

Recorded Date	Which school community do you represent?	Pros for Staff Recommended Plan	Cons for Staff Recommended Plan	What other items relating to the Board-approved criteria should the Superintendent consider as he develops the Superintendent Recommendation to the Board?
11/18/2019 19:19	Oak Grove ES	Involves fewer schools and children and focuses on those closer to the new elementary school		
11/19/2019 14:46	Evansdale ES		<p>Divides Evandale community.</p> <p>You are disrupting two communities instead of just one if you just move Embry Hills to Pleasantdale.</p> <p>A1 creates major traffic concerns for busses and families having to turn left into Chamblee Tucker road.</p> <p>Families that have invested in the Evansdale French Immersion program are now being split up.</p>	Why would you want to create this much disruption to communities? The most current plan fir A1 goes against every consideration you all said Was important. Keeping neighborhoods intact, safer traffic patterns, etc. it really feels like Yuu took one set of problems and just dumped it on another community. Shame on you Dekalb!
11/19/2019 15:04	Evansdale ES	There are no pros	<p>Moving students from A1 and A2 that can presently walk to school, miles away. Moving HMES students into EES instead of keeping EES the same. Traffic and difficulty getting to PES for A1 and A2. Students in special programs like immersion and STEAM not wanting to lose the program. Splitting up neighborhoods in A1 and A2.</p>	Oakcliff should move not EES or HMES
11/19/2019 15:10	Evansdale ES		Breaks up our neighborhood school	
11/19/2019 15:10	Evansdale ES	In theory, Evansdale will have 36 fewer students if staff recommendations are implemented.	<p>Of the 170 Evansdale students moving to Pleasantdale, how many are French Immersion? Are they grandfathered in at ES or does the program move? Neighborhood is split in half. My kids can currently walk/bike to school. No chance of that to Pleasantdale.</p> <p>Huge traffic/safety concerns about the commute to/from Pleasantdale on Chamblee Tucker Rd.</p>	How about taking in the concerns of the community? The latest staff recommendations came out of the blue.
11/19/2019 15:14	Evansdale ES	There are no pros these plan is terrible	You are splitting a tight night school community in half across a boarder that does not make any sense. This will increase traffic tremendously in the evansdale area during the morning. This is going to decrease home values for people who have paid a premium to live in the evansdale district. There is noone in the community who wants this to happen	A new staff in charge of creating these plans
11/19/2019 15:17	Evansdale ES	None	Dangerous traffic pattern from A1 and A2 areas to get to Pleasantdale. Especially those in A1 area have to travel 1 mile in the opposite direction toward Evansdale only to have to turn and drive another extra mile toward a safe traffic light to get to Pleasantdale. Makes no sense at all.	Consider Oakcliff area and Livsey (Example: Westwood/Wanda Woods and Britt Road area) back into the Pleasantdale dist. where they used to be. Put the original district back into place. Evansdale IS NOT overcrowded; Livsey Elem. is overcrowded. Don't play school attendance dominoes just to fill a school that is now too large. Don't split neighborhoods!!
11/19/2019 15:22	Evansdale ES	None	This will tear Evansdale elementary neighborhood in half. Neighbors ultimately will go to separte schools depending on which side of the street they live on. Many of us are in this neighborhood specifically for Evansdale elementary and this change is taking that away from us.	Many families from this neighborhood are what keeps Evansdale thriving. From our participation in PTA, Our involvement and enrollment in the French immersion program. I feel a closer look should be taken on the immersion students and where they live. With this change, I feel the numbers enrolled in the immersion program will drastically drop!
11/19/2019 15:24	Evansdale ES	There is not benefit in this proposal.	<p>There are definitely more cons than anything.</p> <p>Traffic</p> <p>Splits a neighborhood</p> <p>More driving</p> <p>Who drew this lines? Doesn't make sense.</p> <p>Losing after school programs.</p>	To please leave everything that way it has been.
11/19/2019 15:28	Oak Grove ES	Moves less students. Meets more criteria (geographic proximity	None	Please leave Oak Grove unchanged.
11/19/2019 15:30	Evansdale ES		Dividing local neighbors is ridiculous. Why not move back the students you moved from Pleasantdale years ago? Keep neighborhoods intact and attending the same school.	

11/19/2019 15:32	Evansdale ES	Alleviates some overcrowding.	Splits up Evansdale, not good for neighborhood or property values who bought in this neighborhood for Evansdale school. Creates traffic issues on Evans Rd for Henderson Mill kids, and on Chamblee Tucker for neighborhood kids now having to travel miles away. No more walking to school for those families.	Neighborhood dynamics, traffic concerns, splitting up LITERALLY streets for the new map.
11/19/2019 15:32	Evansdale ES	Gerrymandering works in favor of Pleasantdale, brings higher income families to the school while keeping high income families at Evansdale. If you steal kids from other schools it makes the county not look so stupid for building a school they didn't have bodies to put in in the first place	Neighborhoods are being split in half, divided by house value/size. Gerrymandering is illegal and I don't see how this plan isn't. There is no reason my particular neighborhood is being singled out when geography and traffic point to Evansdale being best for us.	There is no superintendent and I don't think redistricting with a place holder is wise. This decision feels shortsighted and doesn't solve the long term issues
11/19/2019 16:01	Evansdale ES	I don't see any pro's for recommended plan and it still doesn't fully FIX the problems!!	We bought our house specifically to be in the Evansdale school district as I would imagine most other young families so now with the proposed changes we lose our preferred school - that's insanely unfair!!!! We will be pulling out all together and forced into private school.	
11/19/2019 16:06	Evansdale ES		Neighborhood separation along Evans road Physical proximity to Pleasantdale is not equal safest route - Chamblee-Tucker is a busy road and travel time to Pleasantdale is longer, while to get to Evansdale there is a possibility of using back roads Heavier load of Evans road due to transferred students from Henderson Mill	
11/19/2019 16:07	Evansdale ES	The map makes sense, but dividing up neighborhoods in this manner does not.	Divides neighborhood and community. Removes students from long-attended French Immersion program and sends them to a Spanish program.	Division of neighborhoods removes community element of the schools, and removes active and engaged parents.
11/19/2019 16:09	Evansdale ES	None	I currently have a kindergartener(not in French immersion) and a 4th grader(in French immersion)at Evansdale. If the proposed plan were to go through,my 4th grader would be allowed to continue at Evansdale, but my kindergartener would not. No bus transportation for my 4th grader would be a big problem as would having my kids at different schools.	There is no rhyme or reason to the proposed map outline. Our neighborhood would be divided. I would be paying higher property tax to live in this neighborhood but not getting the luxury of my children going to the appropriate school that we were originally zoned for.
11/19/2019 16:16	Evansdale ES		Evansdale neighborhood will be divided, French immersion program at risk	
11/19/2019 16:29	Evansdale ES	THIS PLAN IS AN IRRESPONSIBLE AND UNACCEPTABLE SOLUTION TO SOLVING THE ISSUES AT PLEASANTDALE ELEMENTARY.  It unfairly and ineffectually targets a small neighborhood surrounding Evansdale to appease parents of students who do not have a school within WALKING distance of their house.  DO NOT RECOMMEND THIS PROPOSAL AS IS.	-NEGATIVE impacts on students in the south A1 who can walk to E-dale using ONLY neighborhood streets -students will be subjected to TRAFFIC AND SAFETY concerns on Chamblee Tucker and Evans Rd - proposal diverts kids out of NEIGHBORHOOD school, but BUSES in >100 kids outside neighborhood adding traffic (not efficient nor economical) -divides nhood	1) students of A1/Edale who can walk to either Livsey or Evansdale but will be forced to be bussed on a busy/dangerous 4 lane road to school. 2) By dividing Edale we add traffic/safety concerns on Evans and destroy community 3)#s do not account for French immersion-will likely overcrowd Edale for first 4 years
11/19/2019 16:32	Evansdale ES	None, this makes no sense whatsoever. There are NO pros.	1. This plan unnecessarily breaks up our neighborhood, in particular, A1. 2. It creates traffic issues on both Chamblee-Tucker and Evans Rd. and makes walking to school impossible for many. 3. Without established leadership and sound financial information, you must delay.	Removing students from Evansdale, then adding them to Evansdale from Henderson Mill is ridiculous.
11/19/2019 16:52	Evansdale ES	NONE!	You're destroying neighborhoods. Kids who live across the street from each other will go to diff schools. This makes NO sense. I've never seen a plan like this to ruin neighborhood relationships. I've lived in other counties in Atlanta metro. This is Terrible!!	Keep children together. Don't ruin neighborhoods. Pull from Northcrest and nearby neighborhoods.

11/19/2019 17:13	Evansdale ES	None	Evansdale is overcrowded because you previously moved Pleasantdale students INTO EES. Move those back and your problem is solved. Families on streets you want to remove are highly involved at EES and have long histories of service. Disrupting long-held attendance lines to fix the problem you created with the last redistricting is unconscionable.	
11/19/2019 17:13	Evansdale ES	Some balancing of enrollment	Does not consider proximity of portions of Evansdale neighborhood to school via neighborhood streets. Does not consider enrollment that will stay at Evansdale because of French Immersion. Shifts Embury Hills to Evansdale by displacing Evansdale neighborhood to Pleasantdale, resulting in a net negative impact.	Keeping neighborhood intact to foster local relationships
11/19/2019 17:29	Evansdale ES		Safety and traffic implications due to traveling farther and crossing major roads/intersections (instead of bike/walking to school in neighborhood). Evansdale French immersion program will be lost to families (mine included) redistricted for Pleasantdale. Splitting established friends/community/neighbors can negatively impact student mental health.	Geographic proximity - Area A1 is closer to Evansdale than Pleasantdale, why is it incorporated into the Pleasantdale area? Can students in the Evansdale french immersion program, impacted by redistricting, stay (grandfathered in) at Evansdale with younger siblings remaining eligible for the french immersion program at Evansdale as well?
11/19/2019 17:50	Evansdale ES			
11/19/2019 17:59	Evansdale ES	None for my family.	The new elem. school is further from my house than the current one. We moved to this neighborhood last year with the expectation/intention of sending our child to Evansdale b/c of the families we know in our local community and the excellent faculty/staff/leadership.	
11/19/2019 18:01	Evansdale ES	A2 is the only pro for this plan. It makes sense to move the apartment and multi family residences to Pleasantdale. Many families who live in apartments are transient and leaving room for growth at Pdale. A2 keeps traffic patterns at a manageable level and keeps the current Evansdale neighborhood including Wembly Forest and Menlo in tact!!!!	A1 breaks up our community. You will damage a wonderful thriving community with A1, which is unnecessary. A1 is a major safety concern as well. Turning left out of Wembly Forest is already dangerous, adding more cars and school buses will make this problem worse. If students are bused in from A2 they have the stop light at Chamblee Tucker, we dont!	Pull students from oakcliff that are ALREADY in the pdale district! Make a wise choice and form a more comprehensive plan next year or the year after.
11/19/2019 18:08	Evansdale ES	None	Will only serve to break up neighbors and community while unnecessarily jeopardizing student safety by forcing children across Chamblee Tucker road during peak traffic times.	Common sense
11/19/2019 18:09	Evansdale ES	Intact neighborhoods (Alturas Embury Hills, Henderson Walk, etc.) that were redistricted from Pleasantdale to Evansdale approximately 8 years ago due to Pleasantdale overcrowding would return to Pleasantdale to ease the burden on Evansdale.	Map A1 splits our Evansdale neighborhood. Children who can currently walk/ride bikes to school or travel in cars that don't even have to go through a stop light would now have to travel on much busier roads. I believe a portion of the # of students on A1 are in the French immersion program so the # moving would be smaller than projected.	Keep neighborhoods intact. Keep school traffic within the neighborhood. Keep kids in the closer school.
11/19/2019 18:36	Evansdale ES			Looks like it would make more sense to put C in the pleasantdale school district the either of the As. That would equal numbers that need to move and keep communities more consistently together
11/19/2019 18:46	Evansdale ES	None	Breaks up neighborhood. Messes with structure of French immersion program. Students who could walk to Evansdale will now have to drive. Added congestion from Evansdale area to Chamblee Tucker road. All of this is not worth losing 2 trailers. The actual number that you are publicizing on who would be moving is skewed because of magnet students	Strong state recognized French immersion program. Understand that students can still apply to go there, but what if they have siblings that aren't in the program? It would split them up. Also we have a strong community that makes up our large neighborhood that identify as Evansdale. We would lose much of our identity, with that many students moving
11/19/2019 18:53	Evansdale ES	I do not have any pros for the plan shown above.	It seems crazy to move students out of Evansdale into Pleasantdale only to move students from Henderson Mill into those recently vacated seats. Why move 2 groups? In addition, the Evansdale students who move have to travel twice as far to a new school and cross Chamblee Tucker. They can never walk or bike to school. The E neighborhood will not exist	Our community will be split. It will be hard to meet neighbors when not in the same school. Also, Gladney has a deep ravine in the middle, so we can't even walk to our closest school friend's houses.
11/19/2019 19:23	Evansdale ES	None	Dividing neighborhoods and indeed streets within walking distance of Evansdale to send children to new school.	

