect the Property values.	Once again, there aren't any pros to this situation.	Cont. from Vinson map 1: property values would decrease. The county would then loose money. This neighborhood has been a part of the APS school since the infancy of APS. Now you only want 18 kids to move. 18 kids are not making or breaking a school. Actually 18 isn't a correct number 6 kids will definitely not make it break a school.	Neither, you should leave APS alone. Let's look at the fact that APS is serving kids that Back yards literally are on the John Lewis Property. But you want to move 18, make that 6 kids across the county.
10/21/2019 9:42	Ashford Park ES	Not Applicable	Unfair to split up an established neighborhood and close knit community. The kids have all been together from kindergarten and are part of the same clubs in the neighborhood. They get along well and would like to continue to stay in the same school. Impacted kids will have longer commute and have to cross highways.	Not Applicable	Unfair to split up an established neighborhood and close knit community. The kids have all been together from kindergarten and are part of the same clubs in the neighborhood. They get along well and would like to continue to stay in the same school. Impacted kids will have longer commute and have to cross highways.	For Ashford Park - Leaving it as is and not changing anything.
10/21/2019 10:30	Ashford Park ES	Offers relief to Cary Reynolds and Dresden as intended	Breaks up intact AP neighborhood with almost no reduction overcrowding at our school. Of the 18 students this would affect, 8 are in German - so only 10 would switch schools. This is extremely unfair to those 10 students and families who will have kids at different schools, cross major intersections and attend school with none of their neighbors	Reduced overcrowding at Cary Reynolds and Dresden as intended	Breaks up intact AP neighborhood with almost no reduction overcrowding at our school. Of the 18 students this would affect, 8 are in German - so only 10 would switch schools. This is extremely unfair to those 10 students and families who will have kids at different schools, cross major intersections and attend school with none of their neighbors	Option 2 - but without AP students. We need a much larger scale redistricting option to address overcrowding. An additional school between AP and MES that makes a true impact is what's truly needed
10/21/2019 10:37	Montgomery ES	Largely reducing the overall number of portable classrooms - an additional 13 will be removed overall.	Still does not fully address overcrowding at APE or MES, as well as others			Option 1
10/21/2019 10:49	Ashford Park ES		Would remove 18 students from their AP neighborhood school to cross major congested intersections/areas to attend new school for no real reason - 18 students will not reduce AP overcrowding. Use natural boundaries, keep neighborhoods intact.		Would remove 18 students from their AP neighborhood school to cross major congested intersections/areas to attend new school for no real reason - 18 students will not reduce AP overcrowding. Use natural boundaries, keep neighborhoods intact.	
10/21/2019 10:59	Ashford Park ES	Alleviate overcapacity school and chaos and congestion on neighborhood streets in the morning.	Removing 18 children from Ashford Park Elementary will not help alleviate the overcrowding at the school. That makes zero sense to take those children out of their neighborhood school when they actually LIVE in the AP neighborhood itself.	None	Why isn't Ashford Park elementary South of Dresden moved to John Lewis?	None
10/21/2019 11:01	Other	None	This group is named wrong and is misleading. More pressure is removed from Cary Reynolds through Option #2. This does not help kids that live within 1 mile of the new school but attend Hightower.	THANK YOU for providing relief to Hightower! These kids need out of these OLD trailers! This should be presented at the Austin meeting too!	Kids should not have to revert back to DHS feeder. DHS is WAY over capacity and the addition won't be completed in time for these kids. Why are you not looking at both feeders comprehensively?	#2

Doraville United Elementary Redistricting Round 2 Community Input Survey

Recorded Date	Which school community do you represent?	Pros for Option 1 Map	Cons for Option 1 Map	Pros for Option 2 Map	Cons for Option 2 Map	Which focus/option do you feel best serves students in the area?
10/21/2019 11:05	Ashford Park ES	Helps relieve overcrowding at Dresden & Cary Reynolds.	APS has 18 kids in both plans, but at least 8 are in school choice, the impact to the district is null, but huge to those few who have to leave their physical neighborhood school and cross busy intersections to attend a school with no one in their community. Also why not keep MES together to HH vs split to 2 schools. keep community intact	Helps relieve overcrowding at Dresden & Cary Reynolds. Allows more MES to stay together in the move.	Seems very all over the place in terms of pulling kids. There will be no community at this new school if you pull from such far reaches of kids from so many schools! Why can the map not be consolidated to make more logical sense in terms of distance and keeping neighborhoods intact. The AP kids seem like such a stretch to move 10 kids far away.	
10/21/2019 11:07	Montgomery ES	Relieves Dresden and Cary Reynolds which makes sense. Does not impact neighboring school districts (Dunwoody).	Disrupts many other communities and neighborhoods - mainly sections D and F. Section D is in walking distance to Chamblee Middle and Chamblee High School. It makes no sense to disrupt linkage between elementary and middle school - most of the Montgomery students will be scheduled for Chamblee middle. A new plan is needed to deal with MES and AP.	Relieves Dresden and Cary Reynolds as well as Hightower	Disrupts D and E1. There is no point to impact these communities with changes - it is very close to MES, Chamblee Middle, and CHS. It breaks apart neighborhoods on Harts Mill Road. More thought is needed to deal with the over utilization across MES, Huntley Hills, and Ashford Park. Please do not make any changes to D and E1 for now.	My children are located in section D and this redistricting has been very stressful for our family. A new alternative is needed to deal with MES. We are being impacted for no reason.
10/21/2019 11:10	Ashford Park ES	Reduces Over crowding	Portable classrooms still needed at several schools. How will either option impact the German Immersion program for currently enrolled students and siblings?			Option 1
10/21/2019 11:21	Ashford Park ES			I can't read either of the maps. I need to be able to expand		
10/21/2019 11:25	Ashford Park ES	f	f	f	f	f
10/21/2019 11:29	Ashford Park ES	relief to Cary Reynolds and Dresden with both options, relief to Huntley Hills, greater relief to Montgomery; neither options truly help Ashford Park in long run, so why displace this limited amount of kids?	relief to Cary Reynolds and Dresden with both options, puts some strain on Hightower; neither options truly help Ashford Park in long run, so why displace this limited amount of kids?	neither options truly help Ashford Park in long run, so why displace this limited amount of kids? Ashford Park attendance zones should remain the same. Has the option to move all the kids from Ashford Park to the new school for a year while AP is torn down and rebuilt (at a larger capacity), and then move all AP kids back to AP been considered?	neither options truly help Ashford Park in long run, so why displace this limited amount of kids? Ashford Park attendance zones should remain the same. Has the option to move all the kids from Ashford Park to the new school for a year while AP is torn down and rebuilt (at a larger capacity), and then move all AP kids back to AP been considered?	option 2
10/21/2019 13:01	Ashford Park ES		I think dividing the streets off of Clairmont Rd is detrimental to traffic patterns. I know it is not proposed as south as our street, but we all are very much a part of the Ashford Park neighborhood and community and can access our sweet school without crossing major highways. Please stop drawing from the streets west of Clairmont Rd. Thanks.		I think dividing the streets off of Clairmont Rd is detrimental to traffic patterns. I know it is not proposed as south as our street, but we all are very much a part of the Ashford Park neighborhood and community and can access our sweet school without crossing major highways. Please stop drawing from the streets west of Clairmont Rd. Thanks.	
10/21/2019 13:06	Montgomery ES	Helps capacity	Splits up Sexton woods neighborhood and sends D group of cluster who live right by Chamblee MS and HS to a non-feeder school further away.	N/A vs option 1	Splits up Sexton woods neighborhood and sends D group of cluster who live right by Chamblee MS and HS to a non-feeder school further away.	Neither
10/21/2019 13:16	Ashford Park ES	Does not pull more kids in from another cluster (Dunwoody) into two already overcrowded clusters	Moves a very small number of kids from Ashford Park - breaking up a neighborhood and negatively affecting those families. Given the small number, this will have minimal (if any true) impact on overcrowding in APES. This goes directly against keeping neighborhoods intact. It also requires those kids to cross several major intersections.		Moves a very small number of kids from Ashford Park. Given the small number, this will have minimal (if any true) impact on overcrowding in APES. This goes directly against keeping neighborhoods intact. It also requires those kids to cross several major intersections. Also pulls MORE kids into overcrowded clusters.	Option 1 only because it doesn't pull kids in. Where is the overall overcrowding relief plan Dan Drake was touting at the first meeting???
10/21/2019 14:57	Ashford Park ES		Impact by removing section E from ash ford park creates a safety issue as it requires crossing at least 2 major roads to get to the new school. Section E is an intact part of the Ashford Park neighborhood. Additionally, by moving section E it does not significantly decrease population in Ashford park.		Impact by removing section F from Ashford park creates a safety issue as it requires crossing at least 2 major roads to get to the new school. Section F is an intact part of the Ashford Park neighborhood. Additionally, by moving section F it does not significantly decrease population in Ashford park.	Neither
10/21/2019 15:12	Other		Does not relieve overcrowding at Hightower	Option 2, or any option relieving as many Hightower students as possible to Doraville United, is helpful.		2
10/21/2019 16:11	Other		Does not address Hightower Elem. overcrowding	Provides much needed relief for Hightower Elementary at a school in very close proximity.		2, Option 2

