

## DeKalb County School District

### Farm to School Initiative

#### School Year 2015-2016

The DeKalb County School Nutrition Program is working with Dexter Farms to bring locally grown fruits and vegetables to the students of DeKalb. This is a national initiative that provides students fresh fruits and vegetables through the connection of in-state farmers. Each month, the DeKalb School Nutrition program will highlight at least one locally grown fresh fruit or vegetable in the cafeteria each month at lunch along with nutrition education regarding its origin. The program has expanded to also include two fruits/vegetables at breakfast each semester. Products may vary based on availability. This program supports the department's mission to promote lifetime wellness to DeKalb County students and staff by serving meals that are high quality, nutritious, enjoyable, and economical.