11/19/2019 20:13	Evansdale ES		the fact that this plan nonsensically breaks up the neighborhood and will cause more traffic around an already contested area.	
11/19/2019 20:15	Evansdale ES	Larger capacity in a brand new school	These are my main concerns: Evansdale school is in the neighborhood. The kids can walk or ride their bikes to school. Trying to get out of our neighborhood, making a left turn onto Chamblee Tucker/Pleasantdale will be a traffic nightmare and dangerous. Also, we want our children to go to school in our neighborhood!	He/she should listen to the community that is in and out of the school and supporting it! Consider dividing the school population between Evansdale and Livsey.
11/19/2019 20:51	Evansdale ES		Breaks up a cohesive neighborhood that has provided untold hours of support for Evansdale. Will bring additional bus traffic through the neighborhood. It is disruptive to a number of families without significantly resolving overcrowding at Evansdale of Briarlake.	The importance of having organic neighborhood support for schools brought about by the student body being in close proximity to the school. This is especially important at the elementary level
11/19/2019 20:58	Evansdale ES		The plan does not make sense to split neighborhoods so dramatically. It makes no sense for kids who live so close to Evansdale Elementary have to get on a bus to go to a school farther away. They will also have to be on buses on much busier, dangerous roads when they could just stay at their neighborhood school.	
11/19/2019 21:29	Oak Grove ES	Proximity and displacement of less students.	Cons	Please consider friends already made between students that may be displaced to other schools.
11/19/2019 21:55	Evansdale ES		Carving out street in a neighborhood and sending these children miles away to a school across a major/busy street (might I say dangerous) to get to school makes little sense. Our kids currently can walk to school. This would also greatly effect friendships and neighborhood community.	
11/19/2019 22:05	Evansdale ES	balancing school attendance	Why move 100+ Evansdale kids to Pleasantdale, and then move 100+ Henderson Mill kids to fill Evansdale spots? Doesn't make sense. Move Henderson Mill kids to Pleasantdale and lessen disruption for half of the families!	
11/20/2019 8:50	Henderson Mill ES		Violating geographic proximity by not looking at Livsey Elementary. Taking away 1/3 of parental involvement from HMES. Removing 134 students from a Distinguished Title 1 school.	To delay until we have a new superintendent. The county needs comprehensive, strategic redistricting across the district. What has been put forth is piece meal and does not solve overcrowding in all of the schools.
11/20/2019 8:54	Henderson Mill ES	It looks like this helps to alleviate overcrowding in some of the schools. Less trailers too. Great progress! We are so thankful to have a new elementary school in this area. Please use it to make the biggest impact on as many students as possible, reducing overcrowding to improve the environment of all schools in the area.	The new school is still under-utilized and other schools are overcrowded, needing trailers. WHY? Please balance all schools as best you can, and make use of the resources that we have. All children in all districts deserve schools that are not overcrowded. If you can provide this, then why wouldn't you? Because of a couple noisy parents?	Overcrowding seems to be the main issue. Please address to relieve the strain on facilities and staff.
11/20/2019 9:13	Sagamore Hills ES	It focuses on balancing the attendance of the schools closest to the new Pleasantdale, rather than making small tweaks across the whole cluster.	The separation of the A1 area not being contiguous with the rest of the Pleasantdale zone.	Ensuring that the modeling to predict future enrollment numbers is sound, and can properly guide these changes.
11/20/2019 10:57	Sagamore Hills ES	Keeping neighborhoods intact.		Just keep things logical. Someone who lives a few blocks from a school should go to that school.
11/20/2019 11:46	Henderson Mill ES		Por tan solo vivir del otro lado de la calle ya no perteneceran mis hijos en la escuela que pertenecemos .	En lo particular nuestro cecindario quiere permanecer intacto . Mejor construyan mas salones de clases en las mismas escuelas.
11/20/2019 11:53	Evansdale ES		Don't understand why you would move 125 children that are already settled at Evansdale and line near the school and replace them with 135 kids who live near the new Pleasantdale school	
11/20/2019 12:11	Evansdale ES	None	Pleasantdale is not as good of a school as Evansdale. It is also in an area with unacceptable amounts of crime and unfortunately, this will not be happening for my kids of neighboring kids. Feel free to add onto Evansdale!	

11/20/2019 12:12	Henderson Mill ES	Less moving of children Takes traffic more into consideration	Excludes embury hills (EH)from HMES. Why not leave those 30 students where they are vs relocating from briarlake? That's a distance for those families to travel. And I'm sure projected enrollment from that area is higher than EH so same issue of over crowding will arise in short time	Relocating low socioeconomic groups to maintain Title 1 at HMES is not fair to those families and is discrimination. Also you are balancing numbers but not taking into account ethnicity with these new zoning plans. By doing this you are risking drastically altering the make up of a school which will lead to disruptions for students not rezoned!
11/20/2019 12:22	Evansdale ES		Breaking up neighborhoods, bad commute for those going to Pleasantdale instead of Evansdale, lowering property value.	
11/20/2019 12:32	Evansdale ES			It's not fair to take our children from this nice neighborhood and put them at Pleasantdale. I went here as a child in the 80s and it was not a good school. It still is not a good school. Go look at the ratings online at great schools. My child is going to a minority at a school where the majority of children speak Spanish.
11/20/2019 12:36	Henderson Mill ES	Keeps the Embry Hills Community intact and away from long and dangerous commutes to the site of the new Pleasantdale	Splits up the Evans road community Takes children and families out of the steam program we moved to our neighborhood to be a part of and support Does not redistrict the homes closest to the new Pleasantdale into Pleasantdale (Livsey attendance zone)	She should delay in order to get all the information and in favor of comprehensive redistricting of the district.
11/20/2019 12:41	Evansdale ES	Oak Grove, Sagmore and Briarlake aren't touched for minimal disruption to the community.	I'm concerned about traffic with the proposed plan and I'm failing to understand why 125 students need to be moved from Evansdale to Pleasantdale only to be replaced by 134 students from Henderson. If Henderson is over crowded why not redistrict that area to Pleasantdale?	Community involvement
11/20/2019 13:05	Henderson Mill ES	Nothing.	Pleasantdale appears to not be as good of a school; traffic between my neighborhood and Pleasantdale can be very heavy at times, leading to a long commute to the school. Many in the neighborhood specifically bought houses to be in Henderson Mill/Lakeside district, and now will be moved out of the district.	Extreme disparity in the quality/reputation of schools; appear to be moving from high functioning school to very low functioning school.
11/20/2019 13:05	Evansdale ES		we bought our home specifically for the school districts. if that changes for us then we would actively pursue our housing options including moving back to our other property and enrolling in woodward. we simply aren't going to guess with our children this redistricting effort will be beneficial or not.	
11/20/2019 13:06	Oak Grove ES		The section on the map called D is being moved from Briarlake ES where they travel down LaVista Rd to get to school. They are being sent to Henderson Mill and will have to travel around or in front of Northlake Mall. The redevelopment of NL Mall makes this travel pattern incredibly difficult and it will take much longer to transport these students.	Students in the section called D should be moved away from the schools on the map toward the south. It also seems strange to move students from Henderson Mill to Evansdale. Are the changes consistent with a bigger plan to redistrict students toward empty seats in the south end of the county?
11/20/2019 13:13	Evansdale ES	Balances numbers (which is only temporary at best) but unfortunately by pulling students in haphazard fashion from their local neighborhood schools. This is why people are going to private schools or leaving Dekalb in droves.	You haven't used your own criteria. This poor plan: -nonsensically breaks up the neighborhood -you didn't consider previous redistricting 2012-send former Pleasantdale students/households back there first -it doesn't account for the school choice French program at Evansdale -sending students down the road rather than to their neighborhood school	Ultimate impact on students and neighborhoods. Keep the neighborhoods together.
11/20/2019 18:54	Evansdale ES		We moved to this district specifically to be part of the Evansdale community and schools. We have lived here for nearly 10 years and would likely relocate if moved to pleasantdale. Evansdale district and community are well established with great schools and stellar teachers. The redistricting takes my children away from the friends.	
11/20/2019 19:22	Briarlake ES			
11/20/2019 20:57	Evansdale ES			

11/20/2019 21:02	Oak Grove ES	keep redistricting geographically, it leaves oge and sagamore and hawthorne alone. keeps our subdivision in the oge school district	splits a neighborhood, has children crossing over 285, no longer a walkable commute for children, french immersion program	should wait until a "permanent" superintendent is in place prior to executing the redistricting, consider livey/oakcliff for redistricting or move oakcliff magnet into Pleasantdale, move The GLOBE Academy lower campus into the PES seats, utilizing these schools for overcrowding in HS or ES
11/20/2019 21:55	Hawthorne ES	It eliminates disruption for Hawthorne ES, specifically the Option 1 move of some students in walking distance of Hawthorne to Henderson Mill.	Hawthorne and Sagamore remain quite a bit over capacity.	
11/21/2019 11:56	Evansdale ES	Evansdale is overcrowded and needs to be addressed. The growth of the area must be taken into consideration without breaking neighborhoods in half.	We have lived in the Evansdale school district for 38 years. We raised our children here and now our grandchildren live in our neighborhood also. Our children swam on the Umerland swim team We consider Wembly Forest to be in our neighborhood. Children & their friends can bike to each others homes. To break the neighborhood in half is wrong	Traffic ! Getting out of Wembly Forest to go to Pleasantdale school via Chamblee Tucker is dangerous
11/21/2019 16:17	Oak Grove ES	I'm happy with this map because it keeps my neighborhood's ES unchanged.		
11/21/2019 16:42	Oak Grove ES	The staff recommended plan disrupts fewer families, neighborhoods, and school communities. It minimizes traffic disruptions and improves capacity issues at Briarlake and Evansdale.		
11/21/2019 17:00	Oak Grove ES	Keeps most communities in tack Relieves overcrowding at Pleasantdale	Disruptive for Evandale Distruptive for Hendersonmill	Long term demographics
11/21/2019 18:55	Oak Grove ES	Fewer children disrupted than other proposals. This is the best option.	None	
11/21/2019 19:55	Oak Grove ES			
11/21/2019 20:18	Oak Grove ES	Well thought out.	None.	None
11/22/2019 6:30	Oak Grove ES	Less children are affected than the other plans. Also the proximity of kids moving is better then previous plans.	Maybe we should wait until cross keys is open.	
11/22/2019 8:07	Oak Grove ES	Students currently in Oak Grove will not face the disruption that goes along with school changes.		
11/22/2019 8:46	Oak Grove ES	Affects less students, geographic proximity accounted for	None	
11/22/2019 9:21	Henderson Mill ES	-keeps the Embry Hills neighborhood intact  -Evansdale is a closer option for my location with no interstate travel. Safer commute with walkable pathways for my children  -Evansdale has STEM  -keeps me from crossing 285/85 4x a day.	- We are no longer in the Henderson Mill zone where my child already attends in the Pre-k/Kindergarten program  -we lose STEAM  -the process is being rushed while we have an interim superintendent  -our school system is in financial turmoil and we are being punished for a poorly designed Mega School that is ineffective  -Splits Evandsale	The main item that should be reviewed is whether the timing is appropriate for this redistricting. We are ousting a superintendent, will have an interim, and the direction of the school district is likely to change no matter the long term new appointee.
11/22/2019 9:26	Henderson Mill ES	Keeps the Embry Hills neighborhood intact within one district and prevents its residents from having to traverse 285.	Moves the Embry Hills neighborhood out of the Henderson Mill ES district it currently occupies and continues to favor due to geographic/traffic accessibility and the STEAM program.	
11/22/2019 9:54	Henderson Mill ES	Less crowded school	A loss to my children of the STEAM program for which we moved into the area.	The decision should be made by the board and a permanent Superintendent, not an interim superintendent
11/22/2019 9:54	Henderson Mill ES	relieves some overcrowding	Removes the entire Embry Hills community except for 1 apartment complex from Henderson Mill. Should have moved the apt. complex as well since the majority of ESL kids most likely come from this complex to keep the community diverse and intact.	Remove middle school and revert back to Elementary & High School levels. Reopen Warren Tech as a elementary school.
11/22/2019 10:13	Henderson Mill ES	Keeps our neighborhood together. Evensdale is a good school with STEM Programs and close to home. Easy to get to and from the school, less traffic. I can keep my child in the same after school, in tucker.	We do not want to change schools. Henderson mill has been our neighborhoods school for 35 + years. We moved to this neighborhood because of Henderson Mill and the STEAM Program.	STEAM Programs, more thought out approach to overall school redistricting.
11/22/2019 10:15	Oak Grove ES	Effects less students Less portable classrooms	None	Na