Doraville United Elementary Redistricting Round 2 Community Input Survey

Recorded Date	Which school community do you represent?	Pros for Option 1 Map	Cons for Option 1 Map	Pros for Option 2 Map	Cons for Option 2 Map	Which focus/option do you feel best serves students in the area?
10/21/2019 16:34	Montgomery ES		You are breaking up an intact neighborhood which is one of the things you stated that you would not do. I am in Sexton Woods and you pulled a small group from Sexton in Section D which makes no sense and no kids safety is an issue and they have to cross a major road Peachtree Industrial. What was a short safe commute is not longer and not safe.		You are breaking up an intact neighborhood which is one of the things you stated that you would not do. I am in Sexton Woods and you pulled a small group from Sexton in Section D which makes no sense and no kids safety is an issue and they have to cross a major road Peachtree Industrial. What was a short safe commute is not longer and not safe.	I vote to keep Montgomery kids in tact and not move any of them. It does not address overcrowding and it sends kids to a school where they will attend for a couple of years but then not attend the high school that other Doraville United Elementary schools attend. It makes absolutely no sense.
10/21/2019 16:42	Ashford Park ES					Neither, please keep Ashford Park together!
10/21/2019 17:20	Ashford Park ES		My street is considered Ashford Park and I would like to stay with the kids in our neighborhood. If transferred to Doraville we would have to cross major streets and intersections where now we could ride our bike to school through the neighborhood.		My street is considered Ashford Park and I would like to stay with the kids in our neighborhood. If transferred to Doraville we would have to cross major streets and intersections where now we could ride our bike to school through the neighborhood.	Neither
10/21/2019 17:20	Ashford Park ES		Please keep Ashford Park residents slotted for Ashford Park Elementary.		Please keep Ashford Park residents slotted for Ashford Park Elementary.	
10/21/2019 17:29	Ashford Park ES	Ashford Park should not be touched. All APES kids should stay. 18 is such a small number and then minus those in the German program that would stay at APES the number is even smaller.			Ashford Park should not be touched. All APES kids should stay. 18 is such a small number and then minus those in the German program that would stay at APES the number is even smaller.	Neither
10/21/2019 20:33	Ashford Park ES	Relieves Dresden, Cary Reynolds and Huntley Hills.	Doesn't relieve MES or APE. Moves a small number of kids from APE. Moving a small number of kids goes against 3 criteria. 1. Instructional capacity-APE still over crowded 2. Intact neighborhoods-AP divided 3. Proximity-Doraville United further than APE.	Relieves Dresden and Cary Reynolds.	Huntley Hills, Ashford Park and Montgomery still over crowded.	Both serve students in Dresden and Cary Reynolds well. Neither solves the overall problem of overcrowding
10/21/2019 20:52	Ashford Park ES		This doesn't address the overcrowding at Ashford Park			
10/21/2019 21:08	Huntley Hills ES	Using Peachtree blvd as a natural barrier	Cherry picking small amounts of students from Ashford park/Montgomery/huntley hills does not seem logical in overall assessment of overcrowding. Splitting up neighborhoods does not reach a logical solution.	e2 represents the old gm assembly. That is fine to include in new school zone since those families have not yet been established.		Option 2
10/21/2019 21:56	Ashford Park ES	Sends commercial areas and new apartments to new school.	Does not Keep neighborhoods intact and separates kids from their neighborhood friends. Ashford Park, as bounded by peachtee to the N and Clairmont to the E should be kept intact at APES. The same is true for Sexton Woods	Assists with Dunwoody	Breaks up exist and coherent neighborhoods including Ashford Park, Sexton Woods and Huntley Hills. These neighborhoods should be kept intact as bound by major roads.	Keeping Neighborhoods intact
10/22/2019 0:03	Ashford Park ES		Moving 18 student out of the Ashford Park district does not make sense. These children live in the Ashford Park neighborhood, and go to school with their neighbors. These are the children they play sports with, go to the park with, etc. in addition, it will more than double their commute, and they will have to cross at least 3 major intersections.		Moving 18 student out of the Ashford Park district does not make sense. These children live in the Ashford Park neighborhood, and go to school with their neighbors. These are the children they play sports with, go to the park with, etc. in addition, it will more than double their commute, and they will have to cross at least 3 major intersections.	
10/22/2019 3:12	Ashford Park ES		Regarding Ashford Park to Doraville. The Ashford Park residential community should stay intact and feed into Ashford Park Elementary.			None of these options.
10/22/2019 10:26	Ashford Park ES		Removing a section of an intact community, Ashford Park, for the result of 18 students, is not impactful to the overcrowding by nearly 200 at APS. The proposal violates the criteria set forth by the county by dividing an intact neighborhood and transferring major intersections like Clairmont Road, Chamblee Tucker Road and Chamblee Dunwoody Road.		Removing a section of an intact community, Ashford Park, for the result of 18 students, is not impactful to the overcrowding by nearly 200 at APS. The proposal violates the criteria set forth by the county by dividing an intact neighborhood and transferring major intersections like Clairmont Road, Chamblee Tucker Road and Chamblee Dunwoody Road.	Neither option serves the students at APS or the neighborhood
10/22/2019 13:38	Other		It does not relieve the Dunwoody cluster's overcrowding.	It helps relieve the Dunwoody cluster's overcrowding.	None.	Option 2. Relieves Dunwoody Overcrowding.

Doraville United Elementary Redistricting Round 2 Community Input Survey

Recorded Date	Which school community do you represent?	Pros for Option 1 Map	Cons for Option 1 Map	Pros for Option 2 Map	Cons for Option 2 Map	Which focus/option do you feel best serves students in the area?
10/22/2019 14:23	Montgomery ES		why split sexton woods into 2 school districts? Don't split the sexton woods neighborhood. Move the line over to chamblee dunwoody instead of right down the backyards of a single neighborhood.		why split sexton woods into 2 school districts? Don't split the sexton woods neighborhood. Move the line over to chamblee dunwoody instead of right down the backyards of a single neighborhood.	neither. you are splitting a neighborhood in half
10/22/2019 15:16	Ashford Park ES		removing any students from the established Ashford Park neighborhood to be zoned to another school is a very bad idea. These 18 students are within the historic AP neighborhood lines. It would make more sense to move students who have to cross over a major road (Clairmont, Peachtree, or Dresden) to be zoned to another school.		Same comments as Option 1. It does not make sense to remove students from the historic borders of Ashford Park and shift them to a school that crosses major intersections. AP neighborhood residents should go to AP elementary school. Families who lived outside the AP footprint should be considered for rezoning before an AP resident.	For AP residents, neither option serves students in our neighborhood as it makes an unrealistic divide within our established neighborhood.
10/22/2019 16:35	Ashford Park ES	Lines make more geographic sense; less gerrymandered appearing than option 2 Bigger reduction in portables	Removes a small amount of kids from AP and doesn't address any overcrowding at AP--doesn't make sense-- 1/2 those kids are GI students--may as well keep them at AP. Also moving them to a school that is not in geographic proximity to where they live. AP would prefer to stay overcrowded and together vs removing a small amount of kids Split feeders	unifies Montclair neighborhood	Doesn't address the overcrowding at MES or AP--AP would prefer to stay overcrowded and together than remove a small group. There is enough overcrowding in Chamblee/cross keys cluster --why relieve hightower and it makes the lines look worse. Breaks up ashford park neighborhood and pulls a small cluster out of their neighborhood.	option 1
10/22/2019 17:26	Montgomery ES	- Satisfies goal of relieving overcrowding at Cary Reynolds & Dresden. - Provides some relief for overcrowding at Montgomery	This splits up our Montgomery community and creates situations where children in the same community attend different elementary schools. Those same children are again split from their elementary school friends by switching back to their community middle school which seems disruptive.	- Satisfies goal of relieving overcrowding at Cary Reynolds & Dresden - Less disruptive to Montgomery community	This splits up our Montgomery community and creates situations where children in the same community attend different elementary schools. Those same children are again split from their elementary school friends by switching back to their community middle school which seems disruptive.	Opt 2 less disruptive. Primary concern is community push in next round to relocate Kittredge. It's imperative to allow these county-wide students currently enrolled at KMS to finish at its current location as these families have already made hard decisions and long-term plans. If relocation is imminent, have a concrete roadmap in place so that NEW families can make informed long-term decisions.
10/22/2019 20:16	Ashford Park ES	1. Alleviates overcrowding at Dresden ES and Cary Reynolds 2. Keeps most of Ashford Park ES intact and doesn't disrupt the neighborhood school	1. Breaks away a small portion of Ashford Park ES. It takes away children that can walk to school and makes them cross over multiple major intersections. 2. Ashford Park neighborhood should not have the top cut off and sent to Doraville ES. 3. Moving 18 students, of which 8+ are German Immersion does nothing for the enrollment at Ashford Park ES.	Alleviates overcrowding at Cary Reynolds and Dresden	1. Breaks away a small portion of Ashford Park ES. It takes away children that can walk to school and makes them cross over multiple major intersections. 2. Ashford Park neighborhood should not have the top cut off and sent to Doraville ES. 3. Moving 18 students, of which 8+ are German Immersion does nothing for the enrollment at Ashford Park ES.	Option 1
10/22/2019 20:39	Ashford Park ES	Keeps our community intact in one school district.				
10/22/2019 21:39	Ashford Park ES		Splitting existing communities		Splitting existing communities	
10/22/2019 22:09	Ashford Park ES	Reliefs over crowding at Dresden and Cary Reynolds.	The move of the small part of Ashford Park doesn't make sense. First, it's splitting the Ashford Park neighborhood which goes against one of the main criteria. Plus, it's a small amount of kids, it doesn't relieve overcrowding at AP, and it doesn't help fill the new school or add any contiguous areas.	It relieves overcrowding at Dresden and Cary Reynolds.	The move of the small part of Ashford Park doesn't make sense. First, it's splitting the Ashford Park neighborhood which goes against one of the main criteria. Plus, it's a small amount of kids, it doesn't relieve overcrowding at AP, and it doesn't help fill the new school or add any contiguous areas.	Neither are great - this doesn't help AP and disrupts a small number of students IN THE NEIGHBORHOOD.
10/23/2019 7:57	Ashford Park ES		Separates intact neighborhood (Ashford Park), kids go from being able to walk to school to having to drive across three major intersections, only taking 18 (10 of which are in German immersion and won't be leaving, so only 8 kids are moving) kids out of the school has little impact but a huge impact for the kids being taken out of their community.	Helps with Hightower ES overcrowding issues.	Separates intact neighborhood (Ashford Park), kids go from being able to walk to school to having to drive across three major intersections, only taking 18 (10 of which are in German immersion and won't be leaving, so only 8 kids are moving) kids out of the school has little impact but a huge impact for the kids being taken out of their community.	Option 2 serves the overall community better.