11/22/2019 10:15	Oak Grove ES	Less disruption Makes more geographic sense. Leaves sagamore and oge in tact		
11/22/2019 10:43	Oak Grove ES	Takes our neighborhood input into account. We asked to stay at Oak Grove. Moves less kids from current schools. Takes geographic proximity into account.	None	Please keep this plan.
11/22/2019 11:52	Henderson Mill ES	Better option for those in Embry Hills than trying to commute in thick traffic to Pleasantdale. Much closer in distance and relatively walkable as well for Embry Hills neighborhood.	Still getting moved away from our current STEAM school and the plans seem rushed	These changes should be slower and more methodical. This seems rushed and without enough thought to traffic patterns and long term strategy.
11/22/2019 12:08	Oak Grove ES	Thank you for listening to our input. Keep Oak Grove intact.	none	
11/22/2019 14:30	Henderson Mill ES	^-Keeps Embry Hills neighborhood intact -shifts Embry Hills into Evansdale which was the 2nd choice option on our neighborhood survey -Embry Hills would go to Evansdale which has STEM -Evansdale is close to Embry Hills geographically. -Keeps Embry Hills parents from crossing 285 4x a day.	^-the process is being rushed while we have an interim superintendent-our school system is in financial turmoil-it divides the Evansdale community- Proposal does nothing to relieve overcrowding at Hawthorne ES. -Embry Hills is no longer in the Henderson Mill attendance zone-Embry Hills loses STEAM	^-Delay redistricting until a new superintendent is in place who can guide a strategic county-wide redistricting process.-Bring portion of Livsey ES school zone that was once in the PES school district back into PES.-Oak Cliff theme school: shift attendance zone away from PES and to Hightower ES. PES will no longer be overcrowded but Hightower will.
11/22/2019 16:43	Henderson Mill ES	The recommended plan keeps us from having to get on a major highway. If the changes cause us to get on I-285, we will likely move to Gwinnett County. Evansdale has STEM. Evansdale is closer than the new school, Pleasantdale.	We are not longer part of Henderson Mill school co.,unity, which is why we moved into our house. Evansdale does not have STEAM. The process and changes seem very rushed, especially with an interim superintendent in place.	Turning Waren Technical Shool into an Elementray school that the Embry Hilly Community can walk to. With the apartments close by and our neighborhood, they could easily fill it. Driving by Warren Tech every morning, it seems that all kids get bussed in anyway. Can they be bussed into another school?
11/22/2019 16:53	Henderson Mill ES		I realize that the staff would like to change the enrollment to eliminate over crowded classrooms and get rid of trailers but moving children and splitting up neighborhoods should not be taken lightly. Some children who are now within walking distance of their school will have to have a commute.	Please consider that no changes should be made until Dekalb county has settled its board and finances. A long term plan should be drafted before rash moves are made to create more traffic and a reduction in home values.
11/22/2019 17:13	Oak Grove ES	there are fewer students impacted across the cluster, which helps maintain communities		
11/22/2019 20:02	Oak Grove ES	None	People moved into the area so that they could attend Oak Grove Elementary	
11/23/2019 7:08	Henderson Mill ES	None	Crossing 285	Not making an intact neighborhood cross highways
11/23/2019 12:18	Henderson Mill ES			
11/23/2019 13:29	Henderson Mill ES	^-keeps our EH neighborhood intact -shifts us into Evansdale which was the 2nd choice option on our neighborhood survey -Evansdale has STEM -Evansdale is closest geographically. -keeps us from crossing 285 4x a day.	^-we are no longer in the Henderson Mill attendance zone -we lose STEAM -the process is being rushed while we have an interim super	
11/23/2019 19:40	Oak Grove ES	Keeps geographic proximity as priority, affects less students	none	Leave the farthest schools from Pleasantdale alone
11/23/2019 22:41	Henderson Mill ES	Would reduce HMES size. Seems reasonable geographically that we would loose section D	We would loose Embry Hills and these parents give a lot to our school.	Consider how often parents and children need to cross 285 to attend PES
11/24/2019 13:32	Pleasantdale ES	You will be using the new excess capacity at PES.	The footprint for Evansdale will be odd and there will be a section east of them that skips over to PES. It seems like you could draw this were there is more continuity in these two school district areas.	Traffic concerns with families that will be added to the new PES footprint.
11/25/2019 9:04	Henderson Mill ES	^-Keeps our Embry Hills neighborhood intact -Evansdale has a STEM program -Evansdale is closest geographically of all options -Families will not need to cross 285 for drop off and pick up	CONS: -We are no longer in the Henderson Mill attendance zone, meaning we lose the sense of community built there over many years -We lose STEAM program -This is a rushed process overall	
11/25/2019 17:14	Oak Grove ES	Leaves OGE intact		
11/25/2019 19:13				
11/25/2019 20:17	Oak Grove ES	Disrupts the least existing stufents	None	
11/25/2019 20:37				
11/25/2019 21:08	Oak Grove ES	Impacts least number of area schools. Makes sense geographically. Keeps neighborhoods intact.		
11/25/2019 21:09	Henderson Mill ES			

11/25/2019 22:13	Evansdale ES	I like the idea of Pleasantdale as a Spanish and French Immersion Magnet school.	I like the idea of Pleasantdale as a Spanish and French Immersion Magnet school	I like the idea of Pleasantdale as a Spanish and French Immersion Magnet school
11/25/2019 22:25	Evansdale ES	The Lakeside Cluster remains intact and feeder patterns are not affected.	School Choice accounts for 44% of Evansdale's instructional capacity. School Choice students residing in areas A1/A2 on were not considered in projected enrollment. This will cause overcrowding and make the school less appealing to these students, who would then be forced back into more seriously overcrowded schools in that region.	Evansdale is currently a wonderful school with a thriving school choice program. The recommended changes would alter the fabric of the Evansdale community in a way that greatly hurts Evansdale and doesn't add any value to Pleasantdale. Why disrupt a well-functioning, well-liked neighborhood school without benefitting any other schools?
11/25/2019 22:56	Oak Grove ES	Very Satisfied with Staff Recommendation - it addresses many Traffic and Routing considerations	none!	
11/25/2019 23:25	Evansdale ES	The Lakeside Cluster remains intact and feeder patterns are not affected	Many students living in proposed re-zoned areas (from ES to PS) are enrolled through school choice and not counted in Evansdale Fall 21 enrollment. Also, the DLI program can't accept transfer students in grades 2-5, reducing available seats. These factors will lead to increased enrollment, crowding, and require added portable classrooms at ES.	The proposed plan increases traffic on major roadways and cause left-hand turn delays and backups. Also, houses in the ES neighborhood will be rezoned, ultimately undercutting the community support and pride of ownership that has sustained Evansdale.
11/26/2019 0:16	Henderson Mill ES	Fewer portables at HMES, potential to expand temporary parking or physical education programming. Also the obvious of reducing overcrowding.	Not using a geographic marker like Chamblee Tucker road/Lavista Rd to separate school districts. Why not keep area A1 with Evansdale, C north of CTR to Pleasantdale, and keep D with Briarlake? Based on these changes, will it impact Title 1 funding/status for HMES? Concern about Embry Hills neighborhood south of CTR being moved to Pleasantdale.	These decisions should be made by new incoming leadership rather than from an interim leadership team
11/26/2019 7:54	Oak Grove ES	Disrupts less families and students. No reason to touch Oak Grove Or Sagamore.		
11/26/2019 9:20	Evansdale ES	The Lakeside Cluster remains in intact and the feeder patterns are not affected.	School Choice accounts for 44% of the instructional capacity, of which 36% is dedicated to DLI program and wouldn't allow incoming transfers beyond the 1st grade. There are many children in school choice programs in A1 which was not considered in projected enrollment. This will cause overcrowding in grades 1-3 with at least 1 more class per grade.	Feedback from Round1 survey noted importance of greater Evansdale neighborhood, yet this plan omits that feedback & splits neighborhood streets. A1 students who could walk to EES can no longer walk, parents & buses will face dangerous left turns onto Chamblee Tucker and into the new PES. The influx at OakCliff w/ new apt, allow for returning PES.
11/26/2019 10:20	Evansdale ES	There are none. The plan does little to address the overcrowding but divides an entire neighborhood	This plan divides the current Evansdale community. Children that can currently bike or walk to school in A1 will no longer be able to. This plan does not take into account traffic patterns and will lead to traffic congestion on neighborhood roads and necessitates dangerous left hand turns from wembley forest to Chamblee Tucker.	The plan splits families that have student in the immersion program. Students moving from Henderson will not have the background in the language to participate. This plan is a significant disruption to families at little relief to the capacity issue.
11/26/2019 14:09	Evansdale ES	Not many, maybe reduction in Trailers	Splits Evansdale community. Plan presented does not include School Choice Numbers at Evansdale, High immersion participation in area A1 would result in only a handful of kids actually going to Pleasantdale. Area A1 can currently get to Evansdale on Neighborhood roads, will have to use roads with daily traffic counts of over 20,000 to get to Pdale	Although if you punch in the distance from area A1 to Evansdale and Pleasantdale in Google Maps it does not seem like a major difference, however; section A1 can reach Evansdale using low traffic neighborhood roads, not major roads such as Chamblee Tucker which has a daily volume close to 25,000 vehicles a day and is significantly more dangerous
11/26/2019 14:50				
11/26/2019 14:51	Evansdale ES			
11/26/2019 14:57	Evansdale ES	None	You completely ignore geographic proximity by moving students who live in adjacent neighborhoods to Evansdale farther away to attend Pleasantdale while shuffling kids in Embry Hills which is closer to Pleasantdale and sending them to Evansdale.	Don't you need to hire a superintendent before asking a superintendent to make a recommendation. This whole process seems like a waste of resources.
11/26/2019 14:58	Evansdale ES

11/26/2019 15:17	Evansdale ES			
11/26/2019 15:20	Other			
11/26/2019 15:20	Evansdale ES	No pros, Evansdale is being split unfairly.	A2 takes our street and 3 others around and completely separates it from the neighborhood for you only 7 kids. We go to the pool, church and Pre-K with the families in the rest of Nottaway. In addition, we would have to go onto Chamblee Tucker to get to Pleasantdale. This would take the option away to walk or bike ride due to safety and traffic.	The majority of Pleasantdales current district goes to Oakcliff theme school. It makes most sense to have those children go to the school they are districted for now that it is not overpopulated.
11/26/2019 15:22	Evansdale ES	Lakeside cluster remains intact & feeder patterns not affected.	Instructional capacity & projected enrollment did not account for school choice at Evansdale which will result in overcrowding. Traffic volume will increase significantly & exiting the neighborhood from Evans Road onto either Chamblee-Tucker or Henderson Mill will be a nightmare. Those turns are already exceptionally challenging.	Boundary lines should follow natural divisions- not the seemingly random lines currently drawn.
11/26/2019 15:24

11/26/2019 16:39	Evansdale ES			
11/26/2019 16:49	Henderson Mill ES	This plan shows that some of our concerns were addressed, such as crossing north of 285 during rush hour, distance in driving/inability to walk to school and keeping the Embry Hills community intact. While we prefer to stay with HMES, Evansdale is the better alternative to Pleasantdale if a change must be made at this time.	The plan is now splitting the Evansdale community. The number of students that will not move from Evansdale due to the special programs do not appear to be reflected in this plan or decision. Moving to Evansdale will mean we lose our STEAM program at Henderson Mill and the French program is not open to most children that will be moved.	The STEAM and Title 1 status of HMES will be negatively impacted by this change; the overall projected enrollment numbers are trending downward in the coming years. There are many homes within walking distance of the new Pleasantdale school that should be considered before this disruption of the HMES/Evansdale programs.
11/26/2019 16:59	Evansdale ES		Evansdale is very close to my home. I don't understand our homes being moved to attend pleasantdale, when Evansdale is down the street. The impact on the cohesiveness of our community is at stake. Additionally, traffic will be a nightmare with Evansdale folks trying to get to Pleasantdale. The bonds Formed at the local elementary school persist.	Traffic impact, breaking up neighborhoods

11/27/2019 20:09	Briarlake ES			
11/27/2019 20:11	Henderson Mill ES			
11/27/2019 20:26	Oak Grove ES	It affects less schools and students		Please consider keeping Oak Grove, Sagamore and Hawthorne out of the plan or any new options.
11/27/2019 23:10	Hawthorne ES	Keeps homes in close proximity to HES at HES. Limits the number of schools/students impacted by redistricting. Avoids forcing Embry Hills residents to drive down Chamblee-Tucker Road during rush hour to pick up students from aftercare and to attend school events.	Students close to EES are being moved to PES, which is farther away. Wembley Forrest residents have to make a dangerous left turn across 4-lane Chamblee-Tucker Road to get to PES. Neighborhoods close to PES are still attending Livsey, when they should be at PES.	Currently all of the apartments and condos between Clairmont and Chamblee-Tucker Road on the one-way access road attend Hawthorne, even though the round-trip distances to SHES and OGES are very similar to Hawthorne. A lot of parents from EES states that they would prefer to stay in trailers at EES than be switched to PES. Can PES just have 73% ?
11/28/2019 6:01	Evansdale ES			
11/28/2019 8:38	Evansdale ES	Lakeside cluster remains intact	Evansdale community torn apart. Boundary lines drawn thru middle of n'hood streets w/ no natural boundary. 2 of our 3 children now in Evansdale ES conveniently accessed via n'hood roads. 1 in French Immersion. 1 in preK. Youngest now left out?!? Suggests we take a left out of Gladney Dr. on to Chamblee-Tucker Rd which is impossible w/ AM traffic	The disruption of the Evansdale school community is to the detriment of the thriving school choice program. It makes zero sense to commute to a school via heavily trafficked roadways when we currently attend Evansdale (via neighborhood roads) in minutes. This jeopardizes our safety.