Doraville United Elementary Redistricting Round 2 Community Input Survey

Recorded Date	Which school community do you represent?	Pros for Option 1 Map	Cons for Option 1 Map	Pros for Option 2 Map	Cons for Option 2 Map	Which focus/option do you feel best serves students in the area?
10/23/2019 8:32	Ashford Park ES	Slightly more intact area for DUES.	The district is still too stretched out and removes a handful of Ashford Park Elementary School students from their traditional neighborhood. It will not receive overcrowding, but instead isolate those students from their communities, as they will no longer attend school with their neighbors, and will not live anywhere near their new school.		This district for DUES is crazy! Reaching down to area F and snatching a handful of kids from Ashford Park is a bad move! They are a walkable distance from their current community school, and removing them from the geographically closest school will do little to nothing for overcrowding.	None - come up with something better!
10/23/2019 8:56	Ashford Park ES		Option 1 isolates the top part of the Ashford Park community, violating the top priority of geographic proximity. The E area is titled Ashford Park. How can this neighborhood NOT attend Ashford Park School? It will destroy intact communities as there are numerous obstacles in the commute to Doraville		Option 1 isolates the top part of the Ashford Park community, violating the top priority of geographic proximity. The E area is titled Ashford Park. How can this neighborhood NOT attend Ashford Park School? It will destroy intact communities as there are numerous obstacles in the commute to Doraville	None
10/23/2019 9:49	Montgomery ES		options 1 and 2 are both inadequate and does not address overcrowding or lack of facilities at Montgomery ES.. Adding new building or moving to an expanded nancy creek is a must for current Montgomery ES zone.. there is so much of new construction going on and there is no space left for adding portable classrooms at MES.		options 1 and 2 are both inadequate and does not address overcrowding or lack of facilities at Montgomery ES.. Adding new building or moving to an expanded nancy creek is a must for current Montgomery ES zone.. there is so much of new construction going on and there is no space left for adding portable classrooms at MES	Both are inadequate in addressing MES area
10/23/2019 9:58	Other		Does not include Hightower Elementary which should be in this cluster to begin with and not Dunwoodycluste. The school is not even located in the city of Dunwoody. It's in Doraville.	Option includes Hightower Elementary which is a better fit for the location of the school and better meets the criteria of keeping communities and neighborhoods intact. Including Hightower E. in this cluster redistricting can better position it for revising its school feeder alignment to the city the school is located - Doraville (not Dunwoody).		Option 2
10/23/2019 11:46	Ashford Park ES	1 less portable classroom at AP ES	AP neighborhood will no longer be intact - 18 kids will be "segregated" from the majority of the kids in the neighborhood who go to AP ES Transferring 18 kids will not relieve overcrowding at AP ES 18 kids from AP neighborhood commuting to Doraville will increase traffic and hassles for the families having to go from a 5 minute drive to 15 minutes	1 less portable classroom at AP ES	AP neighborhood will no longer be intact - 18 kids will be "segregated" from the majority of the kids in the neighborhood who go to AP ES Transferring 18 kids will not relieve overcrowding at AP ES 18 kids from AP neighborhood commuting to Doraville will increase traffic and hassles for the families having to go from a 5 minute drive to 15 minutes	keep neighborhoods intact
10/23/2019 13:55	Other	No change to Dunwoody cluster crowding.		Dunwoody relief!	Not enough change within others in this cluster. Not enough at new Doraville United.	Option 2 if edited further.
10/23/2019 15:07	Ashford Park ES	Nothing. Ham Drive and Dyer Circle should stay with Ashford Park Elementary School. This is our neighborhood. We can walk to school if we wanted.	We want Section E to stay with Ashford Park Elementary. We have two young sons that are about to be Elementary school age. We have lived in Brookhaven for 10 years. The first 7 was in the Brookhaven Township Condo's., We searched for a long time to find a home that was in the Ashford Park Elementary school district. WE LIVE IN ASHFORD PARK!	Nothing. Ham Drive and Dyer Circle are in Ashford Park and should stay in this School district.	Section F on this map should stay with Ashford Park Elementary. We have two young sons that are about to be Elementary school age. We have lived in Brookhaven for 10 years. The first 7 was in the Brookhaven Township Condo's., We searched for a long time to find a home that was in the Ashford Park Elementary school district. WE LIVE IN ASHFORD PARK!	Either option is very unfair to the residents of Ham Drive and Dyer Circle. We consider ourselves residents of Ashford Park and chose to purchase our home here just because of this school district and we love the Ashford Park neighborhood in which we live.
10/23/2019 16:27	Ashford Park ES		Moving the 18 total subjects within the Ashford Park neighborhood to cross 2 major thoroughfares will not appreciably help the overcrowding of APES. Over 75% of the population zoned for APES Option 1 will live further away from Ashford Park ES than these 18 students. It is wrong to separate these kids from their local neighborhood school.		Moving the 18 total subjects within the Ashford Park neighborhood to cross 2 major thoroughfares will not appreciably help the overcrowding of APES. Over 75% of the population zoned for APES Option 1 will live further away from Ashford Park ES than these 18 students. It is wrong to separate these kids from their local neighborhood school.	Neither. Rezoning students who live in the Ashford Park neighborhood away from Ashford Park ES should not be an option.
10/23/2019 17:05	Other	Relief for Montgomery		Relief for Hightower		

Doraville United Elementary Redistricting Round 2 Community Input Survey

Recorded Date	Which school community do you represent?	Pros for Option 1 Map	Cons for Option 1 Map	Pros for Option 2 Map	Cons for Option 2 Map	Which focus/option do you feel best serves students in the area?
10/23/2019 19:24	Montgomery ES		I don't see anything which is a pro regarding this option. The option is very disruptive and shuffles kids without relieving overcrowding It splits multiple neighborhoods which should remain together. It subjects a large number of kids to multiple redistricting efforts in their K-5 career It does not relieve overcrowding at Hightower ES	Compared to the first option, it's less disruptive overall It relieves not only Carey Reynolds and Dresden but also provides significant relief to Hightower It splits less neighborhoods than option 1	However, it splits Sexton Village without utilizing a natural road barrier of Peachtree-Industrial The 20 students impacted would not only have to travel further, but would also have to cross Peachtree-Industrial to get to school (something they don't currently do today) As part of the split feeder design, these students would be separated from the	Neither
10/23/2019 19:35	Ashford Park ES		This seems to not use natural borders as well as it could. Leaves a lot of families in the Montgomery school.	Appears to use natural borders better.	Still a huge amount for Montgomery.	Option 2
10/23/2019 20:45	Montgomery ES					We should find a way to keep Montgomery the same and build to make more room
10/23/2019 20:49	Montgomery ES		We don't see anything which is a pro regarding this option. The option is very disruptive and shuffles kids without relieving overcrowding It splits multiple neighborhoods which should remain together. It subjects a large number of kids to multiple redistricting efforts in their K-5 career It does not relieve overcrowding at Hightower ES	Compared to the first option, it's less disruptive overall It relieves not only Carey Reynolds and Dresden but also provides significant relief to Hightower It splits less neighborhoods than option 1		Option 2
10/23/2019 22:34	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves during likely future redistricting in Chamblee Clus	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed
10/23/2019 23:09	Cary Reynolds ES					Option 2
10/23/2019 23:19	Montgomery ES	Relieved overcrowding at Dresden and Cary Reynolds	Separates 20 students from their community Sexton Woods, and buses them across Peachtree Blvd to Doraville United. Sexton Woods is a close knit community, we have block parties and other events that give us a sense of place and unity.	Relieves overcrowding at Dresden and Cary Reynolds, keeps Gainsborough students in their community.	Separates 20 students in the Sexton Woods neighborhood from their community and busses them to a school across busy Peachtree Blvd.	Option 2
10/24/2019 5:46	Montgomery ES	Reunited apt complex that is split	Breaks up up sexton woods neighborhood	Relieves overcrowding at Hightower	Sends sexton woods neighborhood in more busier/less safe path	Option 2
10/24/2019 7:00	Ashford Park ES	Makes a lot sense. Seems to be a good option.		Again, makes sense and is a good option that takes care of all needs.		Option 1
10/24/2019 7:14	Montgomery ES					Option 2
10/24/2019 7:44	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster & farther than 2 ES's in their cluster - Subjects hundreds to multiple moves in the likely future redistricting in Chamblee clus	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed
10/24/2019 8:05	Ashford Park ES		We are too far away.		Too far away	Neither

Doraville United Elementary Redistricting Round 2 Community Input Survey

Recorded Date	Which school community do you represent?	Pros for Option 1 Map	Cons for Option 1 Map	Pros for Option 2 Map	Cons for Option 2 Map	Which focus/option do you feel best serves students in the area?
10/24/2019 8:17	Montgomery ES	Reduces the 2021 projected number of portable classrooms for Montgomery. Removing area F to HH from MES makes more sense regarding safety & Traffic patterns. Taking areas, A, B, C and E to Doraville makes sense regarding safety & traffic patterns. Does not add any additional students from outside 285 to the cluster.	Area D, if moved, would be closer in proximity to Huntley Hills than Doraville. Moving D to Doraville would go against safety and traffic patterns. Take more of Dresden and Cary Reynolds to Doraville to further relieve overcrowding. Take more of Ashford Park to John Lewis to further relieve overcrowding, looks gerrymandered.	This is not an efficient and economical option. It looks gerrymandered. Going from E1 to E2 and skipping that whole chunk of Huntley Hills is not following safety and traffic patterns.	Does nothing to relieve projected overcrowding at Montgomery, Huntley Hills. Adds more students from outside 285 (area g), going against safety and traffic patterns. Area D is closer safety and traffic pattern wise to Huntley Hills than Doraville United. More students from Ashford Park need to be moved to John Lewis, looks gerrymandered.	Option 1
10/24/2019 8:28	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds and Dresden. Reunites apartment complex that is split between Montclair and Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods and Gainsborough. Subjects hundreds to multiple moves in the likely future redistricting in Chamblee Cluster. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster and farther than 2 ES's in their cluster. Requires a commute across less safe/busier path-Peachtree.	Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Reunites apartment complex as in option 1. Relieves long standing overcrowding at Cary Reynolds & Dresden. Relieves overcrowding at Hightower. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future.	Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster. Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd.	Option 2 relieves Cary Reynolds & Dresden, also provides relief to Hightower and is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves and remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed
10/24/2019 8:59	Montgomery ES		Breaking up neighborhoods, section D having to cross multiple busy roads to reach DU		Still breaking up neighborhoods but less disruptive than option 1	Option 2
10/24/2019 9:01	Montgomery ES	<ul style="list-style-type: none"> - Relieves long standing overcrowding at Cary Reynolds & Dresden - Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United - Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact. 	<ul style="list-style-type: none"> - Breaks up neighborhoods Sexton Woods & Gainsborough - Requires Sexton Woods commute across less safe/busier path - Peachtree. - Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster - Subjects hundreds to multiple moves in the likely future redistricting in Chamblee Cluster 	<ul style="list-style-type: none"> - Relieves long standing overcrowding at Cary Reynolds & Dresden - Also relieves overcrowding at Hightower - Breaks up fewer neighborhoods. - Least disruptive option to MES and HHES. - Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. - Reunites apartment complex as in Option 1. 	<ul style="list-style-type: none"> - Breaks up Sexton Woods Neighborhood to commute across unsafe/busier path, Peachtree Blvd. - Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster - Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster 	Option 2 relieves Cary Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed

Recorded Date	Which school community do you represent?	Pros for Option 1 Map	Cons for Option 1 Map	Pros for Option 2 Map	Cons for Option 2 Map	Which focus/option do you feel best serves students in the area?
10/24/2019 10:51	Montgomery ES		Splitting neighborhoods and location.		Splitting neighborhoods and location. Montgomery ES will still be overcrowded.	Leave it alone. Keep the neighborhood intact. Either build on to Montgomery or do what was done to Austin and rebuild and keep it a "neighborhood super school".
10/24/2019 10:52	Montgomery ES					Minimizing overcrowding and use of portable classrooms
10/24/2019 10:59	Montgomery ES	None	Way too much disruption for Montgomery Elementary and Huntley Hills	Less disruption for students centrally located in their districts. Least amount of impact to Montgomery Elementary, Ashford Park, and Huntley Hills as these are areas where the school played a huge role in the parents' decision to live there.	Displacing any students in Montgomery Elementary, Ashford Park, and Huntley Hills. A better option instead of two new schools, may have been to build onto the existing schools that are over capacity.	Option 2
10/24/2019 11:00	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden. Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United. Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough. Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster. Subjects hundreds to multiple moves in the likely future redistricting in Chamblee Cl.	Relieves long standing overcrowding at Cary Reynolds & Dresden. Also relieves overcrowding at Hightower. Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster. Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster.	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed
10/24/2019 11:10	Montgomery ES		Proximity and Safety for our area to move to Doraville United.			Keeping students and families in the same school system (vs uprooting) and safety.
10/24/2019 11:21	Montgomery ES	i. Relieves long standing overcrowding at Cary Reynolds & Dresden ii. Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United iii. Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee Cluster	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed
10/24/2019 11:25	Montgomery ES		Breakups neighborhoods Sexton woods/Gainsborough	Relieves overcrowding Cary Reynolds and Dresden	Requires SW to commute across a lesser safe Ptee Blvd Subjects many kids to multiple moves in the even of another redistricting	Option 2
10/24/2019 11:26	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed
10/24/2019 11:41	Dresden ES	Relief for the two most overpopulated elementary schools in the district, especially Dresden, which is at 140% capacity and received ZERO relief from last year's new school opening.				
10/24/2019 11:47	Montgomery ES	Makes Peachtree Industrial a safer boundary between Huntley Hills and Doraville United	Breaks up neighborhoods Sexton Woods and Gainsborough Subjects hundreds to multiple moves in the likely future redistricting in Chamblee Cluster Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, farther than 2 ES's in their cluster NOT A LONG TERM FIX TO THE OVERCROWDING PROBLEM	Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future.	Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed

Doraville United Elementary Redistricting Round 2 Community Input Survey

Recorded Date	Which school community do you represent?	Pros for Option 1 Map	Cons for Option 1 Map	Pros for Option 2 Map	Cons for Option 2 Map	Which focus/option do you feel best serves students in the area?
10/24/2019 11:49	Other	Reduces over crowding at Cary Reynolds and Dresden. Does a decent job of trying to help all the other schools in the area.	Ashford Park still seems very overcrowded	Not only helps Cary Reynolds and Dresden, but it also appears to help Hightower as well.	Doesn't do as much to help other schools. Montgomery appears to be more overcrowded here.	Option 2
10/24/2019 11:51	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed
10/24/2019 11:55	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee Cluster	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed
10/24/2019 12:07	Montgomery ES	Reunites apartment complex that is split between Montclair & Dresden Helps with overcrowding at Cary Reynolds and Dresden	Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Does not address overcrowding at MES or APES	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Does not address overcrowding at MES or APES	I would prefer not to have to do this again and break up our school community in two years bc this didn't address the overcrowding at MES and APES. I would prefer MES lines stay where they are until overcrowding in the Chamblee Cluster can be more systemically addressed
10/24/2019 12:17	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee Cluster	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed
10/24/2019 12:47	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee Cluster	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed
10/24/2019 12:51	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in cluster	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option1	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed

Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed
10/24/2019 16:21	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough; Requires Sexton Woods commute across less safe/busier path - Peachtree; Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster & further than 2 ES' in their cluster; Subjects hundreds to multiple moves in the likely future redistricting in the Chamblee clu	Relieves long standing overcrowding at Cary Reynolds & Dresden also relieves overcrowding at Hightower breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future; reunites apartment complex as in Option 1	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and middle/highschool cluster, and father than two ES' within their cluster. Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster.	Option 2 relieves Cary Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed.
10/24/2019 17:30	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed
10/24/2019 17:33	Montgomery ES	Relieves overcrowding the most at Dresden, Huntley Hills, Montgomery, Cary Reynolds. Helps Montclair, John Lewis, Woodward remain balanced.	Ashford Park ES relatively unchanged.	Improvement at Cary Reynolds, Hightower	Doesn't relieve overcrowding at Ashford Park, Huntley Hills, Montgomery	Option 1
10/24/2019 17:47	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed
10/24/2019 18:41	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee Cluster	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed
10/24/2019 18:41	Montgomery ES		Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee Cluster	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed

Doraville United Elementary Redistricting Round 2 Community Input Survey

Recorded Date	Which school community do you represent?	Pros for Option 1 Map	Cons for Option 1 Map	Pros for Option 2 Map	Cons for Option 2 Map	Which focus/option do you feel best serves students in the area?
10/24/2019 19:17	Montgomery ES	Relieves overcrowding at Cary Reynolds and Dresden Creates natural border on Peachtree Industrial between schools Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Unnecessarily breaks up Sexton Woods by sending 11-13 kids to Doraville. Makes no sense. Potentially breaks up ES/MS/HS clusters Doesn't do enough to resolve overcrowding at Ashford Park.	Relieves overcrowding at Cary Reynolds and Dresden. Reunites apartment complex that was split between Montclair and Dresden	Does not pull in natural options for Doraville United such as HH people east of peachtree industrial. Does not pull in people on Peachtree Industrial in the south. Somehow decides to still grab people directly west of people who do not go to Doraville. Breaks up MS/HS clusters	Option #1 is a better option as the lines are drawn better and not as badly gerrandered. However, breaking up sexton woods for 11 people makes no sense. Those 11 should be moved back to MES. I also think more could be done to take people from on Peachtree Industrial to Doraville to help overcrowding at HH and MES.
10/24/2019 20:55	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee Cluster	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed
10/24/2019 21:03	Montgomery ES	Solves capacity concern for cary reynolds and desden ES.	Does not change enrollment stress for Montgomery Elementary or Ashford Park which have the largest capacity concern.	Solves capacity concern for Cary Reynolds ES and Dresden Es.	No Changes to the challenges for Ashford park or Montgomery	Both Options look relatively the same. They solve the concern for 2 schools but does nothing for Montgomery and Ashford Park. I seems opening a school can solve the capacity problem but there has not been an option for Montgomery. Montgomery District has had 2 schools closed (Sexton Woods and Nancy Creek) which seems to have contributed to the current problem. ReOpen and solve the problem.
10/24/2019 21:50	Montgomery ES	Relieves crowding at some schools (but not enough).	Four schools are still over 100% Breaks up Gainsborough and Sexton Woods neighborhoods	Relieves crowding at some schools (but not enough).	A number of schools will still be over 100% capacity, but it affects fewer families at Montgomery, thus keeping capacity too high.	1... but could use some adjustments
10/24/2019 21:52	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods Intact	Breaks up neighborhoods Sexton Woods & Gainsborough. Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee Cl	i. Relieves long standing overcrowding at Cary Reynolds & Dresden i. Also relieves overcrowding at Hightower i. Breaks up fewer neighborhoods. i. Least disruptive option to MES and HHES. i. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	i. Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. i. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster i. Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed.
10/24/2019 22:03	Montgomery ES		Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee Cluster	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future.	Subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed.

Recorded Date	Which school community do you represent?	Pros for Option 1 Map	Cons for Option 1 Map	Pros for Option 2 Map	Cons for Option 2 Map	Which focus/option do you feel best serves students in the area?
10/24/2019 22:41	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee Cluster	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed
10/24/2019 23:33	Montgomery ES	Area C to DUE helps to relieve over capacity at HHES without breaking up a neighborhood.	Area D to DUE breaks up a close knit neighborhood and forces students across a major roadway. Split feeder pattern is bad for students in areas C, D, and E. The few students in areas will transition to Chamblee Middle without an established social network.	Fewer disruption to MES community.	Area D to DUE breaks up a close knit neighborhood and forces students across a major roadway. Split feeder pattern is bad for students. Students will transition from DUE to Chamblee or Peachtree Middle without an established social network. Counselors at DUE will have to coordinate with 3 different middle schools.	Neither. MES community should remain together.
10/24/2019 23:45	Montgomery ES	- Relieves long standing overcrowding at Cary Reynolds & Dresden - Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United - Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact. 10/25/2019 7:47	Huntley Hills ES	Provides some relief to the severely overcrowded CRES and DES.	It still contains the extra long an narrow Buford Hwy corridor. I was really hoping to see more diversity in the new school.	I honestly can't see any pros.		Option 1
10/25/2019 7:48	Ashford Park ES		It does not make sense to send 18 children who live in walking distance to APES to Doraville, 8 of which are in German Immersion so moving only 10 children.		Same argument from option 1.	Neither option serves our students in the area.
10/25/2019 8:29	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path-Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in the cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee cluster	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed
10/25/2019 8:31	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed
10/25/2019 8:32	Montgomery ES	None	Disruptive in multiple regions Splits multiple communities Increases traffic in neighborhoods	Least disruptive	Divides Sexton Woods neighborhood - kids have to cross Peachtree Ind	Option 2
10/25/2019 8:34	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed
10/25/2019 8:46	Montgomery ES	RELIEVES EXISTING CROWDING AT CARY & DRESDEN SCHOOLS. MAKES PIB A SAFER BOUNDRY B/W HUNTLEY HILLS & DORAVILLE UNITED. REUNITES APT COMPLEX THAT IS SPLIT B/W MONTCLAIR & DRESDEN KEEPING NEIGHBORHOODS IN TACT.	BREAKS UP SEXTON WOODS & GAINSBOROUGH. REQUIRES SEXTON WOODS TO COMMUTE ACROSS LESS SAFE AND BUSIER PIB. SENDS SEXTON WOODS ACROSS PIB, OUTSIDE OF NEIGHBORHOOD, MIDDLE & HIGH SCHOOL CLUSTER, AND FARTHER THAN 2 ELEMENTARY SCHOOLS IN SAME CLUSTER! SUBJECTS HUNDREDS TO MULTIPLE MOVES AND FUTURE REDISTRICTING IN CHAMBLEE CLUSTER.	RELIEVES CROWDING AT CARY REYNOLDS & DRESDEN. RELIEVES CROWDING AT HIGHTOWER. BREAKS UP FEWER NEIGHBORHOODS. LEAST DISRUPTIVE OPTION TO MES & HHES. SUBJECTS LESS KIDS TO MULTIPLE MOVES IN LIKELY EVENT OF ANOTHER REDISTRICTING IN FORESEEABLE FUTURE. REUNITES APT COMPLEX IN OPTION 1.	REQUIRES SEXTON WOODS TO COMMUTE ACROSS BUSY AND LESS SAFE PIB. SENDS SEXTON WOODS ACROSS PIB TO AN ES OUTSIDE OF THE NEIGHBORHOOD AND MIDDLE/HIGH CLUSTER - AND FURTHER THAN TWO ES IN SAME CLUSTER. STILL SUBJECTS TOO MANY KIDS (MY OWN INDUCED)TO MULTIPLE MOVES IN LIKELY EVENT OF REDISTRICTING IN CHAMBLEE CLUSTER.	OPTION 2 RELIEVES CARY REYNOLDS & DRESDEN. PROVIDES RELEIF TO HIGHTOWER & IS LEAST DISRUPTIVE TO CHAMBLEE CLUSTER NOW, WHICH IS PREFERABLE GIVEN THE LIKELIHOOD OF FUTURE REDISTRICTING IN THE CLUSTER. TO AVOID MULTIPLE MOVES & REMAIN CONSISTENT WITH DCSD REDISTRICTING CRITERIA, SECTION D SHOULD REMAIN AT MONTGOMERY UNTIL OVERCROWDING IN CHAMBLEE CLUSTER CAN BE HOLISTICALLY ADDRESSED.