11/28/2019 23:00				
11/29/2019 0:56				
11/29/2019 7:04	Oak Grove ES	Reduces the number of students unnecessarily moved around. Reduces already heavy traffic on and near Lavista Road, Briarlake Road, and connecting residential streets. Reduces portable classrooms.	None	It is unnecessary to move children around the entire Lakeside cluster when only one elementary school and its surrounding neighborhoods located at one end of the cluster is requiring change.
11/29/2019 8:43	Evansdale ES			
11/29/2019 9:02				
11/29/2019 9:12	Henderson Mill ES	-keeps Embry Hills neighborhood intact -shifts us into Evansdale which was the 2nd choice option on our neighborhood survey -Evansdale has STEM -Evansdale is closest geographically. -keeps us from crossing 285 4x a day.	-we are no longer in the Henderson Mill attendance zone -we lose STEAM -the process is being rushed while we have an interim superintendent -our school system is in financial turmoil -it divides the Evansdale community	Evansdale community is up in Arms I would ask that we look to not shift neighborhood schools until broader options are considered shuffling the Lakeside cluster while others schools are closer to Pleasantdale does not make sense at this time
11/29/2019 9:20	Henderson Mill ES			
11/29/2019 9:46	Henderson Mill ES			
11/29/2019 10:35	Henderson Mill ES	Keeps Embry Hills neighborhood together. Moving us to Evansdale, our neighborhood's second choice, is closer geographically than Pleasantdale and doesn't require crossing 285 in rush hour.	No longer in Henderson Mill school, which our neighborhood has been associated with for generations. Lose STEAM program and thriving daily physical education/sports program. Henderson Mill and Evansdale affected far more than other schools. Losing that many students (104) from HMES could effect staff retention, class size and title 1 funds.	The whole process feels rushed and ill-concieved while there are other large unresolved issues in the district. Many stakeholders are preoccupied with splost, gobond, and replacing the superintendent, etc., and would have a better understanding of redistricting options is some of these issues could be addressed first.
11/29/2019 12:25				
11/29/2019 12:32				
11/29/2019 16:18				
11/29/2019 17:11	Oak Grove ES			
11/29/2019 19:59				

11/29/2019 20:39	Evansdale ES	The Lakeside Cluster remains intact and feeder patterns are not affected.	Evansdale is a close intact community therefore breaking up the neighborhoods could be detrimental to the school. This could impact the school fundraising efforts supported by the neighborhoods and overall community support and involvement given to our neighborhood school. The DLI program is also strongly supported amongst neighborhood families.	Instructional capacity and projected enrollment which is dedicated to 36% of DLI program, therefore would not allow incoming transfers beyond 1st grade, Traffic, Intact communities which the school heavily weighs on for fundraising opportunities, and special programs (DLI and the STEM program supported throughout the neighborhood)
11/29/2019 20:51	Evansdale ES			
11/30/2019 7:22				
11/30/2019 7:33	Henderson Mill ES			
11/30/2019 9:32	Oak Grove ES	Fewer students impacted across the cluster Keep more communities intact	Evansdale crosses 285.	
11/30/2019 9:47	Evansdale ES	Pro is the Lakeside elementary cluster remains intact and feeder patterns are not affected.	Many school choice students reside in A1 and will remain in the programs, causing overcrowded with the addition of 109 transfer students into Evansdale. This plan also dissects the Evansdale community with boundary lines drawn through neighborhoods with no natural boundary. Students in A1 will no longer be able to walk/ride bikes to school.	Concern on traffic. Buses & cars taking a left out of A1 onto Chamblee Tucker is extremely dangerous. Previously took neighborhood streets. There is no turn lanes or lights turning left out of neighborhood or into Pleasantdale ES. It is a death trap in the making.
11/30/2019 13:06	Henderson Mill ES			
11/30/2019 14:27	Evansdale ES	Utilization of Less portable classrooms	Taking kids out of evansdale to make them go to a lesser school program is not fair to the kids. Total disruption of their learning and social atmosphere! A weakened property value is also a big concern.	
11/30/2019 22:35	Henderson Mill ES			
12/1/2019 8:19	Henderson Mill ES			
12/1/2019 11:25	Evansdale ES	The Lakeside cluster remains intact and the feeder patterns are not affected. The safety of the school route for students in the Altura apartment complex is improved.	School Choice students residing in areas A1/A2 were not considered in projected enrollment. 109 transfer students to Evandale only eligible for 64% of instructional space. This means: overcrowding in grades 1-3, need for minimum 1 additional classroom per grade to meet state class size limits. 4-5th grade at max state class size.	School choice is 44% of Edale instructional capacity, 36% of which is dedicated to DLI, not allowing for incoming transfers beyond 1st grade. Intact Edale community disbanded. Buses of A1 students will make dangerous left hand turns with no light or turning lane. Disrupts thriving DLI immersive culture and future enrollment.
12/1/2019 11:40	Evansdale ES		School choice accounts for 44% of Evansdale's instructional capacity, of which 36% is dedicated to the DLI program. School Choice students were not grandfathered into the program were not considered in projected enrollment. 109 transfer students to Edale resulting in overcrowding in grades 1-3, requiring a mimimum of 1 additional classroom per gr	Intact Communities: The existing Evansdale community disbanded. Boundary lines are drawing in the middle of the neighborhood streets with no natural boundary. Why take 170 students away from Evansdale and move 135 back from Group C? Group C can move to Pdale, their community is intact along with Evandsdale.
12/1/2019 12:55	Pleasantdale ES	Balancing populations out between Briarlake, Henderson Mill, Evansdale and Pleasantdale. However, the logistic of getting students to this elementary are not easy.	Not supported by the communities, I have not heard anyone like any of these plans. I think the children at Pleasantdale deserve families / communities that want to be there. And, sadly, I do not think that the current Pleasantdale Principal can handle a large influx of students or inspire and empower communities that would resent being there.	It is best to wait one year, to see which students return to PI EI, especially as the construction has chased many families living on leases out of the PI zone. I think many will come back (more than the estimates) and will end up overcrowded. SI should consider housing French & Spanish Im. programs at new PI, w a shared Evansdale/PI home footprint
12/1/2019 13:46				
12/1/2019 13:53	Evansdale ES			
12/1/2019 14:23				
12/1/2019 16:07	Pleasantdale ES			
12/1/2019 17:31	Evansdale ES	The Lakeside Cluster remains intact and feeder patterns are not affected.	Instructional Capacity & Projected Enrollment School Choice accounts for 44% of Evansdale's instructional capacity, of which 36% is dedicated to the DLI program, not allowing incoming transfers beyond the 1st grade. School Choice students grandfathered into the programming, but residing in areas A1/A2 on published maps were not considered in enroll	Traffic, Intact Communities: Boundary lines are drawn in the middle of neighborhood streets with no natural boundary. Special programs such as DLI and STEM.
12/1/2019 17:44	Henderson Mill ES	We remain at HMES for the time being	You're breaking up neighborhoods. This was poorly planned to being with and now DCSD is attempting to move forward while the board is in transition.	This shouldn't be considered by an acting superintendent. This needs to wait!
12/1/2019 18:00	Henderson Mill ES	Less student teacher ratio	Possibly losing staff trained in STEAM/STEM.	Will Henderson Mill remain a STEAM school?

12/1/2019 18:25	Evansdale ES	The Lakeside Cluster remains intact and feeder patterns are not affected.	School Choice students grandfathered into the programming, but residing in areas A1/A2 on published maps were not considered in projected enrollment. 109 transfer students to Evansdale only eligible for 64% of the school's physical instructional space. Resulting in: Overcrowding in grades 1-3, would require a min of 1 additional classroom per grade	Traffic: Major roadways, creating more intuitive district boundaries, have been removed, creating traffic patterns for school buses and parent transportation that requires use of a major roadway during rush hour. Intact Communities: Existing Evansdale community disbanded. Special Programs: The DLI program is built around immersing the students.
12/1/2019 18:59	Henderson Mill ES			
12/1/2019 19:08	Henderson Mill ES	Keeps our Embry Hills neighborhood intact. This option is closer geographically to our neighborhood than Pleasantdale and avoids the Spaghetti Junction traffic and safety concerns. Pleased that Evansdale has a STEM program (similar to STEAM) and French immersion.	Loss of unique programming at Henderson Mill-- first STEM-certified, STEAM-certified and AdvancED-certified elementary school in the state of Georgia. Many partnerships with local orgs and businesses that are irreplaceable. Daily PE. Active parent volunteers. Diverse student body - majority minority.	Prefer to delay redistricting until district leadership is stabilized and a more thorough redistricting plan can be implemented. E.g. Oakcliff Theme and Livsey students are much closer and not being accounted for.
12/1/2019 19:22	Henderson Mill ES			
12/1/2019 20:00	Henderson Mill ES	We absolutely need less kids in each class. Quality goes down as class size goes up. Also there is no room for more portable classrooms	None	Quality of education
12/1/2019 20:26	Henderson Mill ES	More even student enrollment	Less diversity at Henderson Mill	Please consider diversity
12/1/2019 20:50	Henderson Mill ES	Impacts the fewest schools. Keeps embry hills neighborhood from having to cross 285	Splits evansdale in a haphazard fashion Does not share the pain of redistricting with all school in lakeside cluster.	Families should be able to complete elementary school at the school their family started at.
12/1/2019 21:48	Henderson Mill ES	Thank you for keeping the Embry Hills community intact and going to Evansdale.	It feels quite unfair that Oak Grove and Sagamore have no changes when HMES is faced with a large number of students moving. The original plan looked far more balanced.	Ensuring that all the Lakeside Cluster schools are equally affected.
12/1/2019 22:50	Henderson Mill ES			
12/1/2019 23:16	Henderson Mill ES		I am against this change.	
12/1/2019 23:31	Henderson Mill ES			
12/2/2019 6:16	Henderson Mill ES	It reduces the utilization to under 100%.	It removes students and families from their established school communities. Families who bought houses to be in a specific school district are all of a sudden in a different one which impacts housing values. It does not seem as though overcrowding is a significant enough problem at this point to warrant this drastic of a measure.	
12/2/2019 6:32	Evansdale ES		School Choice students grandfathered into the programming, but residing in areas A1/A2 on published maps were not considered in projected enrollment. Boundary lines are drawn in the middle of neighborhood streets with no natural boundary. (Specifically Octavia Place and Galangale Drive).	The Dual Language Immersion program is built around immersing the student not only in language but culture, creating a community that embodies the language and its cultural influence. The disruption of the school community is to the detriment of the thriving school choice program.
12/2/2019 7:37	Briarlake ES	Relieves overcrowding at Henderson Mill and Evansdale.	*Briarlake is NOT overcrowded. *Removing 30 students will cause Briarlake to fall below 400 students. *Removing these students will NOT decrease trailers at Briarlake. *Trailers are NOT a concern for parents at Briarlake *Trailers will still be needed at Briarlake even with students being moved out, due to our Deaf and Severely Impaired population.	Briarlake has Deaf/ Hard of Hearing students, And Severly Impaired students. These populations require VERY small class sizes. So, Briarlake will still need trailers even if students are moved out. Briarlake is NOT overcrowded. We do NOT need to lose any students.
12/2/2019 10:28	Evansdale ES	We urge the superintendent to use caution. Please consider that data shared are incomplete and do not detail school-choice students attending Evansdale. A hasty redistricting will cause negative short- and long-term impacts on E-dale and the feeder, especially considering future possibilities of redistricting cluster-wide with future school opening	Zone A1 is a non-contiguous section being moved to P-dale that disrupts SAFETY AND TRAFFIC PATTERNS and disrupts an INTACT NEIGHBORHOOD. These students can currently access E-dale without any major roads - they must utilize busy dangerous Chamblee-Tucker to access P-dale. Zone C moves across Henderson Mill - not EFFICIENT nor ECONOMIC	Areas (A2+B) that already must utilize busy roads (Chamblee-Tucker, Henderson Mill) should move to P-dale, opposed to the southern parts of A1 (who access E-dale using n'hood streets). Excessive addtl traffic to Evans Rd, a small street. A1 has many students in school choice-->overcrowding at E'dale in immediate years and split up families.

12/2/2019 10:46	Oak Grove ES	Keeps geographic proximity of redistricting close to new elementary school Decreases instructional capacity at Henderson Mill significantly and improves capacity at several other locations Intact community of students from Evansdale (27%) and Henderson Mill (25%) will help ensure continued community feeling and belonging for students affected	Small number of students from Briarlake (7%) would create loss of intact neighborhood feeling and belonging for students affected	Students sense of belonging is critical and ensuring a sense of community and friendship as these adjustments are made are critical for their well-being. Students should feel that they belong and having a larger numbers of students move will increase this likelihood.
12/2/2019 11:24	Henderson Mill ES	Keeps Embry Hills neighborhood intact; Keeps EH within a STEM school;  Higher rated option for overall neighborhood survey.  -Evansdale is closest geographically to our neighborhood, and allows travel off of Chamblee Tucker.  -keeps us from crossing 285 4x a day.	Shifts children from a STEAM school to STEM only; shifts children from HMES; -the process is being rushed while we have an interim superintendent	Hold all decisions until new superintendent evaluates district
12/2/2019 12:32	Henderson Mill ES	Takes into consideration traffic and distance--geographically makes more sense, movement of children is more balanced across schools, is considerate of Hawthorne's position as an inclusion school		Maintaining STE(A)M at HMES--I do not think you have to/should be a Title 1 school for that to occur.
12/2/2019 12:33	Henderson Mill ES			
12/2/2019 12:44	Henderson Mill ES	La eliminacion de salones afuera , eso seria un pro poraqye los niÃ±os no pasen frio ni calor	El contra seria ,ami pensar el nivel de estudio , no se si seria el mismo que en la escuela Henderson Mill que es bastante bueno, no seria justo para los niÃ±os retroseder en el aprendizaje .	Seria los niÃ±os de que empezarian el quinto grado se dijo que van a continuar en su escuela pero muchos tienen herman@s en diferentes grados que irian a otra Escuela siento que no es justo que los separen
12/2/2019 13:13	Henderson Mill ES			
12/2/2019 13:49	Henderson Mill ES			
12/2/2019 14:23	Henderson Mill ES	It seems more realistic compared to other plans I saw. Any chance to look more holistically to the plan, i.e. what about moving kids from Livsey, which is a lot closer to Pleasantdale than other recommended moves.	Kids will get moved to and from Evansdale without consideration of the French immersion program. The permanent Superintendent is not in place yet, so it's better to wait and be more strategic. I'm sure many families feel the same, but we want to keep the HMES community intact.	Wait until a permanent Superintendent is in place and take a long-term view of the situation.
12/2/2019 14:24	Henderson Mill ES			
12/2/2019 14:26	Henderson Mill ES	Embry hills stays together and have a safe commute to school. Embry hills gets to have STEM program.	Embry hills would like to stay at Henderson mill. This plan tears apart the Evansdale neighborhood.	There are students not being considered for pleasantdale that could literally WALK to school (Livsey) and also there are students north of pleasantdale that also could walk there that are in a choice school now. This just seems like a mess the county made by building a new school but not gathering neighborhood and parent input before they did it.
12/2/2019 14:42	Henderson Mill ES		The proposed plan subjects Henderson Mill ES to risk of title 1 funding losses that put its internationally accredited STEAM/STEM program in jeopardy.	These appear to be drastic decisions during a time of acting leadership. We appreciate the guidance and support of interim leadership. However, would it not be prudent and wise to delay such decisions until permanent leadership positions are filled. The rush for this decision is unclear. However the risk to Henderson Mill ES is severe and clear
12/2/2019 15:33	Henderson Mill ES	Keeps Embry Hills community intact. Sends us to a comparably rated school, Evansdale, which is closest to our home, and it has a similar program, STEM. It also has French Immersion. Keeps us from shifting to Pleasantdale which is very far and would require us driving over 285 in rush hour traffic several times a day. Keeps us in Lakeside cluster.	Moves too many out of Henderson Mill. HMES could lose funding for Title 1 and STEAM. We would lose STEAM for our kids, which they love. Many of the kids in our area are too old to join the French Immersion program. Fear moving to a school OTP would put our inclusion in Lakeside on the line. Does nothing to balance the Lakeside cluster or region.	Please consider geographic proximity to the new Pleasantdale entrance which faces Gwinnett county. Oakcliff and Livsey are closest. Many used to go to Pleasantdale (until they were shifted to Livsey) or already live in PES and attend theme or choice schools. Need to look at all of the schools in the cluster and across the regions. Move Warren Tech.
12/2/2019 15:49	Henderson Mill ES	Schools with enrollment agreeing with capacity. Will this lead to less classes in "Trailer" classrooms	Loss of funding (Title 1) Loss of diversity in our school district.	Ensuring schools are not going to "loose" per student funding / specialty positions
12/2/2019 16:18	Evansdale ES			
12/2/2019 17:02				
12/2/2019 17:12	Oak Grove ES			
12/2/2019 17:45	Briarlake ES			

12/2/2019 18:00	Henderson Mill ES	No quisiera que cambiaran a los niños de Henderson Mill porque ellos serían como empezar de nuevo y ellos están ya acostumbrados a las maestras que tienen. Gracias	Henderson Mill es una muy buena escuela gracias	Que no los cambien de Henderson Mill
12/2/2019 18:37	Henderson Mill ES			Delay these options. Let Pleasantdale open & see how the numbers shake out. There are too many unknowns to make good choices for the next school year; interim Superintendent, new Cross Keys, Oakcliff school, etc.
12/2/2019 18:47	Henderson Mill ES			
12/2/2019 19:08	Oak Grove ES			
12/2/2019 19:21	Henderson Mill ES			
12/2/2019 19:22	Briarlake ES	I do not want any redistribution	No redistricting	If a child starts at a school, they should be able to stay at the school.
12/2/2019 20:57	Henderson Mill ES			
12/2/2019 21:05	Pleasantdale ES			
12/2/2019 21:16	Evansdale ES	For our neighborhood in area A1, we do not see any particular pros in changing our elementary school assignment from Evansdale to Pleasantdale. We moved here a year ago with the intent/expectation that our child enrolls in Evansdale's specialty program.	For the A1 neighborhood, this plan is a contradiction to both the primary and secondary criteria for redistricting as follows: Geographic Proximity: Evansdale is closer to A1. Safety and Traffic Patterns: We don't have to cross busy roads to get to Evansdale; all neighborhood streets. Intact Neighborhoods: Current plan splits up our neighborhood!	The superintendent should consider property values and the consequence of tax revenue by making radical changes to school zones. Splitting our neighborhood does no benefit to anyone in our community.
12/2/2019 21:32	Oak Grove ES	Affects less schools		Keep Oak Grove, Hawthorne and Sagamore schools out of the redistricting plan and only affect the schools closest to Pleasantdale. Do not affect more schools or children than necessary.
12/2/2019 21:52	Henderson Mill ES	As a parent of two children at Henderson Mill Elementary I'm most concerned about keeping the great school environment in place that has been established to date. HME is a wonderful school and something the parents, students, teachers, and staff can all be proud of. I do not want the school to either lose funding or become overcrowded.	As a parent of two children at Henderson Mill Elementary I'm most concerned about keeping the great school environment in place that has been established to date. HME is a wonderful school and something the parents, students, teachers, and staff can all be proud of. I do not want the school to either lose funding or become overcrowded.	Please think about what's best for the students and teachers, and only that. Any other factors should be ignored. Any/all people involved in the decision making process regarding how our public schools are managed should do what's right for the students and teachers or we'll all be worse off.
12/2/2019 22:07	Henderson Mill ES		As a PTA, we feel that short-term redistricting plans with no Superintendent in place are short-sighted and tenuous at best. We would like for the school district to be strategic and look at a comprehensive redistricting plan. Our ask is to DELAY redistricting as we feel that our school is JUST RIGHT.	
12/2/2019 22:08				
12/2/2019 22:36				
12/2/2019 23:01	Henderson Mill ES		Want staffing to remain the same at HMES.	Do not approve of proposal
12/2/2019 23:05	Evansdale ES			
12/3/2019 1:05				
12/3/2019 8:07	Evansdale ES	Supports Embury Hills neighborhood.	None	None
12/3/2019 8:35	Henderson Mill ES		Doesn't take into account the numbers in the French immersion program at Evansdale ES. Could leave EES overcrowded. Doesn't include future planning alongside new apartment homes planned in next 12 months in Pleasantdale zone.	Please delay this change. There have been too many proposals (no SPLOST funding leading to HMES/HES Go Bond) and too many redistricting proposals. Give us time and invite us into the process BEFORE plans are made/presented. Please delay.
12/3/2019 9:40	Evansdale ES			
12/3/2019 10:32	Henderson Mill ES		Loss of teachers, possibly loss of Title 1 funding.	
12/3/2019 11:24	Henderson Mill ES	I prefer the idea of my HMES children to go to EES over PES however I do not think that we need to be changing anything or making these decisions while we have an interim Superintendent.	I would prefer for my children to stay at HMES because it is a STEAM school. I prefer the idea of my HMES children to go to EES over PES however I do not think that we need to be changing anything or making these decisions while we have an interim Superintendent.	
12/3/2019 11:30	Evansdale ES	The Lakeside Cluster remains intact and feeder patterns are not affected.	- School Choice Accounts for 44% of Evansdale's instructional capacity. - Traffic patterns become more difficult for buses, cars, and walkers - intact natural community is disbanded - the alumni base will decrease. Pride and ownership of neighborhood school helps fundraising	
12/3/2019 12:50	Evansdale ES			
12/3/2019 13:05	Henderson Mill ES			