10/25/2019 10:51	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden. Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United. Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee Cluster	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster.	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed.
10/25/2019 11:02	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee Cluster	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2
10/25/2019 11:23	Montgomery ES	Option 1 offers much needed relief at Cary Reynolds & Dresden. It also reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact. It makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United	Option 1 breaks up neighborhoods Sexton Woods & Gainsborough. Requires Sexton Woods commute across less safe/busier path - PIB. Sends Sexton Woods across PIB, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster. Subjects hundreds to multiple moves in the likely future redistricting in Chamblee Cluster	Option 2 offers much needed relief at Cary Reynolds, Dresden, AND Hightower. Option 2 breaks up fewer neighborhoods, therefore least disruptive option to MES and HHES. It subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Option 2 requires Sexton Woods to commute across a lesser safe/busier path, PIB. Sends Sexton Woods across PIB to an ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster. Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed
10/25/2019 11:29	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed
10/25/2019 11:37	Montgomery ES	Helps Montgomery more than Option 2	Still leaves Montgomery more than 125 over capacity	none that I can see	Does little for Montgomery, why not an option that shifts some of Montgomery toward Huntley Hills, and shifts more of Huntley Hills to the new school? The proposed new district is too spread out.	Option 1 looks better from the standpoint of the new school, neither really addresses the Montgomery issues.
10/25/2019 11:45	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 but do not want Sexton Woods to be moved
10/25/2019 11:54	Montgomery ES	Improved overcrowding of Cary Reynolds & Dresden; safer boundary between Huntley Hills & Doraville United	Splits Sexton Woods neighborhood between school districts	Breaks up few neighborhoods	Divides Sexton Woods neighborhood	Option 2
10/25/2019 11:55	Montgomery ES	NONE	Disrupts neighborhood	Not as disruptive to neighborhood	Everything	Neither. I feel that Nancy Creek should be opened back up as a neighborhood school and Kittridge moved to an alternative location.
10/25/2019 12:10	Montgomery ES					Option 2

Doraville United Elementary Redistricting Round 2 Community Input Survey

Recorded Date	Which school community do you represent?	Pros for Option 1 Map	Cons for Option 1 Map	Pros for Option 2 Map	Cons for Option 2 Map	Which focus/option do you feel best serves students in the area?
10/25/2019 12:15	Montgomery ES		Increases traffic immensely by CCHS and that intersection of Peachtree Industrial Road. The Gainsborough East students have a difficult commute to school to get to Huntley Hills. Most of these kids do not ride the bus due to parents circumstances and parents are dropping off which will increase traffic on Savoy Drive. This is not ideal.			
10/25/2019 12:25	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee Cluster	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Breaks up neighborhoods Sexton Woods & Gainsborough. Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, farther than 2 ES's within their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee cluster.	Relieves long standing overcrowding at Cary Reynolds & Dresden. Also relieves overcrowding at Hightower. Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton Woods to commute across a less safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster. Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster.	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed.
10/25/2019 20:18	Montgomery ES			This option impacts the least number of a Montgomery Elementry school families and is a better option than all other options on the table. We strongly recommend NO families or students are moved out of Montgomery to the new school	20 Existing Montgomery Elementry school students/families would be impacted by this option. We ask that these students/families be allowed to remain at MES!!!	Option 2
10/25/2019 21:55	Montgomery ES					Option 2
10/26/2019 6:46	Huntley Hills ES	Less kids	Lose downtown Chamblee which is growing	Helps with crowding	None	Option 2
10/26/2019 8:45	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's within their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed

10/27/2019 15:47	Montgomery ES	None	This plan would rip a part a neighborhood where the kids are used to attending the same school together. Furthermore, we purchased our house based on the school and proximity of our work places. Doraville will not be an option for us.	None	Refer to my comments regarding option one as they apply to this map, as well.	Neither. Improve the space allotted for MES since Chamblee residents have chosen to invest in Chamblee when they could have purchased a home elsewhere.
10/27/2019 19:46	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed
10/27/2019 20:37	Oakcliff Theme ES	LOVE that overcrowding at Cary Reynolds and Dresden is eliminated. This is the most important thing. This option seems to be more logical. It also gets rid of the most trailers.	Ashford park and Montgomery are still overcrowded	Also relieves overcrowding at Cary Reynolds and Dresden. Helps Hightower. I think that opening Oakcliff's attendance zone to Hightower would also be a good option and redistricting kids wouldn't be necessary.	Seems more choppy. Creates more split feeder schools.	we need to deal with the overcrowding in this district.
10/27/2019 21:55	Ashford Park ES		Keep all of Ashford park together			

Doraville United Elementary Redistricting Round 2 Community Input Survey

Recorded Date	Which school community do you represent?	Pros for Option 1 Map	Cons for Option 1 Map	Pros for Option 2 Map	Cons for Option 2 Map	Which focus/option do you feel best serves students in the area?
10/27/2019 22:00	Ashford Park ES	While the primary purpose of reducing overcrowding at DES and CRES is realized, Montgomery also has substantial relief from overcrowding.	Ashford Park has essentially no relief from overcrowding for only 10 kids with projected enrollment only continuing to grow rapidly. There had been some chatter about considering rezoning APES on the west side of Peachtree to Montgomery and shifting more MES to Huntley Hills and some to Doraville United. Would like to see that back on the table.	More schools lose a few students in an effort to address widespread overcrowding, but only DES and CRES (as purposed) get any real relief.	Ashford Park has essentially no relief from overcrowding (only 10 kids would actually move because of school choice program) with projected enrollment only continuing to grow rapidly (1-2 new students every week). Would like to see APS west of Peachtree considered for rezoning to Montgomery and MES zones shifted to Huntley Hills/Doraville United.	Option 1
10/27/2019 22:01	Ashford Park ES		You have only removed 18 students from Ashford Park and in doing so removed homes that are in the Ashford park neighborhood. You should keep the Ashford park neighborhood whole and consider shifting the district in other areas such at the north side of peachtree or the south side of Dresden.			
10/27/2019 22:06	Ashford Park ES	N/A	Unfair to breakup an intact neighborhood and isolate the community. The kids that know each other, get along and live in the same neighborhood will be split up. Kids will also have longer commute.			
10/27/2019 22:08	Ashford Park ES					Neither. Keep Ashford Park Elementary School student body intact.
10/27/2019 22:28	Ashford Park ES	Helps with overcrowding				
10/27/2019 23:16	Montgomery ES					Option 2
10/27/2019 23:24	Ashford Park ES		Moving kids from D and E has little impact. Move more kids from Cary Reynolds and Dresden		These lines make less sense and do not preserve intact neighborhoods with established communities. Ashford park needs to be split with John Lewis. Huntley Hills n Montgomery need to be split better. Doraville, Cary Reynolds, and Dresden need to be split.	Neither. Use major roads to determine lines.
10/27/2019 23:52	Montgomery ES	<ul style="list-style-type: none"> Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact. 	<ul style="list-style-type: none"> Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree Sends Sexton Woods across Peachtree, outside of our neighborhood, Middle/High School cluster, & farther than 2 ES's in our cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee 	<ul style="list-style-type: none"> Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee Cluster	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed
10/28/2019 8:37	Ashford Park ES		My main issue with Option 1 Map is that it takes a tiny part of a tight-knit neighborhood (Ashford Park) and segregates it from the home elementary school of Ashford Park Elementary. The few streets that would be taken from APES are in such close proximity to the school, and part of the neighborhood that it would be ludicrous to remove them.		Option 2 also removes a small part of Ashford Park neighborhood and redistricts it out of a tightknit community. Overall this would have very little impact on the goals of redistricting anyway.	Neither because both break up the Ashford Park neighborhood

Doraville United Elementary Redistricting Round 2 Community Input Survey

Recorded Date	Which school community do you represent?	Pros for Option 1 Map	Cons for Option 1 Map	Pros for Option 2 Map	Cons for Option 2 Map	Which focus/option do you feel best serves students in the area?
10/28/2019 8:44	Ashford Park ES	Would relieve overcrowding at Cary Reynolds and Dresden	It doesn't seem the Ashford Park move would help with overcrowding. And I don't see why moves F and G need to happen.			
10/28/2019 8:53	Montgomery ES	<ul style="list-style-type: none"> Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact. 	<ul style="list-style-type: none"> Breaks up neighborhoods Sexton Woods & Gainsborough Subjects hundreds to multiple moves in the likely future redistricting in Chamblee (SHORTSIGHTED!!!) 	<ul style="list-style-type: none"> Relieves overcrowding as in Opt. 1 @ Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the LIKELY event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1. 	<ul style="list-style-type: none"> Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster 	Option 2 is less disruptive, HOWEVER Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed
10/28/2019 9:26	Montgomery ES	Splits up a ton of communities including a huge section of Sexton Woods	Same as above. Nothing positive to mention	Splits up less families in Sexton Woods. Would support this plan if the remaining students from Sexton Woods could stay at MES.	Still splitting our neighborhood.	Option 2 with the exception of not splitting Sexton Woods
10/28/2019 9:27	Montgomery ES	<ul style="list-style-type: none"> It relieves long standing overcrowding at Cary Reynolds and Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills and Doraville United Reunites apartment complex that is split between Montclair and Dresden keeping neighborhoods intact. 	<ul style="list-style-type: none"> Breaks up neighborhoods Sexton Woods and Gainsborough Requires Sexton Woods commute across less safe/busier path Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, and farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the future redistricting in Chamblee Cluster 	<ul style="list-style-type: none"> Relieves long standing overcrowding at Cary Reynolds, Dresden and Hightower Breaks up fewer neighborhoods Least disruptive option to MES and HHES Subjects less kids to multiple moves in the event of another redistricting effort in the future Reunites apartment complex as in Option 1 	<ul style="list-style-type: none"> Requires Sexton Woods to commute across a less safe/busier path, Peachtree Blvd Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster 	Option 2 relieves Carey Reynolds / Dresden and also provides relief to Hightower (it is least disruptive to the Chamblee Cluster). This is preferable given the likelihood of future redistricting in the cluster. However, to avoid breaking up established school communities / neighborhoods, SECTION D SHOULD REMAIN AT MES until overcrowding in the Chamblee Cluster can be holistically addressed.
10/28/2019 9:29	Ashford Park ES		The Ashford Park neighborhood should all remain at Ashford Park elementary school.		The Ashford Park neighborhood should all attend Ashford Park elementary school. Keep neighborhoods together.	Keeping neighborhoods together

Doraville United Elementary Redistricting Round 2 Community Input Survey

Recorded Date	Which school community do you represent?	Pros for Option 1 Map	Cons for Option 1 Map	Pros for Option 2 Map	Cons for Option 2 Map	Which focus/option do you feel best serves students in the area?
10/28/2019 10:14	Other	Moves less. How many trailers does Ashford Park have before and after? 15 is the net? It seems like a lot in either option. Why not move them North or to John Lewis? How many Cary Reynolds attend Oakcliff? Will they choose United instead? How does that affect Oakcliff? Do we know the real numbes? We need that data to see who is returning from Oak..	285 should be a natural border and barrier. Asking students to cross 285 twice a day is unfair. Why is Oakcliff off the table? Where is the data for Oakcliff? Why should "A" Cary Reynolds shift across a major highway that is going to be expanded and create even more traffic in a few years by the DOT when Oakcliff is w/in walking distance? Keep ITP.	na	Again, shifting students across a major highway (285) that is set to be under construction in a few years, and lasting 5 years, is not reasonable. Include Oakcliff in the conversation. Why do they get to avoid being affected in the most crowded areas of the region? Many at Oakcliff may return to their newly built school (ie. Pleasantdale & United).	Neither, we need a new superintendent to lead us and we need a cross regional comprehensive plan that fills empty seats towards the south, instead of asking parents to send our kids almost 4 miles away from our home over major highways! Do the right thing and keep us closest to our neighborhood school. Look at all the choice, theme & magnet schools. Give preference to those who moved in a zone.
10/28/2019 10:30	Montgomery ES	<ul style="list-style-type: none"> - Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact. - Relieves long standing overcrowding at Cary Reynolds & Dresden 	<ul style="list-style-type: none"> - Requires Sexton Woods commute across P-Tree presenting safety concerns -Sends Sexton Woods outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster - Breaks up neighborhoods Sexton Woods & Gainsborough -Subjects hundreds to multiple moves in the likely future redistricting in Chamblee 	<ul style="list-style-type: none"> - Relieves overcrowding at Cary Reynolds & Hightower - Reunites apartment complex as in Option 1 	<ul style="list-style-type: none"> -Small benefit of only 20 children moving from Montgomery and HH elementary does not outweigh con of breaking up neighborhood - Requires Sexton Woods to commute across P-Tree presenting safety concerns -Sends Sexton Woods across Peachtree to ES outside of their neighborhood and farther than two ES's within their cluster 	Neither, but Option 1 if any makes more sense.

Doraville United Elementary Redistricting Round 2 Community Input Survey

Recorded Date	Which school community do you represent?	Pros for Option 1 Map	Cons for Option 1 Map	Pros for Option 2 Map	Cons for Option 2 Map	Which focus/option do you feel best serves students in the area?
10/29/2019 10:36	Ashford Park ES		I have serious safety concerns on how my child will be picked up from section E and bused to the new Doraville School. We live on Dyer Cir. I do not see how a bus can safely pick my child up and make a left on Clarimont with out a traffic light. Our children will also be traveling further by bus on busier roads than any child on the map.		I have serious safety concerns on how my child will be picked up from section F and bused to the new Doraville School. We live on Dyer Cir. I do not see how a bus can safely pick my child up and make a left on Clarimont with out a traffic light. Our children will also be traveling further by bus on busier roads than any child on the map.	Please do not divide Ashford Park. Right now my child can safely walk to meet up with classmates. With the new proposed map, we will be isolated from Ashford park and do not live close to the population attending Doraville. In addition, due to traffic patterns on Clairmont, there will be serious safety concerns related to the bus route from Ashford Park back to Doraville.
10/29/2019 10:42	Ashford Park ES		My child is not impacted by these changes, by we do not want to see Ashford Park divided. We have heard through the grapevine (Ashford Park PTA) that you all are thinking about removing 10 kids from the Ashford Park neighborhood and sending them to the new Doraville school. We are a community and do not want to see it divided.		My child is not impacted by these changes, by we do not want to see Ashford Park divided. We have heard through the grapevine (Ashford Park PTA) that you all are thinking about removing 10 kids from the Ashford Park neighborhood and sending them to the new Doraville school. We are a community and do not want to see it divided.	Do NOT divide the community of Ashford Park. My husband and I will need to consider leadership changes during the next election cycle if you all make the decision to divide our community.
10/29/2019 11:31	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed
10/29/2019 11:55	Montgomery ES	NO PROS	LEAVE KIDS ALONE. POOR PLANNING AND FUTURE FORESIGHT WHEN BUILDING IS NOT THE FAULT OF THE STUDENTS	LESS IMPACT THAN OPTION 1	STILL VERY DISRUPTIVE> FIGURE OUT HOW TO PLAN FOR FUTURE GROWTH BEFORE BUILDING A NEW SCHOOL YOU HAVE TO NOW FIGURE OUT HOW TO FILL	OPTION 2
10/29/2019 12:14	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact	Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee clus	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be addressed
10/29/2019 12:16	Montgomery ES	1.Relieves long standing overcrowding at Cary Reynolds & Dresden 2.Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United 3.Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	1.Breaks up neighborhoods Sexton Woods & Gainsborough 2.Requires Sexton Woods commute across less safe/busier path - Peachtree. 3. Sends Sexton Woods across Ptree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster 4. Subjects hundreds to multiple moves in the likely future redistricting in Chamblee	1.Relieves long standing overcrowding at Cary Reynolds & Dresden 2.Also relieves overcrowding at Hightower 3.Breaks up fewer neighborhoods. 4.Least disruptive option to MES and HHES. 5.Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	1Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. 2Sends Sexton Woods across Ptree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster 3Still subjects MANY kids to multiple moves in the likely event of another redistricting in the Chamblee Cluster	Option 2 I feel keeps more of the neighborhood together. But, I am a new expecting mother, and my husband and I would hate to see our son not be able to go to school with his friends in the neighborhood. We just attended the Sexton Woods chili cookoff and seeing all the children playing with each other really made us excited to see (and made us more excited to bring a child into this neighborhood)
10/29/2019 13:35	Montgomery ES					Option 2 relieves Carey Reynolds + Dresden, also provides relief to Hightower + is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves + remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed

Doraville United Elementary Redistricting Round 2 Community Input Survey

Recorded Date	Which school community do you represent?	Pros for Option 1 Map	Cons for Option 1 Map	Pros for Option 2 Map	Cons for Option 2 Map	Which focus/option do you feel best serves students in the area?
10/29/2019 14:04	Ashford Park ES		We live in section E of the map. - You will split the community of Ashford park. Also, my child's commute be further than any other child on this map. - This change will have a minimal impact. Projected number of students is 18 but we believe at 8-10 are already in German immersion. - Safety concerns around the potential busing path / traffic		We live in section F of the map. - You will split the community of Ashford park. Also, my child's commute be further than any other child on this map. - This change will have a minimal impact. Projected number of students is 18 but we believe at 8-10 are already in German immersion. - Safety concerns around the potential busing path / traffic	Please remove part E (option 1) and F (option 2) from any proposal. We currently live .5 miles from Ashford park. Both proposals unnecessarily divide the community of Ashford park. My child currently can walk or ride his bike to his classmates house. Under the new proposal we will be isolated / separated by major roads (peachtree / clairmont) from our closest classmates.
10/29/2019 14:16	Montgomery ES	N/A	It doesn't make sense to split up neighborhoods among different schools.	Still not great, but with the stipulation that the 20 kids from Montgomery stay, this at least keeps neighborhoods intact.	Moving kids from schools they know and love will always be a con, but I understand sometimes there is a necessity. This seems the least disruptive of the options on the table with some minor tweaks.	I think option 2 is the better of the options on the table with the caveat that Sexton Woods neighborhood kids getting to stay so as not to divide what should be a singular area.
10/29/2019 14:42	Montgomery ES					Option 2
10/29/2019 14:45	Montgomery ES	Achieves the main objective - relieves overcrowding at Cary Reynolds and Dresden and fills the new school.	Causes undue disruption to the lives of kids in the Sexton Woods community, whose social lives revolve around MES. Addl' disruption due to future redistricting and returning to cluster for middle school. I'd much rather keep MES together as is (trailers and all) and address the issues in the next redistricting when MES is the primary objective.	Achieves the main objective for Cary Reynolds and Dresden. Minimizes the disruption for other school districts, in particular MES.	Causes undue disruption to the lives of kids in the Sexton Woods community, whose social lives revolve around MES. Addl' disruption due to future redistricting and returning to cluster for middle school. I'd much rather keep MES together as is (trailers and all) and address the issues in the next redistricting when MES is the primary objective.	Option 2
10/29/2019 14:50	Montgomery ES					Option 2
10/29/2019 14:54	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed
10/29/2019 14:59	Montgomery ES			Best option for Montgomery. We lost Nancy Creek.		Option 2
10/29/2019 15:09	Montgomery ES		Removes only a small amount of kids from Montgomery Elementary. Doesn't fix our overcrowding and disrupts families.		Removes only a small amount of kids from Montgomery Elementary so it wouldn't fix our overcrowding and it would disrupt these families when not really helping anything.	2
10/29/2019 15:13	Montgomery ES					Option 2
10/29/2019 15:16	Montgomery ES		Given the overcrowding at Montgomery and Huntley Hills, why is Kittredge not being repurposed as Nancy Creek Elementary with magnet program being moved given it is already a commuter school?	Better than option 1 but still does not address overcrowding at MES.		Option 2 (keeping MES families together) with future conversion of Kittredge.
10/29/2019 15:16	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed
10/29/2019 15:19	Montgomery ES					Option 1
10/29/2019 15:19	Montgomery ES	None	Splits apart Sexton Woods / Gainsborough Doesn't solve overcrowding Requires more challenging commutes	Helps overcrowding at Hightower	Breaks apart Sexton Woods neighborhood Requires Sexton Woods to cross Chamblee Dunwoody	Leave Montgomery district unchanged.

10/29/2019 19:41	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden. Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United. Reunites apartment complex that is split between Montclair & Dresden keeping neighborhood intact	Breaks up neighborhoods Sexton Woods & Gainsborough. Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster. Subjects hundreds to multiple moves in the likely future redistricting in Chamblee Cluster	Relieves long standing overcrowding at Cary Reynolds & Dresden. Also relieves overcrowding at Hightower. Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster. Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed
10/29/2019 20:07	Montgomery ES			Keeping neighborhoods intact and offering a sense of community to children and parent alike. No disruption of families, schedules and availability of school interaction.	None!	Keeping Montgomery and Huntley Hills students where they are - why bus 20 students and disrupt their family life and community?
10/29/2019 20:29	Ashford Park ES		Proximity of Ashford Park elementary for our area "E" is not even comparable to getting moved all the way to Doraville ES. Moving 18 students doesn't solve any overcrowding (esp since half are in GI and won't move anyways) but DOES isolate our students from their community of interest (friends, sports teams, church, etc)		Proximity of Ashford Park elementary for our area "E" is not even comparable to getting moved all the way to Doraville ES. Moving 18 students doesn't solve any overcrowding (esp since half are in GI and won't move anyways) but DOES isolate our students from their community of interest (friends, sports teams, church, etc)	Not moving the 18 students in group E (option 1), or F (option 2) and leaving them at Ashford Park.

10/30/2019 7:43	Montgomery ES	It provides relief for sections A, C, and E	Section D should NOT be taken out of the Montgomery School district. Those 20 kids are apart of our sexton woods neighborhood and it is vital that they remain intact. Montgomery has created a community of support within our neighborhood and dividing us would leave our families highly disrupted.	E1 is a good idea.	Section D should NOT be taken out of the Montgomery School district. One family in particular relies on our help in the neighborhood to assist their children because of health needs in the family. If they are taken out of Montgomery they loose their support system.	Keeping the ENTIRE neighborhood apart of the school zone
10/30/2019 8:52	Montgomery ES	Not sure	You are taking students from across Ptree Industrial to populate the new school and are transferring one small neighborhood and moving them from one overcrowded school to another. Doesn't solve the problem.		The attendance zone for Huntley Hills should stop at Peachtree Industrial, and Montgomery's should stop at Cham Dunwoody. The remaining students should attend the new school. Do not have the numbers by the neighborhood, but this should alleviate the overcrowding at those 2 schools while ensuring that the new school is utilized to full capacity.	Neither; both options do little to ease my school's over-capacity status
10/30/2019 8:56	Montgomery ES	i. Relieves long standing overcrowding at Cary Reynolds & Dresden i. Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United i. Doraville United Elementary Redistricting Round 2 Community Input Survey

Recorded Date	Which school community do you represent?	Pros for Option 1 Map	Cons for Option 1 Map	Pros for Option 2 Map	Cons for Option 2 Map	Which focus/option do you feel best serves students in the area?
10/30/2019 17:12	Ashford Park ES	APES-no pros exist. See cons.	APES-Negates prim crit 1; sec crit 1, 5, 6. Does not help overcrowding. Bus pick up will be way too early for ES age kids bc most already catching at 6:30 to go less than mile so travel to Doraville would be long and way too early!	APES-no pros exist. Does nothing to impact overcrowding- only splits up neighborhood and puts walking students helping environment into long commutes into parent cars or buses. See cons.	APES-see opt 1 cons. Doraville not local for anyone living in Brookhaven/Chamblee-residents have no reason to go to Doraville ever! It's not their community. Makes no sense to take such a small group of AP and make them outcasts in current community & outsiders in new community they aren't close to or invested in. We live in AP partly for APES.	None
10/30/2019 17:17	Montgomery ES	<ul style="list-style-type: none"> Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact. 	<ul style="list-style-type: none"> Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects 100s to multiple moves in the likely future redistricting in Chamblee 	<ul style="list-style-type: none"> Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1. 	<ul style="list-style-type: none"> Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1. 	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed
10/30/2019 17:45	Montgomery ES	<ul style="list-style-type: none"> Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact. 	<ul style="list-style-type: none"> Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee Cluster 	<ul style="list-style-type: none"> Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. 11/2/2019 8:01	Montgomery ES	Better neighborhood consolidation for Doraville ES	More families impacted	Less families impacted		Option 1