12/3/2019 15:11				
12/3/2019 15:43	Oak Grove ES			
12/3/2019 17:01				
12/3/2019 20:33	Evansdale ES		Won't solve overcrowding at Evansdale because so many kids are in French Immersion and won't move. Something like a 1/3 to a 1/4 the kids are school choice kids, so they will stay put. Also this cuts across communities and makes it hard for parents to drive or kids.	Also transit to Pleasantdale/Evansdale should be considered. Some of the options involve a lot of left hand turns at rush hour on busy roads. The problems of crossing 285 should also be considered.
12/3/2019 20:59	Henderson Mill ES	I like it! Bodes well for the future		
12/3/2019 22:38	Henderson Mill ES		I worry about the traffic and related safety issue. My children should stay in bus more than 10 to 15 minutes than now. It's too hot in the summer and cold in the winter. It has to go through the I-285 through traffic. It's dangerous especially winter mornings because it's still dark. Please don't change the district. My kids just love their school	
12/4/2019 4:17	Henderson Mill ES	Reduces portable classrooms and impacts fewer schools	Does not alleviate overcrowding in some schools within district. Also, created a megaschool before considering community input. Schools of this capacity are typical for higher education versus elementary schools where smaller facilities that align with the attendees would seem like a more reasonable course of action.	There is no permanent leader in place at this time. Change is inevitable however we need to be sure that the best interests of the students are at the forefront of decision making process.
12/4/2019 11:25	Evansdale ES	None that come to mind.	Making my child go to a school further away, and no accessible through the neighborhood. Child will have to travel on unsafe, already over congested Chamblee road. Out of the 45 kids you plan to pull out of A1 ONLY 6 AREN'T ALREADY IN SCHOOL CHOICE! You are splitting my neighborhood and my family up. I could have 2 kids going to 2 schools ABSURD!	Delay until new permanent superintendent. Utter lack of transparency throughout this whole process. Stop building megaschools that you don't have the students to fill-waste and misuse of taxpayer money. Do your homework, you can't make any plan without looking at actual numbers.
12/4/2019 12:14	Hawthorne ES	My home isn't moved from walking distance to Hawthorne to driving distance to Henderson Mill. Least movement of students within the cluster.	Doesn't address overcrowding.	
12/4/2019 14:57	Oak Grove ES	Fewer students impacted across the cluster, keeps more communities intact. Looks good!		
12/4/2019 17:52	Henderson Mill ES	Thankful that the planners listened to the concerns of the Embry Hills community about staying intact and geographic location. Pleasantdale is too far and would require crossing over I285 up to 4x a day, driving at least 4 miles 1 way. Evansdale is the closest school (other than Warren Tech) to Embry Hills and it also has a similar program, STEM.	We lose inclusion in HMES and our award-winning STEAM program. HMES loses funding. Did not count the French Immersion numbers at EES so we may not all fit. Please keep Embry Hills in HMES inside the perimeter in the same direction as middle and high. Does not balance Lakeside cluster. Does not include Oakcliff data or Livsey, the closest zone to PES.	Consider moving Warren Tech & all of Embry Hills could walk to school and the rest of the cluster south can be balanced, i.e. Haw, OG, SAG improving traffic flow and ins. capacity. Move Oak Theme program to PES, 1/3 is already zoned PES. Leave more room for growth at PES when economy worsens or more apts are being built in nearby Doraville. Delay!
12/4/2019 19:09	Evansdale ES		Redistricting using the staff proposed plan breaks the integral fabric of Evansdale driven by a close intact community neighbourhood. Disruption of the thriving school choice programs -DLI and STEM Transfer of students to Evansdale resulting in overcrowding in grades 1-3, enrollment in grades 4-5 projected to be at maximum classroom size!	
12/4/2019 20:21	Henderson Mill ES	current plan keeps annexed Henderson Mill ES students from having to cross/commute on 85/285 - safer option	this plan over-corrects the HMES available seats - could simply leave Briarlake intact, decrease volume of HMES students moved by that number High student anxiety/ disruption of neighborhoods / loss of STEAM (which is what drove individuals to buy homes in this community) accompanying this move	at present, the leadership is interim - best to wait until stable/permanent
12/4/2019 21:37	Briarlake ES	None.	Only kids from Green Park complex will be moved, and some of them have been at Briarlake ES since the beginning of this complex's existence and have been a big part of Briarlake ES community. One can walk to Briarlake ES and to Henderson Mill ES one would need to drive kids. Kids who started education at a given school should be able to stay there	Allow to stay Briarlake ES community as a whole.

12/4/2019 23:09	Evansdale ES	Fills seats at Pleasantdale ES, keeps some neighborhoods intact, reduces 17 portable classrooms for Lakeside cluster (but not more than previous plans).	Doesn't keep tight-knit Wembley Forest neighborhood (A1) intact, presents A1 traffic/safety concerns (requires left turns on busy roads with no turn lanes or light, can't walk), doesn't address overcrowding at Hawthorne/Sagamore, & doesn't consider actual enrollment shifts due to enrichment programs (magnet, French immersion or Oakcliff theme).	Reconsider the Round 2 option 1 proposal that kept both Wembley Forest and Embry Hills neighborhoods intact, disrupted fewer students overall, and still reduced 17 portable classrooms. Over 100 students at Oakcliff could return to Pleasantdale bringing it to capacity which should be considered.
12/5/2019 11:39	Evansdale ES	Fills seats at Pleasantdale ES, keeps some neighborhoods intact, projected to reduce 17 portable classrooms for Lakeside cluster	Doesn't keep tight-knit Wembley Forest neighborhood A1-2 intact, presents A1-2 traffic/safety concerns (requires left turns on busy roads with no turn lanes or light, can't walk), doesn't address overcrowding at Hawthorne/Sagamore, & doesn't consider actual enrollment shifts due to enrichment programs (magnet, French immersion or Oakcliff theme).	Reconsider the Round 2 option 1 proposal that kept both Wembley Forest and Embry Hills neighborhoods intact, disrupted fewer students overall, and still reduced 17 portable classrooms. Over 100 students at Oakcliff could return to Pleasantdale bringing it to capacity which should be considered.
12/5/2019 13:21	Evansdale ES	Fills seats at Pleasantdale ES, keeps some neighborhoods intact, reduces 17 portable classrooms for Lakeside cluster (but not more than previous plans).	Doesn't keep tight-knit Wembley Forest neighborhood (A1) intact, presents A1 traffic/safety concerns-requires left turns on busy roads with no turn lanes or light, and children can no longer walk to take neighborhood streets to school. It doesn't consider actual enrollment shifts due to students remaining at Evansdale special programs.	Reconsider the Round 2 option 1 proposal that kept both Wembley Forest and Embry Hills neighborhoods intact, disrupted fewer students overall, and still reduced 17 portable classrooms. Over 100 students at Oakcliff could return to Pleasantdale bringing it to capacity which should be considered.
12/5/2019 13:48	Evansdale ES	Reduce 17 portable classrooms in Lakeside cluster, keeps some neighborhoods intact, fills seats at Pleasantdale	Doesn't keep tight-nit Wembley Forest neighborhood A1-2 intact, presents A1 2 traffic/safety concerns (requires left turns on busy roads with no turn lanes or light, cant' walk) doesn't address overcrowding at Hawthorne/Sagamore and doesn't consider actual enrollment shifts due to enrichment programs (magnet, French immersion or Oakcliff theme).	Reconsider the Round 2 option 1 proposal that kept both Wembley Forest and Embry Hills neighborhoods intact, disrupted fewer students overall, and still reduced 17 portable classrooms. Over 100 students at Oakcliff could return to Pleasantdale bringing it to capacity which should be considered.
12/5/2019 17:25	Evansdale ES		Join pleasantdale elm will drop my house value . I donâ€™t trust the teaching quality in Pleasantdale elm. We pay much higher tax than pleasantdale neighborhood, schools redistricting is not fair for current Evansdale neighbors.	
12/5/2019 18:16	Evansdale ES	Our family does not see many/any pros to this plan.	Distance needed to travel to school, breaking up neighborhood continuity. My husband and I moved to this neighborhood specifically because the elementary school was so close by. Traveling to Pleasantdale for school prohibits walking and could be disruptive to routines. The redistricting lines also seem arbitrary.	Losing the community of a neighborhood school
12/6/2019 7:21	Evansdale ES	N/A	This plan overestimates the number of students who will be moved to Evansdale since many of the students in the proposed redistricted area are school choice students. The students moved to Evansdale from Henderson Mill would be packed into two classrooms per grade. This is simply not feasible.	The proposed plan would significantly divide the Evansdale community with potentially disastrous results.
12/6/2019 8:52	Evansdale ES		School choice students grandfathered into the programming, but residing in areas A1/A2 on published maps were not considered in projected enrollment. Portables used for instructional purposes increase as required to accomodate students. Enrollment in grades 4-5 projected to be at max state classroom size (not ideal). 1	109 Transfer students to Evansdale only eligible for 64% of the school's physical building. Major roadways creating more intuitive boundaires, have beeb removed, creating traffic patterns for school buses and parent transport that require use of a major roadway during rush hour. Students previously able to walk to school require a car or bus.
12/6/2019 9:40	Henderson Mill ES	Embry hills stays together. Close proximity to neighborhood. Much better than original plan of EH going outside perimeter.	Embry hills not in HMES and Evansdale split up while Livsey closest to PES remains unaffected.	Wait to do a thorough plan, not piece meal, to be most effective with taxpayer funds.
12/6/2019 10:29	Evansdale ES	Fills seats at Pleasantdale ES, keeps some neighborhoods intact, projected to reduce 17 portable classrooms for Lakeside cluster	Disrupts community of Wembley Forest which has strong Evansdale identity; A1-2 traffic/safety concerns (requires left turns on busy roads with no turn lanes or light, can't walk), doesn't address overcrowding at Hawthorne/Sagamore, & doesn't consider actual enrollment shifts due to enrichment programs (magnet, French immersion or Oakcliff theme).	Reconsider the Round 2 option 1 proposal that kept both Wembley Forest and Embry Hills neighborhoods intact, disrupted fewer students overall, and still reduced 17 portable classrooms. Over 100 students at Oakcliff could return to Pleasantdale bringing it to capacity which should be considered.
12/6/2019 10:35	Evansdale ES	The main improvement seems to be the disuse of portable classrooms.	Evansdale's area looks gerrymandered. Looks as though definitely area A1 (maybe A2) belongs to Evansdale and some of area C should belong to Pleasantdale. No change to Hawthorne, Oak Grove, or Sagamore? Henderson Mill and Pleasantdale can absorb more, for a more even distribution. This mapping only reduces utilization in 3 districts.	

12/6/2019 10:40	Henderson Mill ES			
12/6/2019 11:08	Evansdale ES			
12/6/2019 11:45	Evansdale ES		Sections A1 and A2 Splits neighborhoods Kids in A2 are moved further away from the school they go to These kids often walk or ride bikes to school. The numbers the staff put together do not reflect the kids in school choice programs and will actually increase overcrowding at Evansdale.	I would like to see the Superintendent defer until further analysis of actual numbers are taken into account. Based on talking to affected parents in the A1 and A2 areas that will not move due to school choice, I believe that the staff numbers are flawed
12/6/2019 11:55	Evansdale ES	Lakeside Cluster remains intact.	Evalnstructional capacity at Evansdale will not be improved, because School Choice students account for 44% of the capacity and would not move. For area A1 there are two schools (Edale and Livsey) geographically closer than Pleasantdale. Students would brave dangerous Chamblee-Tucker Road - now they can drive/walk to school in their neighborhood.	Please keep the existing Evansdale community intact. Our community spirit is very strong and supports the school monetarily and in other ways. Also, too much upheaval and uncertainty at the DCSD county level signals that you should delay and re-evaluate once a new superintendent is in place.
12/6/2019 12:04	Evansdale ES	Fills seats at Pleasantdale ES, keeps some neighborhoods intact, reduces 17 portable classrooms for Lakeside cluster (but not more than previous plans).	Doesn't keep tight-knit Wembley Forest neighborhood (A1) intact, presents A1 traffic/safety concerns (requires left turns on busy roads with no turn lanes or light, can't walk), doesn't address overcrowding at Hawthorne/Sagamore, & doesn't consider actual enrollment shifts due to enrichment programs (magnet, French immersion or Oakcliff theme).	Reconsider the Round 2 option 1 proposal that kept both Wembley Forest and Embry Hills neighborhoods intact, disrupted fewer students overall, and still reduced 17 portable classrooms. Over 100 students at Oakcliff could return to Pleasantdale bringing it to capacity which should be considered.
12/6/2019 12:43	Evansdale ES			
12/6/2019 13:48	Evansdale ES	None.	The plan does not take into account Evansdale's French Immersion program, negatively affecting instructional capacity and projected enrollment. School choice students can remain at Evansdale and therefore the school will be overcrowded with new students and require additional classrooms and teachers to comply with state requirements.	The harsh affect on intact communities must be considered, particularly the splitting up of Evansdale neighborhoods AND families who will have 1 child in French Immersion and a younger sibling who may be forced to attend a different public elementary school.
12/6/2019 15:11	Briarlake ES			
12/6/2019 15:42	Evansdale ES	Lakeside cluster remains intact and feeder patterns aren't impacted.	E'dale becomes overcrowded. Projected transfers from E'dale are skewed high because School Choice/DLI students grandfathered into the program and residing in A1/A2 maps will very likely stay at E'dale. Due to admittance guidelines, transfers to E'dale can only use 64% of instructional capacity because 36% is dedicated to DLI.	Major roadways create natural boundaries, but this plan removes that, causing buses/cars/walkers to travel upon or across such roadways, which otherwise would not be necessary. The intact E'dale neighborhood/community is arbitrarily divided at unnatural/illogical boundaries.
12/6/2019 21:10	Evansdale ES	I don't see any pros. The majority of students living in A1 and A2 are enrolled in the DL program at Evansdale and will not be moving to Pleasantdale. Therefore, Evansdale will be even more overcrowded next year with the influx of new students because they will not lose any to Pleasantdale.	Evansdale has over 100 school choice students attending Evansdale from areas outside the attendance zone. How can Evansdale be considered over capacity when almost 1/6th of the population of students are living outside of the attendance zone? If Evandale didn't have a school choice program, it would not be over capacity.	Create an attractive school choice program at Pleasantdale, and allow current Evansdale school choice students to continue at Evansdale without adding new students. Establish an attractive DL program and school choice program at Pleasantdale.
12/6/2019 22:12	Evansdale ES	Remain with Lakeside cluster/same feeder pattern.	Grandfathered Evansdale French Immersion students will increase projected numbers/result in over-crowding; Students who can walk/bike to school will be forced to drive on already crowded roads (multiple left hand turns/no turn lanes); Lose community cohesion/alumni support; Previous redistricting had negative impact on Evansdale.	This plan splits the neighborhood in half, moving engaged Evansdale families out of the school but still results in over-crowding. School choice programs need to be considered. Families choose this neighborhood for Evansdale; please don't destroy our community.
12/6/2019 22:15	Evansdale ES		Evansdale is a very tight community. Moving kids to Pleasantdale will divide this community, create more traffic and anxieties for our children	
12/6/2019 23:23	Henderson Mill ES	The Embry Hills area gets to stay together and go to Evansdale with French immersion/STEM. Thank you! It is closer to our neighborhood than PES, and we will not have the added safety concerns of crossing I-285, plus added mileage getting there.	The Embry Hills community no longer gets to attend our long-time home school, HMES, and continue to benefit from our award-winning, and hard worked for, STEAM program.	Balancing enrollment and easing overcrowding in the ENTIRE Lakeside cluster.
12/7/2019 8:52	Evansdale ES	None. Find another neighborhood besides Wembley Forest to move. We belong in Evansdale.	I seem to recall Evansdale became overcrowded due to redistricting in Pleasantdale students. Why not just send them back and leave our neighborhood intact. Leave Wembley Forest alone. You have been wanting to boot us out of Evansdale forever. Traditionally we very committed to Evansdale.	