Doraville United Elementary Redistricting Round 2 Community Input Survey

Recorded Date	Which school community do you represent?	Pros for Option 1 Map	Cons for Option 1 Map	Pros for Option 2 Map	Cons for Option 2 Map	Which focus/option do you feel best serves students in the area?
11/2/2019 8:24	Montgomery ES	relieves longstanding overcrowding at cary reynolds & dresden. makes peachtree industrial a safer boundary between huntley hills & doraville united. reunites apartment complex that is split between montclair & dresden, keeping neighborhoods intact.	breaks up neighborhoods sexton woods & gainsborough. requires sexton woods commute across less safe/busier path - Peachtree. sends sexton woods across Peachtree, outside of their neighborhood, middle/high school cluster, and farther than 2 schools in cluster. subjects hundreds to multiple moves in the likely future redistricting in chamblee cluster	relieves longstanding overcrowding at cary reynolds & dresden. also relieves overcrowding at hightower. breaks up fewer neighborhoods. least disruptive to MES and HHES. subjects less kids to multiple moves in the likely event of another redistricting effort in foreseeable future. reunites apartment complex as in option 1	requires sexton woods to commute across a less safe/busier path, Peachtree Blvd. sends sexton woods across peachtree to ES outside of their neighborhood and middle/high school cluster and farther than two other E schools. still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee cluster.	option 2 relieves cary reynolds & dresden, also provides relief to hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed.
11/2/2019 8:46	Montgomery ES	Looks good	None	Not much difference		Geography
11/2/2019 8:47	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden. Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United. Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough. Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster. Subjects hundreds to multiple moves in the likely future redistricting in Chamblee	Relieves long standing overcrowding at Cary Reynolds & Dresden. Also relieves overcrowding at Hightower. Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster. Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster.	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; HOWEVER to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed.
11/2/2019 9:03	Montgomery ES					Option 2
11/2/2019 9:15	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed
11/2/2019 10:28	Montgomery ES					Option 2. However, no students should be moved.
11/2/2019 10:32	Montgomery ES		The location of the families from MES that are affected creates an unreasonable distance from the feeder school.		While these MES families are closer to Cross Keys than in Option 1, the 20 families from MES should not be included in the transition.	Option 2, but without moving the 20 MES families.
11/2/2019 10:47	Ashford Park ES	We won't be affected by this change	We're sure some of the families in the north side of the Ashford Park district that are being redistributed to the new school will be upset about taking their children away from the community school they are currently enrolled in affecting their social development.		How does redirecting 18 students from ashford park to the new school alleviate overcrowding?	
11/2/2019 10:50	Montgomery ES	There are no pros	Too many families are impacted	Impacts less families	You are still displacing 20 kids	Keep the kids in their current schools
11/2/2019 11:54	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden. Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United. Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough. Requires Sexton Woods commute across less safe/busier path-Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster. Subjects hundreds to multiple moves in likely future redistricting in Chamblee Cluster.	Relieves long standing overcrowding at Cary Reynolds & Dresden. Also relieves overcrowding at Hightower. Breaks up fewer neighborhoods. Least disruptive option to MES & HHES. Subjects less kids to multiple moves in the like event of another redistricting effort in foreseeable future. Reunites apartment complex in Option 1.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster. Still subjects MANY kids to multiple moves in likely event of another redistricting in Chamblee Cluster.	Option 2
11/2/2019 12:05	Montgomery ES					Option 2
11/2/2019 13:04	Montgomery ES					Option 2
11/2/2019 13:54	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee Cluster	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed

Doraville United Elementary Redistricting Round 2 Community Input Survey

Recorded Date	Which school community do you represent?	Pros for Option 1 Map	Cons for Option 1 Map	Pros for Option 2 Map	Cons for Option 2 Map	Which focus/option do you feel best serves students in the area?
11/2/2019 14:17	Montgomery ES	<ul style="list-style-type: none"> Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact. 	<ul style="list-style-type: none"> Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee 	<ul style="list-style-type: none"> Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. 11/2/2019 14:20	Montgomery ES	Does relieve pressure on Dresden and Cary Reynolds.	Splits the very socially united Gainsborough neighborhood. Gainsborough West and East consider themselves one neighborhood, share a swim/tennis, and participate in all school and sporting events. Directing Gainsborough East to Huntley Hills is a HUGE traffic issue, as it routes along 285/Savoy when traffic is horrible (vs. backroads to MES).	Effectively relieves overcrowding for most schools on Eastern side of the district. Is far less disruptive to existing populations of most schools, has less traffic impact (fewer kids being dragged from western edge of district and across major roads), and keeps Gainsborough neighborhood and Montgomery population largely intact.	Far fewer cons than Option 1.	2
11/2/2019 15:21	Montgomery ES	<ul style="list-style-type: none"> Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact. 	<ul style="list-style-type: none"> Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. 11/2/2019 16:25	Montgomery ES					Option 2
11/2/2019 16:48	Montgomery ES	None	Breaks up very strong community - kids play sports, do scouts, same swim club and team, regularly socialize with, and have many other activities with MES community. Fellow parent support eco-system would be torn apart. Location looks shorter on the map - IS NOT - additional burden to the already chaotic increasing traffic of the Savoy and Chaml HS	Keeps together strong community. Avoids significant additional burden to the already chaotic and increasing traffic of the Savoy/Chamblee-Dunwoody/285/Catillion intersections and Chamblee-Dunwoody Rd south near Chamblee HS. Our MES community is fine with the current trailer situation	very few. we need to leave entire MES area alone including the Sexton Woods area.	Option 2 or additional option that leaves Montgomery ES as is

Doraville United Elementary Redistricting Round 2 Community Input Survey

Recorded Date	Which school community do you represent?	Pros for Option 1 Map	Cons for Option 1 Map	Pros for Option 2 Map	Cons for Option 2 Map	Which focus/option do you feel best serves students in the area?
11/2/2019 16:50	Montgomery ES		I do not like splitting up the Sexton woods neighborhood. It doesn't make since for the small amount of kids that would be moved. This doesn't address any long term issues.	I prefer this option but I still do not like splitting up the Sexton woods neighborhood. It doesn't make since for the small amount of kids that would be moved. This doesn't address any long term issues		Option 2
11/2/2019 17:41	Ashford Park ES		It takes 18 children from the Ashford Park community and puts them in a new school. That low number will have no impact on relieving overcrowding at Ashford Park Elementary but will disrupt these students' and their families' lives.		Same as Option 1.	
11/2/2019 18:02	Montgomery ES	'-Relieves long standing overcrowding at Cary Reynolds & Dresden -Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United -Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	My house has the 2 kids on Keswick Drive that will be the only 2 kids on their street pulled out of the community. The other kids in those 10 houses go to private school, no projected increase in students. There are 2 ES's in their cluster feeding CMS/CCHS that are closer. We depend on carpool with neighbors in Keswick Village & feel part of that	Relieves long standing overcrowding at Cary Reynolds & Dresden Relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within cluster Subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster. Not much growth projected @SW	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed
11/2/2019 18:06	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee Cluster	Relieves long standing overcrowding at Cary Reynolds & Dresden & Hightower Breaks up fewer neighborhoods Least disruptive to MES and HHES Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed
11/2/2019 18:22	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed
11/2/2019 18:27	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds and Dresden. Makes Peachtree Industrial a safer boundary between Huntley Hills and Doraville United. Reunites apartment complex that's split between Montclair and Dresden - keeping neighborhoods intact	We have only 2 kids in zone D houses on Keswick Drive that are excluded from the Keswick Drive Community - the rest of the kids are in private school so no projected growth. Breaks up neighborhoods Sexton woods and Gainsborough Requires Sexton woods commute across a less safe/busier path - Peachtree Sends Sexton woods across Peachtree	Relieves long standing overcrowding at Cary Reynolds, Dresden and Hightower. Breaks up fewer neighborhoods. Least distrusting to HHES and MES. Reunites apartment complex as in option 1	Requires Sexton Woods across a lesser safe path - Peachtree Blvd. still subjects many kids to multiple moves. The likely event of another redistricting in Chamblee cluster	Option 2
11/2/2019 18:39	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee C	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed

11/2/2019 21:42	Montgomery ES			We want to keep our community together		Option2
11/2/2019 21:43	Montgomery ES		Crosses into East Nancy Creek Rd. That should always remain in the Montgomery school district	Least destabilizing. Prefer this one strongly.		Option 2
11/2/2019 21:44	Montgomery ES		Does very little to relieve overcrowding. Separates neighborhoods, causing carpool and after school difficulties for families that currently carpool. Separation also splits up kids who play together and spend their summers together. Increases traffic on Chamblee Dunwoody and Savoy. So few kids being moved that it doesn't help the situation.	Keeps neighborhoods together, thus keeping friendships/carpooling in place. Does not cause extra traffic stress on Chamblee Dunwoody and Savoy. Fills new schools and relieves pressure on a few of the over crowded schools.		Two
11/2/2019 21:56	Montgomery ES		More disruption for students without relieving overcrowding.	Less disruption than option 1.	Disruption for students to move elementary schools out of Montgomery while still attending Chamblee Middle and High. Specifically for Section D and the homes on Keswick Drive overlooking the park.	Option 2
11/2/2019 21:59	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds and Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainesborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster and farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee Cluster	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed

Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee 	<ul style="list-style-type: none"> Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1. 	<ul style="list-style-type: none"> Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster 	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed

Doraville United Elementary Redistricting Round 2 Community Input Survey

Recorded Date	Which school community do you represent?	Pros for Option 1 Map	Cons for Option 1 Map	Pros for Option 2 Map	Cons for Option 2 Map	Which focus/option do you feel best serves students in the area?
11/3/2019 11:46	Montgomery ES	Peachtree Industrial becomes a boundary so children don't need to cross it.	People responsible for drawing lines obviously didn't take proper count because there are only 2 Keswick Park kids that would move from MES to DUE and this causes more disruption than help. Also, you are asking community to trust future quality of Dekalb school which doesn't have positive track record. School board is failing.	Ruins fewer children's friendships than Option 1. Less disruption to MES and HHES which contribute less to crowding problem.	2 kids will be affected thus not making sense to uproot 2 kids.	2. Lesser of two evils.
11/3/2019 12:09	Montgomery ES		Breaks up neighborhoods Sexton Woods Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee Cluster		Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	neither as both options have Sexton Woods to be redistricted
11/3/2019 14:00	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee Cluster	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed
11/3/2019 14:05	Huntley Hills ES	Gets the new Doraville United close to capacity	Montgomery still overcrowded with no plan to alleviate that overcrowding. Takes a small portion of Sexton woods to the new elementary, and would leave those families isolated and disgruntled. Why not take all of sexton woods/keswick village to the new Doraville Utd. to achieve full capacity, keep neighbors together, relieve overcrowding at Montg.	Keeps Huntley Hills more fully together, keeps more socioeconomic and racial diversity together at HH, which makes HH an amazing community and school. We believe socioeconomic diversity provides tangible opportunities for disadvantages kids to succeed and move out of poverty, and moves advantaged kids to be more loving and thoughtful citizens	Same as option 1, w/ only taking part of sexton woods and keswick village, and misses an opportunity to make Doraville United a more socio-economically diverse and positive and formative school experience for the advantaged and disadvantaged communities. Moving all of Sexton Woods would create real diversity.	Option 2
11/3/2019 15:30	Montgomery ES		I would prefer Sexton Woods to not be split up between neighbors. People living across the street from some would go to different schools and does not make sense. Please keep them in the Montgomery district.	This is a better option, but still splits the neighborhood.	I would prefer Sexton Woods to not be split up between neighbors. People living across the street from some would go to different schools and does not make sense. Please keep them in the Montgomery district.	My focus is on Sexton Woods neighborhood and neighbors who have moved here to be at Montgomery.
11/3/2019 16:13	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee Cluster	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed
11/3/2019 16:31	Montgomery ES		Splitting Sexton Woods and separating neighbors is an extremely poor idea - from my understanding it impacts some 20 children. Small benefit but large cost!		Splitting families in Sexton Woods is an extremely poor idea. Close neighbors should go to the same elementary school.