12/7/2019 10:12	Henderson Mill ES	This recommendation keeps the Embry Hills neighborhood together and inside the perimeter, closer to all other neighborhood schools, and off a major highway that is frequently shut down due to wrecks. EES also lines up with the STEM programs we have fought so hard to get at HMES.	HMES is Right Sized. Only 31/2 of its 6 trailers are used for full time instruction. There is not need to move our students other than your need bodies in a very large building which with new development will soon be busting at the seams. 1/3 of HMES PTA lives in Embry Hills. We made a school choice when we bought our homes in this neighborhood.	Moving Embry Hills to Pleasantdale sends us 5 miles north of our homes. We would then have to come back south in rush hour traffic, at least 20 minutes, to get our other kids to middle school. The bus already comes at 6:30. As the PTA president of HMES it has been so easy to drive 7 minutes to school and be a very active member.
12/7/2019 17:11	Evansdale ES	The kids/families in the apartments down Old Chamblee Tucker do not have to cross Chamblee Tucker to get to school any more.	It's a transportation nightmare, requiring many to cross Chamblee Tucker (a main artery in the area on which cars typically travel very fast) and force many to make left-hand turns onto Chamblee Tucker during the height of rush hour to get their kids to school. It critically fractures the Evansdale community, which is crucial to school support	School Choice accounts for 44% of Evansdale's instructional capacity, of which 36% is dedicated to the DLI program, not allowing incoming transfers beyond the 1st grade. 109 transfer students to Evansdale only eligible for 64% of the school's physical instructional space, which results in overcrowding in the early grades and is unacceptable.
12/7/2019 17:33	Henderson Mill ES	Shifting HMES to Evansdale is a good choice.		Traffic and proximity as well as STEAM certification that our community worked for, Evansdale has STEAM so is a good compromise
12/7/2019 17:57	Henderson Mill ES	Embry Hills stays in tact and doesn't have to travel as far as Pleasantdale.	Embry hills will lose the opportunity to attend Henderson mill. Henderson Mill's STEAM program was the reason we bought this house last Summer.	Taking into consideration that the sole reason many people moved to Embry Hills was for the school.
12/7/2019 19:00	Henderson Mill ES	Keeps Embry hills community in tact at Evansdale. We keep STEM programs. Prevents us from fighting/ contributing to huge traffic/ safety concerns crossing 285. Geographic proximity for our community.	Henderson Mill is the reason we joined this community and purchased my home. Lose STEAM program that many in Embry Hills help you build. Lose inclusion in Henderson Mill zone. This is a short term fix and is being made in haste without a permanent superintendent. I strongly believe we should delay and take a holistic approach to redistricting.	Use 285 as natural border to districting. Families purposefully choose inside or outside perimeter. This also aligns with traffic/ safety patterns.
12/7/2019 22:57	Henderson Mill ES	The current suggested plan moves children from our neighborhood Embry Hills from HMES to Evansdale. It is good that the whole neighborhood stays together so children can socialize at school and participate at school events. Evansdale is located nearby and can be reached without crossing a major highway and it offers similar programs like HMES.	Currently students living in Embry Hills go to HMES, HMMS & then LSHS. Both our children attended these schools, graduated from LSHS. We would want all children to continue to attend Lakeside. LS offered great programs and prepared them well for college. So our first choice would be to stay at HMES, then attend HMMS and after that LSHS.	Evaluate other factors that could impact current projections and if now is really a good time to make changes. Are there any other options currently not considered?
12/8/2019 8:42	Henderson Mill ES	As a resident of Embry Hills and the current Henderson Mill attendance zone, this new plan moves us to Evansdale. Evansdale is much closer to us than Pleasantdale, and it is a good school. It has STEM and French Immersion, and keeps us from having to cross over I285 up to 4x a day. This plan allows us to remain intact as a community.	Embry Hills would lose its inclusion in the Henderson Mill zone and its STEAM program. We moved to this neighborhood to attend Henderson Mill, so we are disappointed to be re-zoned.	Pleasantdale is NOT an option for us. It's too inconvenient considering all the traffic driving over 285 in rush hour multiple times daily.
12/8/2019 10:31	Evansdale ES	None	We are/have been a neighborhood school for decades. There is a strong sense of community that will be divided in half by this redistribution of students. Please do not change the Evansdale student base.	
12/8/2019 11:46	Evansdale ES	-Does not disrupt students in schools far away from Pleasantdale -Keeps Lakeside cluster intact	-Breaks up an intact neighborhood (Wembley Forest, Northumberland). Separating area A1 is particularly egregious. -Negatively effects instructional capacity and projected enrollment due to high enrollment in school choice programs at Evansdale. -Kids in A1 region will have a more dangerous trip to school, will have to travel on Chamblee-tucker now.	
12/8/2019 12:34	Evansdale ES	None from my standpoint	1) Splits neighborhoods like Henderson Estates and Wembley Forest which are now all considered one contiguous neighborhood 2) Serious safety issues related to making left turn out of Wembley Forest onto Chamblee Tucker Road in mornings and in afternoons 3) Number of students impacts does not appear to consider French Immersion program	1) Would prefer to defer any redistricting decisions until new superintendent is on board and can review

12/8/2019 13:19	Briarlake ES	We are very grateful that this plan does not move us from Briarlake to Henderson Mill since that would have required driving through a busy commercial area with 7 traffic lights instead of driving a half mile down the road with no traffic lights and a walkable distance.	From the community meeting, it seemed apparent that most households would be grateful to remain at their current schools. Some recommended offering the opportunity for some Livesey students to move to Pleasantdale since it is closer as opposed to options where a large number of students are moved to elementary schools further away.	Traffic patterns should be considered in redistricting. Many options considered would make it much more difficult for parents to take their kids to school and participate in school activities. I think it will be easier to redistrict the southern part of the Lakeside cluster after the Hawthorne/Henderson Mill plans are finalized.
12/8/2019 15:00	Evansdale ES	High school feeder plans remained intact. Intact neighborhoods who were previously districted to Pleasantdale are returned to Pleasantdale (Alturas, Henderson Walk, Sierra Hills).	Boundary lines drawn through middle of Evansdale neighborhood. French immersion kids in A1/A2 won't move to Pleasantdale so number moving is lower than stated. Kids who could ride bike to school now need to travel on busy roads. Please don't move closer kids out to move farther kids in.	Neighborhoods contribute greatly to their school. Dividing a neighborhood hurts the school. Moving kids from a school they can walk to a school 2+ miles away does not make sense.
12/8/2019 16:43	Henderson Mill ES			
12/8/2019 16:44	Henderson Mill ES			
12/8/2019 16:52	Henderson Mill ES	Does help with geographical location for Pleasantdale	Because you are not moving ANY students from Sagamore, Oak Grove or Hawthorne, it forces HMES to absorb more apartments (which equals more TRANSITION among students).Unfair.Having high transition creates more work for staff, and makes it more difficult for students too. Balance that better with other sections from Briarlake and Hawthorne	If HMES and Hawthorne could eventually be merged, then the inclusion of the "D" area to HMES also doesn't make sense. Better off to pull from Hawthorne and Briarlake closer areas.
12/8/2019 17:05	Henderson Mill ES			
12/8/2019 17:21	Henderson Mill ES	This plan keeps Embry Hills civic assn. intact & shifts us to the school closest to us, Evansdale, which has a STEM program. We could walk to Evansdale. This plan keeps us from shifting to Pleasantdale and having to drive 4 miles over I285 in the opposite direction of our middle/high schools. This is a good compromise for the Embry Hills community.	Embry Hills loses their home school and STEAM program which many active parents in this community helped build. This plan really does not balance the cluster. It also divides Evansdale streets and there may not be as much room for us. Please keep the active homeowners in Embry Hills shifting to Evansdale (closest) or keep us in HMES (1st choice).	Thank you to the planners that listened to the repeated concerns from the residents in the Embry Hills Civic Assn. streets- ITP. Geographic prox: Evansdale is closest, then HMES. Traffic/safe: EES is a safe walking distance to most Embry Hills homes. Keeps us from traveling 4 miles, xing 285 daily, & 40 mins of traffic as 1st drafted going to PES.
12/8/2019 17:41				
12/8/2019 17:52	Henderson Mill ES			
12/8/2019 18:03	Henderson Mill ES	It keeps the Embry Hills neighborhood intact.	You are removing Embry Hills from a school district they have been a part of for 35+ years. Most people who purchased in our neighborhood did so specifically to be in the HMES district. You would be taking away the STEAM program from our children. Also, big decisions should be put on hold until a permanent superintendent is in place.	This seems to be a rushed decision, forcing redistricting that seems to be trending to just another round of redistricting in the future. I do not think our community is being listened to and we are being bullied into short-sighted redistricting options.
12/8/2019 18:36	Henderson Mill ES	-Keeps the Embry Hills neighborhood intact -Shifts the Embry Hills neighborhood into Evansdale (instead of Pleasantdale) which was the 2nd choice option on our neighborhood survey -Evansdale has STEM -Evansdale is closest geographically to Embry Hills -Prevents the Embry Hills neighborhood from having to cross I-285 up to 4 times per day.	-The Embry Hills neighborhood is longer in the Henderson Mill attendance zone (disrupting students and destroying our 35 year relationship with the school) -Embry Hills loses STEAM program -The process is being rushed while we have an interim superintendent and should be delayed, a more comprehensive redistricting plan must be considered	The process is being rushed while we have an interim superintendent and should be delayed. A comprehensive redistricting plan must be considered to include Tucker High School cluster (e.g. Livsey Elementary), Oakcliff Theme School and other options for filling the seats at the new Pleasantdale Elementary School.
12/8/2019 18:46	Henderson Mill ES			
12/8/2019 18:49	Evansdale ES	-Keeps the Embry Hills neighborhood intact -Shifts the Embry Hills neighborhood into Evansdale (instead of Pleasantdale) which was the 2nd choice option on our neighborhood survey -Evansdale has STEM -Evansdale is closest geographically to Embry Hills -Prevents the Embry Hills neighborhood from having to cross I-285 up to 4 times per day.	-The Embry Hills neighborhood is longer in the Henderson Mill attendance zone (disrupting students and destroying our 35 year relationship with the school) -Embry Hills loses STEAM program -The process is being rushed while we have an interim superintendent and should be delayed, a more comprehensive redistricting plan must be considered	The process is being rushed while we have an interim superintendent and should be delayed. A comprehensive redistricting plan must be considered to include Tucker High School cluster (e.g. Livsey Elementary), Oakcliff Theme School and other options for filling the seats at the new Pleasantdale Elementary School.
12/8/2019 18:52	Evansdale ES	Nothing favorable for area A1 currently. Thanks for offering this survey to voice concerns.	Fails to follow primary criteria, geographic proximity. Area immediately north of A1 should be included in Pleasantdale district, instead of A1. Feeder school is a secondary criteria. That area was previously Pleasantdale ES. This would allow A1 to stay intact and avoid dangerous transit to P. ES and breaking up A1's long history at Evansdale.	Continuity of French immersion and STEM programs at Evansdale need to be carefully considered. Students being moved would be very disruptive to their education. Overall redistricting plan disrupts too many neighborhoods.

12/8/2019 18:59	Henderson Mill ES			
12/8/2019 19:59	Henderson Mill ES	Most students unaffected	Does not change high schools. Some kids on flowers road s will go further to HMES than those on dunnington which are rezoned to evansdales. None of Livsey rezoned to pleasantdale. Parts of evansdale district rezoned to pkeasantdale instead of closer Livsey. Could close Livsey and move all students to pleasantdale.	
12/8/2019 20:09	Henderson Mill ES	As sixteen-year residents of the Embry Hills neighborhood, we strongly prefer being moved to Evansdale rather than Pleasantdale. Evansdale is much closer to our homes and would be much easier to get to/from as far as traffic goes. This was a strong preference for a majority of our neighbors. Please consider these factors. Thank you.	None	
12/8/2019 20:11	Henderson Mill ES

12/8/2019 21:11	Evansdale ES			
12/8/2019 21:32	Henderson Mill ES			
12/8/2019 21:40				
12/8/2019 22:02	Evansdale ES	Do not see any.	Breaking up the neighborhood. Not natural boundaries. My child can walk to evansdale, if we are redistricted we will be crossing over busy chamber tucker and making dangerous left hand turns. I am very opposed to this change. Henderson estates is redistricted, not terramar and then nottaway. Why just the ranch homes and not bigger homes? Makes no s	Keep neighborhood together and think of safety of children. The commute to pleasantdale is ridiculous when evansdale is just down the road.
12/8/2019 22:14	Henderson Mill ES	Many current families attending Henderson Mill Elementary are used to and moved to the area for their involvement in the STEM and STEAM program. Evansdale offers an established STEM program, which is a vastly preferable option over Pleasantdale.	Talking to families in the effected area, all are deeply upset over all options due to the speed of the process and upheaval of the Dekalb school district the past year and a half. It is far far too early to move so many children and we believe DeKalb should WAIT to redistrict so the data is more accurate.	Should consider that everyone in the effected area is deeply upset and think Dekalb redistricting plan is motivated primarily by money rather than the wishes of the residents, and that we are motivated to action and will vote accordingly to those in elected positions.
12/8/2019 23:12	Evansdale ES	ills seats at Pleasantdale ES, keeps some neighborhoods intact, reduces 17 portable classrooms for Lakeside cluster (but not more than previous plans).Â	Doesn't keep tight-knit Wembley Forest neighborhood (A1) intact, presents A1 traffic/safety concerns (requires left turns on busy roads with no turn lanes or light, can't walk), doesn't address overcrowding at Hawthorne/Sagamore, & doesn't consider actual enrollment shifts due to enrichment programs (magnet, French immersion or Oakcliff theme).Â	Reconsider the Round 2 option 1 proposal that kept both Wembley Forest and Embry Hills neighborhoods intact, disrupted fewer students overall, and still reduced 17 portable classrooms. Over 100 students at Oakcliff could return to Pleasantdale bringing it to capacity which should be considered.Â
12/8/2019 23:40	Evansdale ES		Con for Geographic Proximity and Safety and Traffic Patterns - My home in A2 and is easily walkable to Evansdale Elementary. The new plan would require a car or bus ride through busy roads and intersections Also con for Intact Neighborhoods - A2 cuts right through our neighborhood - between homes on the same street/in the same subdivision.	
12/9/2019 6:50	Evansdale ES	The Lakeside Cluster remains intact and feeder patterns are not affected.	1)Does not solve the Instructional Capacity & Projected Enrollment. 2)Kids are not able to walk to school. 3)Won't keep the existing Evansdale community intact. 4)Like to keep my kids in the Evansdale's French Magnet program and STEM program.	Please consider expanding Evansdale's physical buildings to be able to accommodate the growth of the projected Enrollment.
12/9/2019 7:05

12/9/2019 8:49	Henderson Mill ES			

12/9/2019 8:49	Henderson Mill ES		Henderson Mill Elementary has a strong network of families, children and staff. It is not in our children's best interest to disrupt this community.	Please consider transportation risks involved and disrupting a community that is well established with deep roots.
12/9/2019 8:49	Henderson Mill ES			
12/9/2019 8:49	Briarlake ES	Thank you for the opportunity to participate. I appreciate that this change keeps the students off Lavista and close to Briarlake at Briarlake ES. I think this makes a lot of sense in terms of proximity and traffic patterns safety since the kids are much closer to Briarlake and can remain at their school with their peers.	I think the decision for redistricting should at the southside of the Lakeside cluster should be delayed. I don't think the options presented thusfar to move southside students would be efficient in terms of travel/distance/breaking up peer groups. I don't understand why some of the households located west of Montreal are still moved to HMES.	The projected 30 students at the apartment complex moved from Briarlake to HMES seem too high. Are there really 29 students from this complex at Briarlake ES right now?
12/9/2019 8:49	Evansdale ES			
12/9/2019 8:49	Other			
12/9/2019 8:49	Evansdale ES	Fills seats at Pleasantdale ES, keeps some neighborhoods intact, reduces 17 portable classrooms for Lakeside cluster (but not more than previous plans).	Doesn't keep tight-knit Wembley Forest neighborhood (A1) intact, presents A1 traffic/safety concerns (requires left turns on busy roads with no turn lanes or light, can't walk), doesn't address overcrowding at Hawthorne/Sagamore, & doesn't consider actual enrollment shifts due to enrichment programs (magnet, French immersion or Oakcliff theme).	Reconsider the Round 2 option 1 proposal that kept both Wembley Forest and Embry Hills neighborhoods intact, disrupted fewer students overall, and still reduced 17 portable classrooms. Over 100 students at Oakcliff could return to Pleasantdale bringing it to capacity which should be considered.
12/9/2019 8:49	Henderson Mill ES	I recommend NO changes in my current school district, as Henderson Mill Elementary is closest in proximity to my home and surrounding subdivision. Pleasantdale Elementary is NOT a viable alternative due to the distance, dangerous intersections surrounding the interstate highways and the lack of consistent educational opportunities at Pleasantdale.		Due to the nature of the lack of available programs, distance and crossing of the interstate highways, Pleasantdale is not a viable alternative for my school district. If a change must be made to my school district, then Evansdale Elementary is the ONLY option.
12/9/2019 8:49	Evansdale ES	A newer school is nice.	to bus kids that live in the neighborhood to a busier street does not seem right longer bus rides increase potential accidents especially in bad weather home was purchased to send kids to the local Evansdale ( neighborhood) Evansdale has suffered from previous redistricting,it needs to go back to being a neighborhood school keep them together!	keep kids near walking distant to their elementary schools
12/9/2019 8:49	Henderson Mill ES	Keeps the Embry Hills neighborhood intact -Shifts the Embry Hills neighborhood into Evansdale (instead of Pleasantdale) which was the 2nd choice option on our neighborhood survey -Evansdale has STEM -Evansdale is closest geographically to Embry Hills -Prevents the Embry Hills neighborhood from having to cross I-285 up to 4 times per day.	The Embry Hills neighborhood is longer in the Henderson Mill attendance zone (disrupting students and destroying our 35 year relationship with the school) -Embry Hills loses STEAM program -The process is being rushed while we have an interim superintendent and should be delayed, a more comprehensive redistricting plan must be considered	The process is being rushed while we have an interim superintendent and should be delayed. A comprehensive redistricting plan must be considered to include Tucker High School cluster (e.g. Livsey Elementary), Oakcliff Theme School and other options for filling the seats at the new Pleasantdate Elementary School.
12/9/2019 8:49	Henderson Mill ES			
12/9/2019 8:49				
12/9/2019 8:49	Henderson Mill ES		The recommended plan fails to capture several impacts to HMES, including the effect a shift in students will have on HMES' Title I status, HMES' award-winning STEAM program, and faculty hiring. At HMES we are happy with our current student body makeup -- all we ask for is the SPLOST funding we were promised several years ago for building upgrades.	I strongly believe that the Interim Superintendent and the Board should put on hold any plans of redistricting until a new Superintendent is hired and until such time as factors which were not originally considered but have been raised through public discourse are fully vetted.
12/9/2019 8:49	Henderson Mill ES			
12/9/2019 8:49	Henderson Mill ES			

12/9/2019 8:49	Henderson Mill ES	Smaller school	<p>Loss of 1 or more teachers, upset kids.</p> <p>Larger class sizes due to loss of teachers.</p> <p>Loss of a portion of STEM funding.</p> <p>Reshuffling of classes, kids losing friends and study partners, negative impact on grades and scores.</p> <p>General feeling of turmoil, again likely leading to lower grades and scores.</p> <p>Demographic changes in classrooms.</p>	Don't fix what ain't broke
12/9/2019 8:49	Evansdale ES		We chose this home for Evansdale, have invested time and money into this neighborhood to that end. The A1 plan creates an island disrupting the cohesive nature of our community. As it stands our children can walk to school. This will not solve Pleasantdale capacity issues and challenges Evansdale student effectiveness. Please reconsider!	Instructional Capacity, Traffic, Intact Communities, and Program Effectiveness
12/9/2019 8:49				
12/9/2019 8:49	Henderson Mill ES	Fewer kids in trailers	Loss of teachers at Henderson Mill, potential loss of STEM funding. Evansdale neighborhood being split. Redistricting under an interim superintendent is not a long-term solution.

12/9/2019 8:49	Henderson Mill ES	Embry Hills stays together. Evansdale is within walking distance. Don't have to cross over 285. Keeps us out of having to drive to Pleasantdale which is too far from our home.	Moves too many from Embry Hills out of Henderson Mill. This could affect their funding. Is there room at Evansdale? We lose STEAM, which is award winning. Other schools don't have the same program.	Delay until we have a permanent superintendent. Leave room at Pleasantdale. The area is still growing, especially in nearby Doraville and a recession is likely which will probably increase numbers of seats at Pleasantdale. Close Oakcliff off to new Pleasantdale students now that it has hundreds of empty seats. What about Livsey? They are close.
12/9/2019 8:49	Henderson Mill ES	Keeps my child with his peers that live in our neighborhood. Avoids the traffic nightmare that is Chamblee Tucker at 285.	Still requires crossing over 285 4 times in a day. I moved to my neighborhood for the stem /steam program at hmes. Programs which are not available at evansdale.	Wait until the district a) has a superintendent that is not interim. And b) can develop a comprehensive, long term redistricting plan

12/9/2019 8:49	Evansdale ES	The Lakeside Cluster remains intact. ES-HMMS-Lakeside.	<p>â— School Choice accounts for 44% of Evansdale's instructional capacity, of which 36% is dedicated to the DLI program, not allowing incoming transfers beyond the 1st Grade.</p> <p>â— School Choice students grandfathered into the programming, but residing in areas A1/A2 on published maps were not considered in projected enrollment.</p>	Intact neighborhoods impacted by DLI students staying at ES and neighbors in GE going to different school.

12/9/2019 8:49	Henderson Mill ES	Pros - Keeps neighborhood kids closer to home and not crossing Chamblee Tucker road. Also, reduces number of portable classrooms at HME.	Kids have to leave their friends at HME.	
12/9/2019 8:49				
12/9/2019 8:49	Evansdale ES	When new P'dale construction started, and when this was planned, it was well known that the attendance community surrounding it is transient in nature. P'dale needs to market its own immersion and/or school choice program to fill vacant seats rather than pulling from neighborhoods that will have to battle traffic on Chamblee Tucker to get there.	Evansdale is a school choice program and the enrollment expected by redistricting will not be achieved as families will choose to stay in the French Immersion programs they committed to in Kindergarten and 1st grade. A program the county committed to. A program that some families moved into the area for.	Redistricting will surpass instructional capacity at Evansdale because of the school choice programs already in effect.

12/9/2019 8:49				
12/9/2019 8:49	Evansdale ES	None	Proximity- A1 is equidistant . Pleasantdale is a dangerous roadway- With a left turn across fast and heavy traffic. The apartments across the street are crime filled ,unlike the single family homes in A-1 See police crime data. A safe community would be chopped up Academic achievement for A1 has been high while Pleasantdale has not been. Don't punish	Academic achievement data. The numbers will show the difference. Why send more students from further way to Evansdale while taking away the reason many families moved to our community in the first place?

12/9/2019 8:49	Henderson Mill ES			
12/9/2019 8:49	Henderson Mill ES	Embry hills neighborhood stays intact and will go to the closest school, Evansdale. Evansdale is STEM school with French immersion program.	Embry hills doesn't get to stay at current STEAM school, HME. Should be delaying this decision to look at comprehensive redistricting as this sort of piecemeal redistricting is distributive to children's education.	
12/9/2019 8:49	Henderson Mill ES			
12/9/2019 8:49	Henderson Mill ES		-overall, too hasty with so many changes in district level leadership Doesn't count Students in French immersion program at EES -threatens stem & title 1 funding at HMES with large loss of student	Please DELAY this process and invite the community into conversation AND let new district leadership design new districts.