Doraville United Elementary Redistricting Round 2 Community Input Survey

Recorded Date	Which school community do you represent?	Pros for Option 1 Map	Cons for Option 1 Map	Pros for Option 2 Map	Cons for Option 2 Map	Which focus/option do you feel best serves students in the area?
11/3/2019 23:36	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee Cluster	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically a
11/3/2019 23:59	Montgomery ES	Successfully relieves overcrowding at Cary Reynolds and Dresden ES.	Breaks up Sexton Woods neighborhood, violating DeKalb's secondary criterion of intact neighborhoods. Sends Sexton Woods kids across Peachtree Industrial Blvd to school, violating secondary criterion of safety. Removes current and future MES and many other students outside the Chamblee cluster, violating criterion re: feeder schools.	Successfully relieves overcrowding at targeted schools Dresden and Cary Reynolds. Also relieves crowding at Hightower. Splits up fewer neighborhoods in line with secondary criterion of intact neighborhoods.	Breaks up Sexton Woods neighborhood, violating DeKalb's secondary criterion of intact neighborhoods. Sends Sexton Woods kids across Peachtree Industrial Blvd to school, violating secondary criterion of safety. Removes current and future MES and many other students outside the Chamblee cluster, violating criterion re: feeder schools.	Option 2 relieves overcrowding at the most schools and disrupts fewer neighborhoods. I strongly feel Area D should stay at Montgomery until DCSD can develop a more holistic solution for overcrowding in the Chamblee cluster. Redistricting Area D violates the criteria of safety, intact neighborhoods, and feeder school alignment to save 20 spots at a school overenrolled by 100s. It doesn't make sense
11/4/2019 9:06	Montgomery ES		2) Cons for Option 1 Map (350-character max) Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple			
11/4/2019 9:06	Montgomery ES	Relieves overcrowding	Breaks up Sexton woods	Better than option 1	Still breaks Sexton Woods off from MES	Option 2
11/4/2019 9:06	Montgomery ES	Class sizes will be smaller	Not fair to have neighborhoods divided. I would hate for that to happen to our neighborhood. And to take kids that have been with their friends away from each other.	Keep neighborhoods together for Montgomery ES	Still overcrowding at MES	Option 2
11/4/2019 9:06	Montgomery ES	None.	I am very much opposed to the redistricting plan. For most of the schools, it accomplishes little other than shuffling students around and decreasing their overall safety. It also adds significant traffic disruption to several local neighborhoods. I will actively campaign against any elected official that supports it.	None.	I am very much opposed to the redistricting plan. For most of the schools, it accomplishes little other than shuffling students around and decreasing their overall safety. It also adds significant traffic disruption to several local neighborhoods. I will actively campaign against any elected official that supports it.	Neither.
11/4/2019 9:06	Montgomery ES		Breaks up Montgomery elementary but does not solve the overcrowding issues there	Less disruption to Montgomery	Impacts 20 families at Montgomery and does not help with overcrowding. Keep these 20 families at Montgomery please!	2
11/4/2019 9:06	Montgomery ES			least amount of transition for montgomery families	displacement for 20 families	option 2
11/4/2019 9:06	Montgomery ES	Relieves long standing overcrowding at Cary Reynolds & Dresden Makes Peachtree Industrial a safer boundary between Huntley Hills & Doraville United Reunites apartment complex that is split between Montclair & Dresden keeping neighborhoods intact.	Breaks up neighborhoods Sexton Woods & Gainsborough Requires Sexton Woods commute across less safe/busier path - Peachtree. Sends Sexton Woods across Peachtree, outside of their neighborhood, Middle/High School cluster, & farther than 2 ES's in their cluster Subjects hundreds to multiple moves in the likely future redistricting in Chamblee	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	Option 2 relieves Carey Reynolds & Dresden, also provides relief to Hightower & is least disruptive to the Chamblee Cluster now, which is preferable given the likelihood of future redistricting in the cluster; however, to avoid multiple moves & remain consistent with DCSD redistricting criteria, Section D should remain at MES until overcrowding in Chamblee Cluster can be holistically addressed

Doraville United Elementary Redistricting Round 2 Community Input Survey

Recorded Date	Which school community do you represent?	Pros for Option 1 Map	Cons for Option 1 Map	Pros for Option 2 Map	Cons for Option 2 Map	Which focus/option do you feel best serves students in the area?
11/4/2019 9:06	Montgomery ES			Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future. Reunites apartment complex as in Option 1.	Requires Sexton Woods to commute across a lesser safe/busier path, Peachtree Blvd. Sends Sexton Woods across Peachtree to ES outside of their neighborhood and Middle/High School cluster, and farther than two ES's within their cluster Still subjects MANY kids to multiple moves in the likely event of another redistricting in Chamblee Cluster	2
11/4/2019 9:06	Montgomery ES					Option 2
11/4/2019 9:06	Montgomery ES		Breaks up neighborhoods - Gainsborough and Sexton Woods Requires Gainsborough and Madeline Parc to travel down interstate service road, Savoy Drive, for school that impacts traffic in that area. Subjects large number of students to future redistributing.	Relieves long standing overcrowding at Cary Reynolds & Dresden Also relieves overcrowding at Hightower Breaks up fewer neighborhoods. Least disruptive option to MES and HHES. Subjects less kids to multiple moves in the likely event of another redistricting effort in the foreseeable future.		Option 2
11/4/2019 9:06	Montgomery ES		Cut off contiguous Gainsborough East from neighboring school. Also, special needs in Gainsborough East will not have the same IEP services		Please do not exclude those in Sexton Woods from splitting from their other neighbors who go to MES. This is a split feeder and cms is in their backyard/ down the street	Option 2
11/4/2019 9:06	Ashford Park ES	N/A	Wont reduce overcrowding at APES. Blatant favoritism toward AS kids living closer to J Lewis (.2 mi) so they can go to AS > 1 mi away while changing students less than mi from AS to 3-5 miles out of city & neighborhood they're in. Pls redistrict those on Bamby, Carlton, etc., East of Clairmont to J. Lewis as should've been done last time. See opt 2.	N/A	See Opt 2 cons. Breaking up neighborhoods is never right, but at least base it on distance kids live to school-crit 1. No kid living w/in 1 mi of school should be bused to other ES at 6am when he can walk to closer ES. There are kids who live under mile from J Lewis who should be going there which would reduce overcrowd at ASES. J Lewis isn't over.	neither really
11/4/2019 9:06	Other		Need a new superintendent and a district-wide redistricting plan before any major redistricting occurs. Consider returning Oakcliff to a neighborhood school and moving the theme program to Pleasantdale. Many of the Pleasantdale area sends their kids to Oakcliff already (150 students) and they can continue the theme program closer to home this way.		Return Oakcliff to a neighborhood school to keep kids close to their home and school. Move the "theme" program to Pleasantdale to fill seats. 150 PES students attend Oakcliff already and moving it to PES keeps them closer to home and opens up seats for the students that live close to Oakcliff which is much closer for those that live north of 285.	None. If you don't reconsider using Oakcliff it requires too many students north of 285 to have to travel too far. Use 285 as a geographic boundary. Move the theme program to PES which has been losing enrollment (to Oakcliff and other choice schools) for years now. Long term planning is needed!
11/4/2019 9:06	Cary Reynolds ES	It's less disruptive to neighborhoods. It gives relief to Hightower ES	It doesn't relieve Ashford Park			
11/4/2019 9:06	Montgomery ES	easy to determine division along PIB	splits up neighborhoods sends Sexton Woods kids outside of their middle/high school clusters makes no sense to send Sexton Woods and Gainsborough kids across PIB to Doraville ES when HH			
11/4/2019 9:06	Montgomery ES	It relieves overcrowding at Montgomery	It doesn't take that many kids out, it needs to take more kids from Sexton woods	None	Does not relieve overcrowding at MES	Option1

Doraville United Elementary Redistricting Round 2 Community Input Survey

Recorded Date	Which school community do you represent?	Pros for Option 1 Map	Cons for Option 1 Map	Pros for Option 2 Map	Cons for Option 2 Map	Which focus/option do you feel best serves students in the area?
11/4/2019 9:06	Montgomery ES	Does have a positive impact on Cary Reynolds and Dresden.	Splits the very socially united Gaisborough neighborhood. Gainsborough West and East consider themselves one neighborhood, share a swim/tennis, and participate in all school and sporting events together. Directing Gainsborough East to Huntley Hills is a HUGE traffic issue, as it routes along 285/Savoy when traffic is horrible.			
Recorded Date	Which school community do you represent?	Pros for Option 1 Map	Cons for Option 1 Map	Pros for Option 2 Map	Cons for Option 2 Map	Which focus/option do you feel best serves students in the area?
10/16/2019 15:23	Montgomery ES	Only 6 portable classrooms left	None	None	Nothing really changes regarding the overcrowding	2
10/16/2019 16:06	Montgomery ES	relieves overcrowded school	This would move my house from montgomery to Doraville united district, while the rest of the street that i live along (Keswick Drive) is not moving. This would be very unfortunate for my children to not go to school with their neighbors, also there is no street access to the rest of the Doraville district from our house.	relieves overcrowding, keeps my street intact with our neighbors along Keswick Drive. My children would be going to school with the other children on our street. The School bus would come by our house and we live closer to the school that we are districted for.	There is still some overcrowding.	Option 3
10/16/2019 16:16	Ashford Park ES		This cuts off our community from ashford park elementary, which historically has been included with the surrounding areas that remain in that district and redistricting would require the crossing of several key dangerous roads (Peachtree industrial, clairmont, etc) for my child to get to school, further creating an unsafe travel environment.		This option also eliminates my neighborhood from ashford park elementary, which has historically been included in this district with the other districts that still remain in this area and would create an unsafe environment for travel to school as my child would have to cross several dangerous roads (Peachtree industrial, clairmont, Buford, etc).	Frankly neither
